EX. ORD. NO. 13266. ACTIVITIES TO PROMOTE PERSONAL FITNESS

Ex. Ord. No. 13266, June 20, 2002, 67 F.R. 42467, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to improve the efficiency and coordination of Federal policies related to personal fitness of the general public, it is hereby ordered as follows:

SECTION 1. *Policy.* This order is issued consistent with the following findings and principles:

(a) Growing scientific evidence indicates that an increasing number of Americans are suffering from negligible physical activity, poor dietary habits, insufficient utilization of preventive health screenings, and engaging in risky behaviors such as abuse of alcohol, tobacco, and drugs.

(b) Existing information on the importance of appropriate physical activity, diet, preventive health

screenings, and avoiding harmful substances is often not received by the public, or, if received, is not acted on sufficiently.

(c) Individuals of all ages, locations, and levels of personal fitness can benefit from some level of appropriate physical activity, dietary guidance, preventive health screening, and making healthy choices.

(d) While personal fitness is an individual responsibility, the Federal Government may, within the authority and funds otherwise available, expand the opportunities for individuals to empower themselves to improve their general health. Such opportunities may include improving the flow of information about personal fitness, assisting in the utilization of that information, increasing the accessibility of resources for physical activity, and reducing barriers to achieving good personal fitness.

SEC. 2. Agency Responsibilities in Promoting Personal Fitness.

(a) The Secretaries of Agriculture, Education, Health and Human Services (HHS), Housing and Urban Development, Interior, Labor, Transportation, and Veterans Affairs, and the Director of the Office of National Drug Policy shall review and evaluate the policies, programs, and regulations of their respective departments and offices that in any way relate to the personal fitness of the general public. Based on that review, the Secretaries and the Director shall determine whether existing policies, programs, and regulations of their respective departments and offices should be modified or whether new policies or programs could be implemented. These new policies and programs shall be consistent with otherwise available authority and appropriated funds, and shall improve the Federal Government's assistance of individuals, private organizations, and State and local governments to (i) increase physical activity; (ii) promote responsible dietary habits; (iii) increase utilization of preventive health screenings; and (iv) encourage healthy choices concerning alcohol, tobacco, drugs, and safety among the general public.

(b) Each department and office included in section 2(a) shall report to the President, through the Secretary of Health and Human Services, its proposed actions within 90 days of the date of this order.

(c) There shall be a Personal Fitness Interagency Working Group (Working Group), composed of the Secretaries or Director of the departments and office included in section 2(a) (or their designees) and chaired by the Secretary of HHS or his designee. In order to improve efficiency through information sharing and to eliminate waste and overlap, the Working Group shall work to ensure the cooperation of Federal agencies in coordinating Federal personal fitness activities. The Working Group shall meet subject to the call of the Chair, but not less than twice a year. The Department of Health and Human Services shall provide such administrative support to the Working Group as the Secretary of HHS deems necessary. Each member of the Working Group shall be a full-time or permanent part-time officer or employee of the Federal Government.

SEC. 3. General Provisions. This order is intended only to improve the internal management of the executive branch and it is not intended to, and does not, create any right, benefit, trust, or responsibility, substantive or procedural, enforceable at law or equity by a party against the United States, its departments, agencies or entities, its officers or employees, or any person.

Ex. Ord. No. 13410, Aug. 22, 2006, 71 F.R. 51089, provided:

By the authority vested in me as President by the Constitution and the laws of the United States, and in order to promote federally led efforts to implement more transparent and high-quality health care, it is hereby ordered as follows:

SECTION 1. *Purpose.* It is the purpose of this order to ensure that health care programs administered or sponsored by the Federal Government promote quality and efficient delivery of health care through the use of health information technology, transparency regarding health care quality and price, and better incentives for program beneficiaries, enrollees, and providers. It is the further purpose of this order to make relevant information available to these beneficiaries, enrollees, and providers in a readily useable manner and in collaboration with similar initiatives in the private sector and non-Federal public sector. For purposes of this order, "Federal health care program" does not include State operated or funded federally subsidized programs such as Medicaid, the State Children's Health Insurance Program, or services provided to Department of Veterans' Affairs beneficiaries under 38 U.S.C. 1703.

(c) "Interoperability" means the ability to communicate and exchange data accurately, effectively, securely, and consistently with different information technology systems, software applications, and networks in various settings, and exchange data such that clinical or operational purpose and meaning of the data are preserved and unaltered.

SEC. 3. *Directives for Agencies.* Agencies shall perform the following functions:

(a) Health Information Technology.

(1) For Federal Agencies. As each agency implements, acquires, or upgrades health information technology systems used for the direct exchange of health information between agencies and with non-Federal entities, it shall utilize, where available, health information technology systems and products that meet recognized interoperability standards.

(2) For Contracting Purposes. Each agency shall require in contracts or agreements with health care providers, health plans, or health insurance issuers that as each provider, plan, or issuer implements, acquires, or upgrades health information technology systems, it shall utilize, where available, health information technology systems and products that meet recognized interoperability standards.

(b) Transparency of Quality Measurements.

(1) In General. Each agency shall implement programs measuring the quality of services supplied by health care providers to the beneficiaries or enrollees of a Federal health care program. Such programs shall be based upon standards established by multi-stakeholder entities identified by the Secretary or by another agency subject to this order. Each agency shall develop its quality measurements in collaboration with similar initiatives in the private and non-Federal public sectors.

Such aggregation shall be based upon standards established by multi-stakeholder entities identified by the Secretary or by another agency subject to this order.

(c) Transparency of Pricing Information. Each agency shall make available (or provide for the availability) to the beneficiaries or enrollees of a Federal health care program (and, at the option of the agency, to the public) the prices that it, its health insurance issuers, or its health insurance plans pay for procedures to providers in the health care program with which the agency, issuer, or plan contracts. Each agency shall also, in collaboration with multi-stakeholder groups such as those described in subsection (b)(1), participate in the

development of information regarding the overall costs of services for common episodes of care and the treatment of common chronic diseases.

(d) Promoting Quality and Efficiency of Care. Each agency shall develop and identify, for beneficiaries, enrollees, and providers, approaches that encourage and facilitate the provision and receipt of high-quality and efficient health care. Such approaches may include pay-for-performance models of reimbursement consistent with current law. An agency will satisfy the requirements of this subsection if it makes available to beneficiaries or enrollees consumer-directed health care insurance products.

SEC. 4. *Implementation Date.* Agencies shall comply with the requirements of this order by January 1, 2007.

SEC. 5. *Administration and Judicial Review.*

(a) This order does not assume or rely upon additional Federal resources or spending to promote quality and efficient health care. Further, the actions directed by this order shall be carried out subject to the availability of appropriations and to the maximum extent permitted by law.

No funds provided through a grant or contract to a religious organization to provide services under any substance abuse program under this subchapter or subchapter III–A shall be expended for sectarian worship, instruction, or proselytization.

(j) Effect on State and local funds

If a State or local government contributes State or local funds to carry out any substance abuse program under this subchapter or subchapter III–A, the State or local government may segregate the State or local funds from the Federal funds provided to carry out the program or may commingle the State or local funds with the Federal funds. If the State or local government commingles the State or local funds, the provisions of this section shall apply to the commingled funds in the same manner, and to the same extent, as the provisions apply to the Federal funds.

(k) Treatment of intermediate contractors

If a nongovernmental organization (referred to in this subsection as an "intermediate

organization"), acting under a contract or other agreement with the Federal Government or a State or local government, is given the authority under the contract or agreement to select nongovernmental organizations to provide services under any substance abuse program under this subchapter or subchapter III–A, the intermediate organization shall have the same duties under this section as the government but shall retain all other rights of a nongovernmental organization under this section.

SUBPART II—INTERIM MAINTENANCE TREATMENT OF NARCOTICS DEPENDENCE

§300y-11. Interim maintenance treatment

(a) Requirement regarding Secretary

Subject to the following subsections of this section, for the purpose of reducing the incidence of the transmission of HIV disease pursuant to the intravenous use of heroin or other morphine-like drugs, the Secretary, in establishing conditions for the use of methadone in public or nonprofit private programs of treatment for dependence on such drugs, shall authorize such programs—

(1) to dispense methadone for treatment purposes to individuals who—

(A) meet the conditions for admission to such programs that dispense methadone as part of comprehensive treatment for such dependence; and

(B) are seeking admission to such programs that so dispense methadone, but as a result of the limited capacity of the programs, will not gain such admission until 14 or more days after seeking admission to the programs; and

(2) in dispensing methadone to such individuals, to provide only minimum ancillary services during the period in which the individuals are waiting for admission to programs of comprehensive treatment.

(b) Inapplicability of requirement in certain circumstances

(1) In general

The requirement established in subsection (a) for the Secretary does not apply if any or all of the following conditions are met:

(A) The preponderance of scientific research indicates that the risk of the transmission of HIV disease pursuant to the intravenous use of drugs is minimal.

(B) The preponderance of scientific research indicates that the medically supervised dispensing of methadone is not an effective method of reducing the extent of dependence on heroin and other morphine-like drugs.

(C) The preponderance of available data indicates that, of treatment programs that dispense methadone as part of comprehensive treatment, a substantial majority admit all individuals seeking services to the programs not later than 14 days after the individuals seek admission to the programs.

(2) Evaluation by Secretary

In evaluating whether any or all of the conditions described in paragraph (1) have been met, the Secretary shall consult with the National Commission on Acquired Immune Deficiency Syndrome.

(c) Conditions for obtaining authorization from Secretary

(1) In general

In carrying out the requirement established in subsection (a), the Secretary shall, after consultation with the National Commission on Acquired Immune Deficiency Syndrome, by regulation issue such conditions for treatment programs to obtain authorization from the Secretary to provide interim maintenance treatment as may be necessary to carry out the purpose described in such subsection. Such conditions shall include conditions for preventing the unauthorized use of methadone.

(2) Counseling on HIV disease

The regulations issued under paragraph (1) shall provide that an authorization described in such paragraph may not be issued to a treatment program unless the program provides to recipients of the treatment counseling on preventing exposure to and the transmission of HIV disease.

(3) Permission of relevant State as condition of authorization

The regulations issued under paragraph (1) shall provide that the Secretary may not provide an authorization described in such paragraph to any treatment program in a State unless the chief public health officer of the State has certified to the Secretary that—

(A) such officer does not object to the provision of such authorizations to treatment programs in the State; and

(B) the provision of interim maintenance services in the State will not reduce the capacity of comprehensive treatment programs in the State to admit individuals to the programs (relative to the date on which such officer so certifies).

(4) Date certain for issuance of regulations; failure of Secretary

The Secretary shall issue the final rule for purposes of the regulations required in paragraph (1), and such rule shall be effective, not later than the expiration of the 180-day period beginning on July 10, 1992. If the Secretary fails to meet the requirement of the preceding sentence, the proposed rule issued on March 2, 1989, with respect to part 291 of title 21, Code of Federal Regulations (docket numbered 88N-0444; 54 Fed. Reg. 8973 et seq.) is deemed to take effect as a final rule upon the expiration of such period, and the provisions of paragraph (3) of this subsection are deemed to be incorporated into such rule.

(d) Definitions

(1) The term "interim maintenance services" means the provision of methadone in a treatment program under the circumstances described in paragraphs (1) and (2) of subsection (a).

(2) The term "HIV disease" means infection with the etiologic agent for acquired immune deficiency syndrome.

(3) The term "treatment program" means a public or nonprofit private program of treatment for dependence on heroin or other morphine-like drugs.

SUBCHAPTER XVIII—ADOLESCENT FAMILY LIFE DEMONSTRATION PROJECTS

§300z. Findings and purposes

(a) The Congress finds that—

(1) in 1978, an estimated one million one hundred thousand teenagers became pregnant, more than five hundred thousand teenagers carried their babies to term, and over one-half of the babies born to such teenagers were born out of wedlock;

(2) adolescents aged seventeen and younger accounted for more than one-half of the out of wedlock births to teenagers;

(3) in a high proportion of cases, the pregnant adolescent is herself the product of an unmarried parenthood during adolescence and is continuing the pattern in her own lifestyle;

(4) it is estimated that approximately 80 per centum of unmarried teenagers who carry their pregnancies to term live with their families before and during their pregnancy and remain with their families after the birth of the child;

(5) pregnancy and childbirth among unmarried adolescents, particularly young adolescents, often results in severe adverse health, social, and economic consequences including: a higher percentage of pregnancy and childbirth complications; a higher incidence of low birth weight babies; a higher infant mortality and morbidity; a greater likelihood that an adolescent marriage

will end in divorce; a decreased likelihood of completing schooling; and higher risks of unemployment and welfare dependency; and therefore, education, training, and job research services are important for adolescent parents;

(6)(A) adoption is a positive option for unmarried pregnant adolescents who are unwilling or unable to care for their children since adoption is a means of providing permanent families for such children from available approved couples who are unable or have difficulty in conceiving or carrying children of their own to term; and

(B) at present, only 4 per centum of unmarried pregnant adolescents who carry their babies to term enter into an adoption plan or arrange for their babies to be cared for by relatives or friends;

(7) an unmarried adolescent who becomes pregnant once is likely to experience recurrent pregnancies and childbearing, with increased risks;

(8)(A) the problems of adolescent premarital sexual relations, pregnancy, and parenthood are multiple and complex and are frequently associated with or are a cause of other troublesome situations in the family; and

(B) such problems are best approached through a variety of integrated and essential services provided to adolescents and their families by other family members, religious and charitable organizations, voluntary associations, and other groups in the private sector as well as services provided by publicly sponsored initiatives;

(9) a wide array of educational, health, and supportive services are not available to adolescents with such problems or to their families, or when available frequently are fragmented and thus are of limited effectiveness in discouraging adolescent premarital sexual relations and the consequences of such relations;

(10)(A) prevention of adolescent sexual activity and adolescent pregnancy depends primarily upon developing strong family values and close family ties, and since the family is the basic social unit in which the values and attitudes of adolescents concerning sexuality and pregnancy are formed, programs designed to deal with issues of sexuality and pregnancy will be successful to the extent that such programs encourage and sustain the role of the family in dealing with adolescent sexual activity and adolescent pregnancy;

(B) Federal policy therefore should encourage the development of appropriate health, educational, and social services where such services are now lacking or inadequate, and the better coordination of existing services where they are available; and

(C) services encouraged by the Federal Government should promote the involvement of parents with their adolescent children, and should emphasize the provision of support by other family members, religious and charitable organizations, voluntary associations, and other groups in the private sector in order to help adolescents and their families deal with complex issues of adolescent premarital sexual relations and the consequences of such relations; and

(11)(A) there has been limited research concerning the societal causes and consequences of adolescent pregnancy;

(B) there is limited knowledge concerning which means of intervention are effective in mediating or eliminating adolescent premarital sexual relations and adolescent pregnancy; and

(C) it is necessary to expand and strengthen such knowledge in order to develop an array of approaches to solving the problems of adolescent premarital sexual relations and adolescent pregnancy in both urban and rural settings.

(b) Therefore, the purposes of this subchapter are—

(1) to find effective means, within the context of the family, of reaching adolescents before they become sexually active in order to maximize the guidance and support available to adolescents from parents and other family members, and to promote self discipline and other prudent approaches to the problem of adolescent premarital sexual relations, including adolescent pregnancy;

(2) to promote adoption as an alternative for adolescent parents;

(3) to establish innovative, comprehensive, and integrated approaches to the delivery of care services both for pregnant adolescents, with primary emphasis on unmarried adolescents who are

seventeen years of age or under, and for adolescent parents, which shall be based upon an assessment of existing programs and, where appropriate, upon efforts to establish better coordination, integration, and linkages among such existing programs in order to—

(A) enable pregnant adolescents to obtain proper care and assist pregnant adolescents and adolescent parents to become productive independent contributors to family and community life; and

(B) assist families of adolescents to understand and resolve the societal causes which are associated with adolescent pregnancy;

(4) to encourage and support research projects and demonstration projects concerning the societal causes and consequences of adolescent premarital sexual relations, contraceptive use, pregnancy, and child rearing;

(5) to support evaluative research to identify effective services which alleviate, eliminate, or resolve any negative consequences of adolescent premarital sexual relations and adolescent childbearing for the parents, the child, and their families; and

(6) to encourage and provide for the dissemination of results, findings, and information from programs and research projects relating to adolescent premarital sexual relations, pregnancy, and parenthood.

AMENDMENTS

1984—Subsec. (a)(4)(H). Pub. L. 98–512 struck out "and referral to such services" after "vocational services".

§300z–2. Demonstration projects; grant authorization, etc.

(a) The Secretary may make grants to further the purposes of this subchapter to eligible grant recipients which have submitted an application which the Secretary finds meets the requirements of section 300z–5 of this title for demonstration projects which the Secretary determines will help communities provide appropriate care and prevention services in easily accessible locations. Demonstration projects shall, as appropriate, provide, supplement, or improve the quality of such services. Demonstration projects shall use such methods as will strengthen the capacity of families to deal with the sexual behavior, pregnancy, or parenthood of adolescents and to make use of support systems such as other family members, friends, religious and charitable organizations, and voluntary associations.

(b) Grants under this subchapter for demonstration projects may be for the provision of—

- (1) care services;
- (2) prevention services; or
- (3) a combination of care services and prevention services.

(July 1, 1944, ch. 373, title XX, §2003, as added Pub. L. 97–35, title IX, §955(a), Aug. 13, 1981, 95 Stat. 582.)

§300z–3. Uses of grants for demonstration projects for services

(a) Covered projects

Except as provided in subsection (b), funds provided for demonstration projects for services under this subchapter may be used by grantees only to—

- (1) provide to eligible persons—
 - (A) care services;
 - (B) prevention services; or
 - (C) care and prevention services (in the case of a grantee who is providing a combination of care and prevention services);

(2) coordinate, integrate, and provide linkages among providers of care, prevention, and other services for eligible persons in furtherance of the purposes of this subchapter;

(3) provide supplemental services where such services are not adequate or not available to eligible persons in the community and which are essential to the care of pregnant adolescents and to the prevention of adolescent premarital sexual relations and adolescent pregnancy;

(4) plan for the administration and coordination of pregnancy prevention services and programs

of care for pregnant adolescents and adolescent parents which will further the objectives of this subchapter; and

(5) fulfill assurances required for grant approval by section 300z-5 of this title.

(b) Family planning services; availability in community

(1) No funds provided for a demonstration project for services under this subchapter may be used for the provision of family planning services (other than counseling and referral services) to adolescents unless appropriate family planning services are not otherwise available in the community.

(2) Any grantee who receives funds for a demonstration project for services under this subchapter and who, after determining under paragraph (1) that appropriate family planning services are not otherwise available in the community, provides family planning services (other than counseling and referral services) to adolescents may only use funds provided under this subchapter for such family planning services if all funds received by such grantee from all other sources to support such family planning services are insufficient to support such family planning services.

(c) Fees for services: criteria

Grantees who receive funds for a demonstration project for services under this subchapter shall charge fees for services pursuant to a fee schedule approved by the Secretary as a part of the application described in section 300z-5 of this title which bases fees charged by the grantee on the income of the eligible person or the parents or legal guardians of the eligible person and takes into account the difficulty adolescents face in obtaining resources to pay for services. A grantee who receives funds for a demonstration project for services under this subchapter may not, in any case, discriminate with regard to the provision of services to any individual because of that individual's inability to provide payment for such services, except that in determining the ability of an unemancipated minor to provide payment for services, the income of the family of an unemancipated minor shall be considered in determining the ability of such minor to make such payments unless the parents or guardians of the unemancipated minor refuse to make such payments.

(July 1, 1944, ch. 373, title XX, §2004, as added Pub. L. 97-35, title IX, §955(a), Aug. 13, 1981, 95 Stat. 583.)

§300z-4. Grants for demonstration projects for services

(B) in the case of an applicant who will provide prevention services, of having the ability to provide prevention services for adolescents and their families which are appropriate for the target population and the geographic area to be served, including the special needs of rural areas;

(8) will demonstrate innovative and effective approaches in addressing the problems of adolescent premarital sexual relations, pregnancy, or parenthood, including approaches to provide pregnant adolescents with adequate information about adoption.

(b) Factors to be considered in making grants; special needs of rural areas

(1) The amount of a grant for a demonstration project for services under this subchapter shall be determined by the Secretary, based on factors such as the incidence of adolescent pregnancy in the geographic area to be served, and the adequacy of pregnancy prevention services and programs of care for pregnant adolescents and adolescent parents in such area.

(2) In making grants for demonstration projects for services under this subchapter, the Secretary shall consider the special needs of rural areas and, to the maximum extent practicable, shall distribute funds taking into consideration the relative number of adolescents in such areas in need of such services.

(c) Duration; Federal share

(1) A grantee may not receive funds for a demonstration project for services under this subchapter for a period in excess of 5 years.

(2)(A) Subject to paragraph (3), a grant for a demonstration project for services under this subchapter may not exceed—

(B) In the case of any research project for which assistance is provided under this section for two or more consecutive one-year periods, the recipient of such assistance shall prepare and transmit the report required by subparagraph (A) to the Secretary not later than twelve months after the end of each one-year period for which such funding is provided.

§300aa–11. Petitions for compensation

(a) General rule

(1) A proceeding for compensation under the Program for a vaccine-related injury or death shall

be initiated by service upon the Secretary and the filing of a petition containing the matter prescribed by subsection (c) with the United States Court of Federal Claims. The clerk of the United States Court of Federal Claims shall immediately forward the filed petition to the chief special master for assignment to a special master under section 300aa-12(d)(1) of this title.

(2)(A) No person may bring a civil action for damages in an amount greater than \$1,000 or in an unspecified amount against a vaccine administrator or manufacturer in a State or Federal court for damages arising from a vaccine-related injury or death associated with the administration of a vaccine after October 1, 1988, and no such court may award damages in an amount greater than \$1,000 in a civil action for damages for such a vaccine-related injury or death, unless a petition has been filed, in accordance with section 300aa-16 of this title, for compensation under the Program for such injury or death and—

(i)(I) the United States Court of Federal Claims has issued a judgment under section 300aa-12 of this title on such petition, and

(II) such person elects under section 300aa-21(a) of this title to file such an action, or

(ii) such person elects to withdraw such petition under section 300aa-21(b) of this title or such petition is considered withdrawn under such section.

(B) If a civil action which is barred under subparagraph (A) is filed in a State or Federal court, the court shall dismiss the action. If a petition is filed under this section with respect to the injury or death for which such civil action was brought, the date such dismissed action was filed shall, for purposes of the limitations of actions prescribed by section 300aa-16 of this title, be considered the date the petition was filed if the petition was filed within one year of the date of the dismissal of the civil action.

(3) No vaccine administrator or manufacturer may be made a party to a civil action (other than a civil action which may be brought under paragraph (2)) for damages for a vaccine-related injury or death associated with the administration of a vaccine after October 1, 1988.

(4) If in a civil action brought against a vaccine administrator or manufacturer before October 1, 1988, damages were denied for a vaccine-related injury or death or if such civil action was dismissed with prejudice, the person who brought such action may file a petition under subsection (b) for such injury or death.

(5)(A) A plaintiff who on October 1, 1988, has pending a civil action for damages for a vaccine-related injury or death may, at any time within 2 years after October 1, 1988, or before judgment, whichever occurs first, petition to have such action dismissed without prejudice or costs and file a petition under subsection (b) for such injury or death.

(B) If a plaintiff has pending a civil action for damages for a vaccine-related injury or death, such person may not file a petition under subsection (b) for such injury or death.

(6) If a person brings a civil action after November 15, 1988 for damages for a vaccine-related injury or death associated with the administration of a vaccine before November 15, 1988, such person may not file a petition under subsection (b) for such injury or death.

(7) If in a civil action brought against a vaccine administrator or manufacturer for a vaccine-related injury or death damages are awarded under a judgment of a court or a settlement of such action, the person who brought such action may not file a petition under subsection (b) for such injury or death.

(8) If on October 1, 1988, there was pending an appeal or rehearing with respect to a civil action brought against a vaccine administrator or manufacturer and if the outcome of the last appellate review of such action or the last rehearing of such action is the denial of damages for a vaccine-related injury or death, the person who brought such action may file a petition under subsection (b) for such injury or death.

(9) This subsection applies only to a person who has sustained a vaccine-related injury or death and who is qualified to file a petition for compensation under the Program.

After a motion for suspension is granted, further motions for suspension by either party may be granted by the special master, if the special master determines the suspension is reasonable and necessary, for an aggregate period not to exceed 150 days.

(D) If, in reviewing proceedings on petitions for vaccine-related injuries or deaths associated with the administration of vaccines before October 1, 1988, the chief special master determines that the number of filings and resultant workload place an undue burden on the parties or the special master involved in such proceedings, the chief special master may, in the interest of justice, suspend proceedings on any petition for up to 30 months (but for not more than 6 months at a time) in addition to the suspension time under subparagraph (C).

(4)(A) Except as provided in subparagraph (B), information submitted to a special master or the court in a proceeding on a petition may not be disclosed to a person who is not a party to the proceeding without the express written consent of the person who submitted the information.

and if the person who submitted such information objects to the inclusion of such information in the decision, the decision shall be disclosed without such information.

(e) Action by United States Court of Federal Claims

(1) Upon issuance of the special master's decision, the parties shall have 30 days to file with the clerk of the United States Court of Federal Claims a motion to have the court review the decision. If such a motion is filed, the other party shall file a response with the clerk of the United States Court of Federal Claims no later than 30 days after the filing of such motion.

(2) Upon the filing of a motion under paragraph (1) with respect to a petition, the United States Court of Federal Claims shall have jurisdiction to undertake a review of the record of the proceedings and may thereafter—

(A) uphold the findings of fact and conclusions of law of the special master and sustain the special master's decision,

(B) set aside any findings of fact or conclusion of law of the special master found to be arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law and issue its

own findings of fact and conclusions of law, or

(C) remand the petition to the special master for further action in accordance with the court's direction.

The court shall complete its action on a petition within 120 days of the filing of a response under paragraph (1) excluding any days the petition is before a special master as a result of a remand under subparagraph (C). The court may allow not more than 90 days for remands under subparagraph (C).

(3) In the absence of a motion under paragraph (1) respecting the special master's decision or if the United States Court of Federal Claims takes the action described in paragraph (2)(A) with respect to the special master's decision, the clerk of the United States Court of Federal Claims shall immediately enter judgment in accordance with the special master's decision.

(f) Appeals

The findings of fact and conclusions of law of the United States Court of Federal Claims on a petition shall be final determinations of the matters involved, except that the Secretary or any petitioner aggrieved by the findings or conclusions of the court may obtain review of the judgment of the court in the United States court of appeals for the Federal Circuit upon petition filed within 60 days of the date of the judgment with such court of appeals within 60 days of the date of entry of the United States Claims Court's ¹ judgment with such court of appeals.

the special master or court shall notify the petitioner under such petition that the petitioner may withdraw the petition under section 300aa–21(b) of this title or the petitioner may choose under section 300aa–21(b) of this title to have the petition remain before the special master or court, as the case may be.

§300aa–13. Determination of eligibility and compensation

(a) General rule

(1) Compensation shall be awarded under the Program to a petitioner if the special master or court finds on the record as a whole—

(A) that the petitioner has demonstrated by a preponderance of the evidence the matters required in the petition by section 300aa–11(c)(1) of this title, and

(B) that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition.

The special master or court may not make such a finding based on the claims of a petitioner alone, unsubstantiated by medical records or by medical opinion.

(2) For purposes of paragraph (1), the term "factors unrelated to the administration of the vaccine"—

(A) does not include any idiopathic, unexplained, unknown, hypothetical, or undocumentable cause, factor, injury, illness, or condition, and

(B) may, as documented by the petitioner's evidence or other material in the record, include infection, toxins, trauma (including birth trauma and related anoxia), or metabolic disturbances which have no known relation to the vaccine involved, but which in the particular case are shown to have been the agent or agents principally responsible for causing the petitioner's illness, disability, injury, condition, or death.

(b) Matters to be considered

(1) In determining whether to award compensation to a petitioner under the Program, the special master or court shall consider, in addition to all other relevant medical and scientific evidence contained in the record—

(A) any diagnosis, conclusion, medical judgment, or autopsy or coroner's report which is contained in the record regarding the nature, causation, and aggravation of the petitioner's illness, disability, injury, condition, or death, and

(B) the results of any diagnostic or evaluative test which are contained in the record and the summaries and conclusions.

Any such diagnosis, conclusion, judgment, test result, report, or summary shall not be binding on the special master or court. In evaluating the weight to be afforded to any such diagnosis, conclusion, judgment, test result, report, or summary, the special master or court shall consider the entire record and the course of the injury, disability, illness, or condition until the date of the judgment of the special master or court.

(2) The special master or court may find the first symptom or manifestation of onset or significant aggravation of an injury, disability, illness, condition, or death described in a petition occurred within the time period described in the Vaccine Injury Table even though the occurrence of such symptom or manifestation was not recorded or was incorrectly recorded as having occurred outside such period. Such a finding may be made only upon demonstration by a preponderance of the evidence that the onset or significant aggravation of the injury, disability, illness, condition, or death described in the petition did in fact occur within the time period described in the Vaccine Injury Table.

(c) "Record" defined

For purposes of this section, the term "record" means the record established by the special masters of the United States Court of Federal Claims in a proceeding on a petition filed under section 300aa-11 of this title.

(July 1, 1944, ch. 373, title XXI, §2113, as added Pub. L. 99-660, title III, §311(a), Nov. 14, 1986, 100 Stat. 3763; amended Pub. (b) Qualifications and aids to interpretation

The following qualifications and aids to interpretation shall apply to the Vaccine Injury Table in subsection (a):

(1) A shock-collapse or a hypotonic-hyposensitive collapse may be evidenced by indicia or symptoms such as decrease or loss of muscle tone, paralysis (partial or complete), hemiplegia or hemiparesis, loss of color or turning pale white or blue, unresponsiveness to environmental stimuli, depression of consciousness, loss of consciousness, prolonged sleeping with difficulty arousing, or cardiovascular or respiratory arrest.

(2) A petitioner may be considered to have suffered a residual seizure disorder if the petitioner did not suffer a seizure or convulsion unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit before the first seizure or convulsion after the administration of the vaccine involved and if—

(A) in the case of a measles, mumps, or rubella vaccine or any combination of such vaccines, the first seizure or convulsion occurred within 15 days after administration of the vaccine and 2 or more seizures or convulsions occurred within 1 year after the administration of the vaccine which were unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit, and

(B) in the case of any other vaccine, the first seizure or convulsion occurred within 3 days after administration of the vaccine and 2 or more seizures or convulsions occurred within 1 year after the administration of the vaccine which were unaccompanied by fever or accompanied by a fever of less than 102 degrees Fahrenheit.

(3)(A) The term "encephalopathy" means any significant acquired abnormality of, or injury to, or impairment of function of the brain. Among the frequent manifestations of encephalopathy are focal and diffuse neurologic signs, increased intracranial pressure, or changes lasting at least 6 hours in level of consciousness, with or without convulsions. The neurological signs and symptoms of encephalopathy may be temporary with complete recovery, or may result in various degrees of permanent impairment. Signs and symptoms such as high pitched and unusual screaming, persistent inconsolable crying, and bulging fontanel are compatible with an encephalopathy, but in and of themselves are not conclusive evidence of encephalopathy. Encephalopathy usually can be documented by slow wave activity on an electroencephalogram.

(B) If in a proceeding on a petition it is shown by a preponderance of the evidence that an encephalopathy was caused by infection, toxins, trauma, or metabolic disturbances the encephalopathy shall not be considered to be a condition set forth in the table. If at the time a judgment is entered on a petition filed under section 300aa-11 of this title for a vaccine-related injury or death it is not possible to determine the cause, by a preponderance of the evidence, of an encephalopathy, the encephalopathy shall be considered to be a condition set forth in the table. In determining whether or not an encephalopathy is a condition set forth in the table, the court shall consider the entire medical record.

(4) For purposes of paragraphs (2) and (3), the terms "seizure" and "convulsion" include grand mal, petit mal, absence, myoclonic, tonic-clonic, and focal motor seizures and signs. If a provision of the table to which paragraph (1), (2), (3), or (4) applies is revised under subsection (c) or (d), such paragraph shall not apply to such provision after the effective date of the revision unless the revision specifies that such paragraph is to continue to apply.

(c) Administrative revision of table

(1) The Secretary may promulgate regulations to modify in accordance with paragraph (3) the Vaccine Injury Table. In promulgating such regulations, the Secretary shall provide for notice and opportunity for a public hearing and at least 180 days of public comment.

(2) Any person (including the Advisory Commission on Childhood Vaccines) may petition the Secretary to propose regulations to amend the Vaccine Injury Table. Unless clearly frivolous, or initiated by the Commission, any such petition shall be referred to the Commission for its recommendations. Following—

- (A) receipt of any recommendation of the Commission, or
- (B) 180 days after the date of the referral to the Commission,

whichever occurs first, the Secretary shall conduct a rulemaking proceeding on the matters proposed in the petition or publish in the Federal Register a statement of reasons for not conducting such proceeding.

(3) A modification of the Vaccine Injury Table under paragraph (1) may add to, or delete from, the list of injuries, disabilities, illnesses, conditions, and deaths for which compensation may be provided or may change the time periods for the first symptom or manifestation of the onset or the significant aggravation of any such injury, disability, illness, condition, or death.

(4) Any modification under paragraph (1) of the Vaccine Injury Table shall apply only with respect to petitions for compensation under the Program which are filed after the effective date of such regulation.

(d) Role of Commission

Except with respect to a regulation recommended by the Advisory Commission on Childhood Vaccines, the Secretary may not propose a regulation under subsection (c) or any revision thereof, unless the Secretary has first provided to the Commission a copy of the proposed regulation or revision, requested recommendations and comments by the Commission, and afforded the Commission at least 90 days to make such recommendations.

(e) Additional vaccines

(1) Vaccines recommended before August 1, 1993

By August 1, 1995, the Secretary shall revise the Vaccine Injury Table included in subsection (a) to include—

- (A) vaccines which are recommended to the Secretary by the Centers for Disease Control and Prevention before August 1, 1993, for routine administration to children,
- (B) the injuries, disabilities, illnesses, conditions, and deaths associated with such vaccines, and
- (C) the time period in which the first symptoms or manifestations of onset or other significant aggravation of such injuries, disabilities, illnesses, conditions, and deaths associated with such vaccines may occur.

(2) Vaccines recommended after August 1, 1993

When after August 1, 1993, the Centers for Disease Control and Prevention recommends a vaccine to the Secretary for routine administration to children, the Secretary shall, within 2 years of such recommendation, amend the Vaccine Injury Table included in subsection (a) to include—

- (A) vaccines which were recommended for routine administration to children,
- (B) the injuries, disabilities, illnesses, conditions, and deaths associated with such vaccines, and
- (C) the time period in which the first symptoms or manifestations of onset or other significant aggravation of such injuries, disabilities, illnesses, conditions, and deaths associated with such vaccines may occur.

(3) Vaccines recommended for use in pregnant women

The Secretary shall revise the Vaccine Injury Table included in subsection (a), through the process described in subsection (c), to include vaccines recommended by the Centers for Disease Control and Prevention for routine administration in pregnant women and the information described in subparagraphs (B) and (C) of paragraph (2) with respect to such vaccines.

- (1)(A) Actual unreimbursable expenses incurred from the date of the judgment awarding such expenses and reasonable projected unreimbursable expenses which—
 - (i) result from the vaccine-related injury for which the petitioner seeks compensation,
 - (ii) have been or will be incurred by or on behalf of the person who suffered such injury, and
 - (iii)(I) have been or will be for diagnosis and medical or other remedial care determined to be reasonably necessary, or

 - (i) resulted from the vaccine-related injury for which the petitioner seeks compensation,

(ii) were incurred by or on behalf of the person who suffered such injury, and
(iii) were for diagnosis, medical or other remedial care, rehabilitation, developmental evaluation, special education, vocational training and placement, case management services, counseling, emotional or behavioral therapy, residential and custodial care and service expenses, special equipment, related travel expenses, and facilities determined to be reasonably necessary.

(2) In the event of a vaccine-related death, an award of \$250,000 for the estate of the deceased.

(3)(A) In the case of any person who has sustained a vaccine-related injury after attaining the age of 18 and whose earning capacity is or has been impaired by reason of such person's vaccine-related injury for which compensation is to be awarded, compensation for actual and anticipated loss of earnings determined in accordance with generally recognized actuarial principles and projections.

(B) In the case of any person who has sustained a vaccine-related injury before attaining the age of 18 and whose earning capacity is or has been impaired by reason of such person's vaccine-related injury for which compensation is to be awarded and whose vaccine-related injury is of sufficient severity to permit reasonable anticipation that such person is likely to suffer impaired earning capacity at age 18 and beyond, compensation after attaining the age of 18 for loss of earnings determined on the basis of the average gross weekly earnings of workers in the private, non-farm sector, less appropriate taxes and the average cost of a health insurance policy, as determined by the Secretary.

(4) For actual and projected pain and suffering and emotional distress from the vaccine-related injury, an award not to exceed \$250,000.

(b) Vaccines administered before effective date

Compensation awarded under the Program to a petitioner under section 300aa–11 of this title for a vaccine-related injury or death associated with the administration of a vaccine before October 1, 1988, may include the compensation described in paragraphs (1)(A) and (2) of subsection (a) and may also include an amount, not to exceed a combined total of \$30,000, for—

- (3) reasonable attorneys' fees and costs (as provided in subsection (e)).¹

(c) Residential and custodial care and service

The amount of any compensation for residential and custodial care and service expenses under subsection (a)(1) shall be sufficient to enable the compensated person to remain living at home.

(d) Types of compensation prohibited

Compensation awarded under the Program may not include the following:

- (1) Punitive or exemplary damages.
- (2) Except with respect to compensation payments under paragraphs (2) and (3) of subsection (a), compensation for other than the health, education, or welfare of the person who suffered the vaccine-related injury with respect to which the compensation is paid.

(e) Attorneys' fees

(1) In awarding compensation on a petition filed under section 300aa–11 of this title the special master or court shall also award as part of such compensation an amount to cover—

- (A) reasonable attorneys' fees, and
- (B) other costs,

incurred in any proceeding on such petition. If the judgment of the United States Court of Federal Claims on such a petition does not award compensation, the special master or court may award an amount of compensation to cover petitioner's reasonable attorneys' fees and other costs incurred in

any proceeding on such petition if the special master or court determines that the petition was brought in good faith and there was a reasonable basis for the claim for which the petition was brought.

(2) If the petitioner, before October 1, 1988, filed a civil action for damages for any vaccine-related injury or death for which compensation may be awarded under the Program, and petitioned under section 300aa-11(a)(5) of this title to have such action dismissed and to file a petition for compensation under the Program, in awarding compensation on such petition the special master or court may include an amount of compensation limited to the costs and expenses incurred by the petitioner and the attorney of the petitioner before October 1, 1988, in preparing, filing, and prosecuting such civil action (including the reasonable value of the attorney's time if the civil action was filed under contingent fee arrangements).

(3) No attorney may charge any fee for services in connection with a petition filed under section 300aa-11 of this title which is in addition to any amount awarded as compensation by the special master or court under paragraph (1).

(f) Payment of compensation

(2) Compensation described in subsection (a)(1)(A)(iii) shall be paid from the date of the judgment of the United States Court of Federal Claims under section 300aa-12 of this title awarding the compensation. Such compensation may not be paid after an election under section 300aa-21(a) of this title to file a civil action for damages for the vaccine-related injury or death for which such compensation was awarded.

(B) In the case of a payment of compensation under the Program to a petitioner for a vaccine-related injury or death associated with the administration of a vaccine before October 1, 1988, the compensation shall be determined on the basis of the net present value of the elements of compensation and shall be paid from appropriations made available under subsection (j) in a lump sum of which all or a portion may be used as ordered by the special master to purchase an annuity or otherwise be used, with the consent of the petitioner, in a manner determined by the special master to be in the best interests of the petitioner. Any reasonable attorneys' fees and costs shall be paid in a lump sum. If the appropriations under subsection (j) are insufficient to make a payment of an annual installment, the limitation on civil actions prescribed by section 300aa-21(a) of this title shall not apply to a civil action for damages brought by the petitioner entitled to the payment.

(C) In purchasing an annuity under subparagraph (A) or (B), the Secretary may purchase a guarantee for the annuity, may enter into agreements regarding the purchase price for and rate of return of the annuity, and may take such other actions as may be necessary to safeguard the financial interests of the United States regarding the annuity. Any payment received by the Secretary pursuant to the preceding sentence shall be paid to the Vaccine Injury Compensation Trust Fund established under section 9510 of title 26, or to the appropriations account from which the funds were derived to purchase the annuity, whichever is appropriate.

(g) Program not primarily liable

Payment of compensation under the Program shall not be made for any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to such

item or service (1) under any State compensation program, under an insurance policy, or under any Federal or State health benefits program (other than under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.]), or (2) by an entity which provides health services on a prepaid basis.

(h) Liability of health insurance carriers, prepaid health plans, and benefit providers

No policy of health insurance may make payment of benefits under the policy secondary to the payment of compensation under the Program and—

- (1) no State, and
- (2) no entity which provides health services on a prepaid basis or provides health benefits,

may make the provision of health services or health benefits secondary to the payment of compensation under the Program, except that this subsection shall not apply to the provision of services or benefits under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.].

For the payment of compensation under the Program to a petitioner for a vaccine-related injury or death associated with the administration of a vaccine before October 1, 1988, there are authorized to be appropriated to the Department of Health and Human Services \$80,000,000 for fiscal year 1989, \$80,000,000 for fiscal year 1990, \$80,000,000 for fiscal year 1991, \$80,000,000 for fiscal year 1992, \$110,000,000 for fiscal year 1993, and \$110,000,000 for each succeeding fiscal year in which a payment of compensation is required under subsection (f)(4)(B). (1) No vaccine manufacturer shall be liable in a civil action for damages arising from a vaccine-related injury or death associated with the administration of a vaccine after October 1, 1988, if the injury or death resulted from side effects that were unavoidable even though the vaccine was properly prepared and was accompanied by proper directions and warnings.

No State may establish or enforce a law which prohibits an individual from bringing a civil action against a vaccine manufacturer for damages for a vaccine-related injury or death if such civil action is not barred by this part.

For purposes of subparagraph (A), any plan amendment made pursuant to a collective bargaining agreement relating to the plan which amends the plan solely to conform to any requirement added by this section shall not be treated as a termination of such collective bargaining agreement."

§300bb-2. Continuation coverage

For purposes of section 300bb-1 of this title, the term "continuation coverage" means coverage under the plan which meets the following requirements:

(1) Type of benefit coverage

The coverage must consist of coverage which, as of the time the coverage is being provided, is identical to the coverage provided under the plan to similarly situated beneficiaries under the plan with respect to whom a qualifying event has not occurred. If coverage is modified under the plan for any group of similarly situated beneficiaries, such coverage shall also be modified in the same manner for all individuals who are qualified beneficiaries under the plan pursuant to this part ¹ in connection with such group.

(2) Period of coverage

The coverage must extend for at least the period beginning on the date of the qualifying event and ending not earlier than the earliest of the following:

(A) Maximum required period

(i) General rule for terminations and reduced hours

In the case of a qualifying event described in section 300bb-3(2) of this title, except as

provided in clause (ii), the date which is 18 months after the date of the qualifying event.

(ii) Special rule for multiple qualifying events

If a qualifying event occurs during the 18 months after the date of a qualifying event described in section 300bb–3(2) of this title, the date which is 36 months after the date of the qualifying event described in section 300bb–3(2) of this title.

(iii) General rule for other qualifying events

In the case of a qualifying event not described in section 300bb–3(2) of this title, the date which is 36 months after the date of the qualifying event.

(iv) Special rule for TAA-eligible individuals

In the case of a qualifying event described in section 300bb–3(2) of this title with respect to a covered employee who is (as of the date that the period of coverage would, but for this clause or clause (v), otherwise terminate under clause (i) or (ii)) a TAA-eligible individual (as defined in section 300bb–5(b)(4)(B) of this title), the period of coverage shall not terminate by reason of clause (i) or (ii), as the case may be, before the later of the date specified in such clause or the date on which such individual ceases to be such a TAA-eligible individual. The preceding sentence shall not require any period of coverage to extend beyond January 1, 2014.

(v) Medicare entitlement followed by qualifying event

In the case of a qualifying event described in section 300bb–3(2) of this title that occurs less than 18 months after the date the covered employee became entitled to benefits under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], the period of coverage for qualified beneficiaries other than the covered employee shall not terminate under this subparagraph before the close of the 36-month period beginning on the date the covered employee became so entitled.

(vi) Special rule for disability

In the case of a qualified beneficiary who is determined, under title II or XVI of the Social Security Act [42 U.S.C. 401 et seq., 1381 et seq.], to have been disabled at any time during the first 60 days of continuation coverage under this subchapter, any reference in clause (i) or (ii) to 18 months is deemed a reference to 29 months (with respect to all qualified beneficiaries), but only if the qualified beneficiary has provided notice of such determination under section 300bb–6(3) of this title before the end of such 18 months.

(B) End of plan

The date on which the employer ceases to provide any group health plan to any employee.

(C) Failure to pay premium

The date on which coverage ceases under the plan by reason of a failure to make timely payment of any premium required under the plan with respect to the qualified beneficiary. The payment of any premium (other than any payment referred to in the last sentence of paragraph (3)) shall be considered to be timely if made within 30 days after the date due or within such longer period as applies to or under the plan.

(D) Group health plan coverage or medicare entitlement

The date on which the qualified beneficiary first becomes, after the date of the election—

(i) covered under any other group health plan (as an employee or otherwise) which does not contain any exclusion or limitation with respect to any preexisting condition of such beneficiary (other than such an exclusion or limitation which does not apply to (or is satisfied by) such beneficiary by reason of chapter 100 of title 26, part 7 of subtitle B of title I of the Employee Retirement Income Security Act of 1974 [29 U.S.C. 1181 et seq.], or subchapter XXV of this chapter), or

(ii) entitled to benefits under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.].

(E) Termination of extended coverage for disability

In the case of a qualified beneficiary who is disabled at any time during the first 60 days of continuation coverage under this subchapter, the month that begins more than 30 days after the date of the final determination under title II or XVI of the Social Security Act [42 U.S.C. 401 et seq., 1381 et seq.] that the qualified beneficiary is no longer disabled.

(3) Premium requirements

The plan may require payment of a premium for any period of continuation coverage, except that such premium—

- (A) shall not exceed 102 percent of the applicable premium for such period, and
- (B) may, at the election of the payor, be made in monthly installments.

In no event may the plan require the payment of any premium before the day which is 45 days after the day on which the qualified beneficiary made the initial election for continuation coverage.² In the case of an individual described in the last sentence of paragraph (2)(A), any reference in subparagraph (A) of this paragraph to "102 percent" is deemed a reference to "150 percent" for any month after the 18th month of continuation coverage described in clause (i) or (ii) of paragraph (2)(A).

(4) No requirement of insurability

The coverage may not be conditioned upon, or discriminate on the basis of lack of, evidence of insurability.

(5) Conversion option

In the case of a qualified beneficiary whose period of continuation coverage expires under paragraph (2)(A), the plan must, during the 180-day period ending on such expiration date, provide to the qualified beneficiary the option of enrollment under a conversion health plan otherwise generally available under the plan.

EX. ORD. NO. 13649. ACCELERATING IMPROVEMENTS IN HIV PREVENTION AND CARE IN THE UNITED STATES THROUGH THE HIV CARE CONTINUUM INITIATIVE

Ex. Ord. No. 13649, July 15, 2013, 78 F.R. 43057, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to further strengthen the capacity of the Federal Government to effectively respond to the ongoing domestic HIV epidemic, it is hereby ordered as follows:

SECTION 1. *Policy.* Addressing the domestic HIV epidemic is a priority of my Administration. In 2010, the White House released the first comprehensive National HIV/AIDS Strategy (Strategy), setting quantitative goals for reducing new HIV infections, improving health outcomes for people living with HIV, and reducing HIV-related health disparities. The Strategy will continue to serve as the blueprint for our national response to the domestic epidemic. It has increased coordination, collaboration, and accountability across executive departments and agencies (agencies) with regard to addressing the epidemic. It has also focused our Nation's collective efforts on increasing the use of evidence-based approaches to prevention and care among populations and in regions where HIV is most concentrated.

Since the release of the Strategy, additional scientific discoveries have greatly enhanced our understanding of how to prevent and treat HIV. Accordingly, further Federal action is appropriate in response to these new developments. For example, a breakthrough research trial supported by the National Institutes of Health showed that initiating HIV treatment when the immune system was relatively healthy reduced HIV transmission by 96 percent. In addition, evidence suggests that early treatment may reduce HIV-related complications. These findings highlight the importance of prompt HIV diagnosis, and because of recent advances in HIV testing technology, HIV can be detected sooner and more rapidly than ever before.

Based on these and other data, recommendations for HIV testing and treatment have changed. The U.S. Preventive Services Task Force now recommends that clinicians screen all individuals ages 15 to 65 years for HIV, and the Department of Health and Human Services Guidelines for Use of Antiretroviral Agents now recommends offering treatment to all adolescents and adults diagnosed with HIV.

Furthermore, ongoing implementation of the Affordable Care Act provides a historic opportunity for Americans to access affordable, quality health care. The Act is expanding access to recommended preventive services with no out-of-pocket costs, including HIV testing, and, beginning in 2014, insurance companies will not be able to deny coverage based on pre-existing conditions, including HIV. Starting October 1, 2013, Americans can select the coverage that best suits them through the new Health Insurance Marketplace, and coverage will begin January 1, 2014.

Despite progress in combating HIV, important work remains. Since the publication of the Strategy, data released by the Centers for Disease Control and Prevention show that there are significant gaps along the HIV care continuum—the sequential stages of care from being diagnosed to receiving optimal treatment. Nearly one-fifth of the estimated 1.1 million people living with HIV in the United States are undiagnosed; one-third are not linked to medical care; nearly two-thirds are not engaged in ongoing care; and only one-quarter have the virus effectively controlled, which is necessary to maintain long-term health and reduce risk of transmission to others.

In light of these data, we must further clarify and focus our national efforts to prevent and treat HIV infection. It is the policy of my Administration that agencies implementing the Strategy prioritize addressing the continuum of HIV care, including by accelerating efforts to increase HIV testing, services, and treatment along the continuum. This acceleration will enable us to meet the goals of the Strategy and move closer to an AIDS-free generation.

SEC. 2. *Establishment of the HIV Care Continuum Initiative.* There is established the HIV Care Continuum Initiative (Initiative), to be overseen by the Director of the Office of National AIDS Policy. The Initiative will mobilize and coordinate Federal efforts in response to recent advances regarding how to prevent and treat HIV infection. The Initiative will support further integration of HIV prevention and care efforts; promote expansion of successful HIV testing and service delivery models; encourage innovative approaches to addressing barriers to accessing testing and treatment; and ensure that Federal resources are appropriately focused on implementing evidence-based interventions that improve outcomes along the HIV care continuum.

SEC. 3. *Establishment of the HIV Care Continuum Working Group.* There is established the HIV Care Continuum Working Group (Working Group) to support the Initiative. The Working Group shall coordinate Federal efforts to improve outcomes nationally across the HIV care continuum.

(a) ***Membership.*** The Working Group shall be co-chaired by the Director of the Office of National AIDS Policy and the Secretary of Health and Human Services or designee (Co-Chairs). In addition to the Co-Chairs,

the Working Group shall consist of representatives from:

- (i) the Department of Justice;
- (ii) the Department of Labor;
- (iii) the Department of Health and Human Services;
- (iv) the Department of Housing and Urban Development;
- (v) the Department of Veterans Affairs;
- (vi) the Office of Management and Budget; and
- (vii) other agencies and offices, as designated by the Co-Chairs.

(b) *Consultation.* The Working Group shall consult with the Presidential Advisory Council on HIV/AIDS, as appropriate.

(c) *Functions.* As part of the Initiative, the Working Group shall:

- (i) request and review information from agencies describing efforts to improve testing, care, and treatment outcomes, and determine if there is appropriate emphasis on addressing the HIV care continuum in relation to other work concerning the domestic epidemic;
- (ii) review research on improving outcomes along the HIV care continuum;
- (iii) obtain input from Federal grantees, affected communities, and other stakeholders to inform strategies to improve outcomes along the HIV care continuum;
- (iv) identify potential impediments to improving outcomes along the HIV care continuum, including for populations at greatest risk for HIV infection, based on the efforts undertaken pursuant to paragraphs (i), (ii), and (iii) of this subsection;
- (v) identify opportunities to address issues identified pursuant to paragraph (iv) of this subsection, and thereby improve outcomes along the HIV care continuum;
- (vi) recommend ways to integrate efforts to improve outcomes along the HIV care continuum with other evidence-based strategies to combat HIV; and
- (vii) specify how to better align and coordinate Federal efforts, both within and across agencies, to improve outcomes along the HIV care continuum.

(d) *Reporting.*

(i) Within 180 days of the date of this order, the Working Group shall provide recommendations to the President on actions that agencies can take to improve outcomes along the HIV care continuum.

(ii) Thereafter, the Director of the Office of National AIDS Policy shall include, as part of the annual report to the President pursuant to section 1(b) of my memorandum of July 13, 2010 (Implementation of the National HIV/AIDS Strategy), a report prepared by the Working Group on Government-wide progress in implementing this order. This report shall include a quantification of progress made in improving outcomes along the HIV care continuum.

SEC. 4. *General Provisions.* (a) Nothing in this order shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department, agency, or the head thereof; or
- (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

BARACK OBAMA.

EX. ORD. NO. 13703. IMPLEMENTING THE NATIONAL HIV/AIDS STRATEGY FOR THE UNITED STATES FOR 2015–2020

Ex. Ord. No. 13703, July 30, 2015, 80 F.R. 46181, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to ensure improved health outcomes for Americans at risk for or living with HIV/AIDS and achieve greater coordination across the Federal Government, I hereby order as follows:

SECTION 1. *Policy.* My Administration has made substantial progress in addressing the domestic HIV epidemic since the National HIV/AIDS Strategy for the United States (Strategy), the first of its kind, was released in July 2010. The Strategy has served as a blueprint for executive departments and agencies (agencies) as well as for community partners in the private and nonprofit sectors. This effort has led to increased coordination and collaboration among agencies and fostered the use of evidence-based policy approaches for improving HIV prevention and care.

Federal, State, and local agencies have contributed to significant improvements in health outcomes through

their enhanced focus on the HIV care continuum—the sequential stages of care from being diagnosed to achieving viral suppression. Our partners across all levels of government and all sectors of society have also worked to ensure that all Americans living with HIV/AIDS receive our full support at every stage of their illness.

Further, my Administration has been committed to reducing the HIV-related disparities experienced by certain populations, including gay and bisexual men of all races and ethnicities, Black women and men, Latino women and men, people who inject drugs, youth aged 13–24, people in the Southern United States, and transgender women. Addressing the intersection between HIV/AIDS, violence against women and girls, and gender-related health disparities has also been a priority. The Working Group on the Intersection of HIV/AIDS, Violence Against Women and Girls, and Gender-related Health Disparities established in my memorandum of March 30, 2012, has focused its efforts on increasing screenings for HIV and intimate partner violence, addressing violence and trauma when supporting women in HIV care, and expanding public education efforts across all levels of government regarding HIV and violence against women and girls.

Today, I am releasing the National HIV/AIDS Strategy for the United States: Updated to 2020 (Updated Strategy) to build on this progress. The Updated Strategy integrates the recommendations of the HIV Care Continuum Working Group, established in Executive Order 13649 of July 15, 2013 (HIV Care Continuum Initiative), and the recommendations of the Working Group on the Intersection of HIV/AIDS, Violence Against Women and Girls, and Gender-related Health Disparities, so that their work can inform the Nation's response to the domestic HIV/AIDS epidemic. The Updated Strategy also takes into account recent research advancements in our understanding of HIV/AIDS, and builds on the historic successes of the Affordable Care Act, which is helping millions of Americans, including those who are living with HIV, access affordable, quality health care.

This order is designed to ensure successful implementation of the Updated Strategy by requiring coordination and collaboration by, and accountability of, the Federal Government; fostering enhanced and innovative partnerships with State, tribal, and local governments; and encouraging the commitment of all parts of society. The duties and authorities this order assigns are in addition to those assigned by my memorandum of July 13, 2010 (Implementation of the National HIV/AIDS Strategy). In light of recent progress and continuing challenges, we must continue to improve our national effort to reduce new HIV infections, increase access to care for people living with HIV, reduce HIV-related disparities and health inequities, and achieve greater coordination across all levels of government.

SEC. 2. *Role of the White House Office of National AIDS Policy (ONAP).* (a) The Director of ONAP, in consultation with the Director of the Office of Management and Budget (OMB), shall be responsible for monitoring the implementation of the Updated Strategy.

(b) The Director of ONAP shall annually report to the President on the implementation of the Updated Strategy, including progress in meeting key targets and taking key actions identified in the Updated Strategy and the Federal Action Plan, an annual guidepost developed by ONAP in conjunction with agencies, designed to implement new efforts to address the domestic HIV/AIDS epidemic.

IMPLEMENTATION OF THE NATIONAL HIV/AIDS STRATEGY

Memorandum of President of the United States, July 13, 2010, 75 F.R. 41687, provided:

Memorandum for the Heads of Executive Departments and Agencies

As we approach 30 years from the onset of the HIV/AIDS epidemic in the United States, new actions are needed to prevent HIV infection and better serve people living with HIV. The actions we take now will build upon a legacy of global leadership, national commitment, and sustained efforts on the part of Americans from all parts of the country and all walks of life to end the HIV epidemic in the United States and around the world. I am committed to renewing national leadership to fight HIV/AIDS here at home, as we continue our efforts to fight HIV/AIDS around the world. My Administration has engaged in an extensive process to engage Americans and listen to their ideas for improving our national response to HIV/AIDS.

Today I am releasing a National HIV/AIDS Strategy for the United States (Strategy) and a National HIV/AIDS Strategy Federal Implementation Plan (Federal Implementation Plan), which identifies specific actions to be taken by Federal agencies to implement the Strategy's goals. While agencies already undertake many actions to address HIV/AIDS, successful implementation of the Strategy will require new levels of coordination, collaboration, and accountability. This will require the Federal Government to work in new ways across agency lines, as well as in enhanced and innovative partnerships with State, tribal, and local governments. Government cooperation at all levels, moreover, is not enough. Success will require the commitment of all parts of society, including businesses, faith communities, philanthropic organizations, scientific and medical communities, educational institutions, people living with HIV, and others. It is also necessary to sustain public commitment to ending the epidemic, and this calls for regular communications between governments at all levels to identify the challenges we face and report the progress we are making. To these ends, I hereby direct the following:

SECTION 1. *Role of the White House Office of National AIDS Policy (ONAP).*

(a) The Director of the ONAP, in consultation with the Office of Management and Budget (OMB), shall be responsible for setting the Administration's domestic HIV/AIDS priorities and monitoring the implementation of the Strategy. (b) The Director of the ONAP shall annually report to the President on the implementation of the Strategy, including progress in meeting key targets and taking key actions identified in the Strategy and the Federal Implementation Plan.

(a) *Designation of Lead Agencies.* Lead agencies for implementing the Strategy shall be:

- (i) the Department of Health and Human Services;
- (ii) the Department of Justice;

- (v) the Department of Veterans Affairs; and
- (vi) the Social Security Administration.

(b) *Lead Agency Implementation Plans.* Within 150 days of the date of this memorandum, the head of each lead agency shall submit a report to the ONAP and the OMB on the agency's operational plans for implementing the Strategy. The plans shall assign responsibilities to agency officials, designate reporting structures for actions identified in the Federal Implementation Plan, and identify other appropriate actions to advance the Strategy. The plans shall also include steps to strengthen coordination in planning, budgeting for, and evaluating domestic HIV/AIDS programs within and across agencies. Lead agencies are encouraged to consider, and reflect in their plans, steps to streamline grantee reporting requirements and funding announcements related to HIV/AIDS programs and activities.

(c) *Ongoing Responsibilities of Lead Agencies.* The head of each lead agency shall:

- (i) designate an official responsible for coordinating the agency's ongoing efforts to implement the Strategy;
- (ii) develop a process for sharing progress reports, including status updates on achieving specific

quantitative targets established by the Strategy, with relevant agencies and the ONAP on an annual basis, or at such other times as the ONAP requests; and

(iii) in consultation with the OMB, use the budget development process to prioritize programs and activities most critical to meeting the goals of the Strategy.

SEC. 3. *Role of the Secretary of Health and Human Services.* The Secretary of Health and Human Services (Secretary), or the Secretary's designee, shall be responsible for improving coordination of domestic HIV/AIDS programs and activities across the Federal Government.

(a) *Coordination within the Department of Health and Human Services.* The Secretary, or the Secretary's designee, shall develop and implement specific plans and procedures for improving intra-departmental coordination and collaboration on HIV/AIDS care, research, and prevention services.

(b) *Coordination with Other Agencies.* The Secretary, or the Secretary's designee, shall be responsible for convening interagency efforts to improve coordination of HIV/AIDS programs and activities. This may include collaboration with governmental and nongovernmental entities to achieve the Federal Government's implementation and research priorities in the areas of highest impact.

(c) *Presidential Advisory Council on HIV/AIDS (PACHA).* PACHA, which was established by Executive Order 12963 of June 14, 1995 (Presidential Advisory Council on HIV/AIDS), as amended, shall monitor the implementation of the Strategy and make recommendations to the Secretary and to the Director of the ONAP, as appropriate, concerning implementation.

SEC. 4. *Responsibilities of Other Agencies.* All agencies that support HIV/AIDS programs and activities shall ensure that, to the extent permitted by law, they are meeting the goals of the Strategy.

(a) *Department of Defense.* Within 150 days of the date of this memorandum, the Secretary of Defense shall submit to the ONAP and the OMB a plan for aligning the health-care services provided by the Department of Defense with the Strategy, to the extent feasible and permitted by law. ESTABLISHING A WORKING GROUP ON THE INTERSECTION OF HIV/AIDS, VIOLENCE AGAINST WOMEN AND GIRLS, AND GENDER-RELATED HEALTH DISPARITIES

Memorandum of President of the United States, Mar. 30, 2012, 77 F.R. 20277, provided:

Memorandum for the Heads of Executive Departments and Agencies

Throughout our country, the spread of HIV/AIDS has had a devastating impact on many communities. In the United States, there are approximately 1.2 million people living with HIV/AIDS, including more than 290,000 women. Women and girls now account for 24 percent of all diagnoses of HIV infection among United States adults and adolescents. The domestic epidemic disproportionately affects women of color, with

African Americans and Latinas constituting over 70 percent of new HIV cases in women. The spread of HIV/AIDS is, in and of itself, a primary concern to my Administration. However, gender-based violence and gender-related health disparities cannot be ignored when addressing the domestic public health threat of HIV/AIDS. HIV/AIDS programs often ignore the biological differences and the social, economic, and cultural inequities that make women and girls more vulnerable to HIV/AIDS. In our country, women and girls are all too frequently victimized by domestic violence and sexual assault, which can lead to greater risk for acquiring this disease. Teenage girls and young women ages 16–24 face the highest rates of dating violence and sexual assault. In addition, challenges in accessing proper health care can present obstacles to addressing HIV/AIDS. Gender-based violence continues to be an underreported, common problem that, if ignored, increases risks for HIV and may prevent women and girls from seeking prevention, treatment, and health services.

My Administration is committed to improving efforts to understand and address the intersection of HIV/AIDS, violence against women and girls, and gender-related health disparities. To do so, executive departments and agencies (agencies) must build on their current work addressing the intersection of these issues by improving data collection, research, intervention strategies, and training. In order to develop a comprehensive Government-wide approach to these issues that is data-driven, uses effective prevention and care interventions, engages families and communities, supports research and data collection, and mobilizes both public and private sector resources, I direct the following:

SECTION 1. Working Group on the Intersection of HIV/AIDS, Violence Against Women and Girls, and Gender-related Health Disparities. There is established within the Executive Office of the President a Working Group on the Intersection of HIV/AIDS, Violence Against Women and Girls, and Gender-related Health Disparities (Working Group), to be co-chaired by the White House Advisor on Violence Against Women and the Director of the Office of National AIDS Policy (Co-Chairs). Within 60 days of the date of this memorandum, the Co-Chairs shall convene the first meeting of the Working Group.

(a) In addition to the Co-Chairs, the Working Group shall consist of representatives from:

- (i) the Department of Justice;
- (ii) the Department of the Interior;
- (iii) the Department of Health and Human Services;
- (iv) the Department of Education;
- (v) the Department of Homeland Security;
- (vi) the Department of Veterans Affairs;
- (vii) the Department of Housing and Urban Development; and
- (viii) the Office of Management and Budget.

(b) The Working Group shall consult with the Presidential Advisory Council on HIV/AIDS, as appropriate.

(c) The Department of State, the United States Agency for International Development, and the President's Emergency Plan for AIDS Relief Gender Technical Working Group shall act in an advisory capacity to the Working Group, providing information on lessons learned and evidence-based best practices based on their global experience addressing issues involving the intersection between HIV/AIDS and violence against women.

SEC. 2. Mission and Functions of the Working Group. (a) The Working Group shall coordinate agency efforts to address issues involving the intersection of HIV/AIDS, violence against women and girls, and gender-related health disparities. Such efforts shall include, but not be limited to:

(i) increasing government and public awareness of the need to address the intersection of HIV/AIDS, violence against women and girls, and gender-related health disparities, including sexual and reproductive health and access to health care;

(ii) sharing best practices, including demonstration projects and international work by agencies, as well as successful gender-specific strategies aimed at addressing risks that influence women's and girls' vulnerability to HIV infection and violence;

(iii) integrating sexual and reproductive health services, gender-based violence services, and HIV/AIDS services, where research demonstrates that doing so will result in improved and sustained health outcomes;

(iv) emphasizing evidence-based prevention activities that engage men and boys and highlight their role in the prevention of violence against women and HIV/AIDS infection;

(v) facilitating opportunities for partnerships among diverse organizations from the violence against women and girls, HIV/AIDS, and women's health communities to address the intersection of these issues;

(vi) ensuring that the needs of vulnerable and underserved groups are considered in any efforts to address issues involving the intersection of HIV/AIDS, violence against women and girls, and gender-related health disparities;

(vii) promoting research to better understand the intersection of the biological, behavioral, and social sciences bases for the relationship between increased HIV/AIDS risk, domestic violence, and gender-related

health disparities; and

(viii) prioritizing, as appropriate, the efforts described in paragraphs (a)(i)–(vii) of this section with respect to women and girls of color, who represent the majority of females living with and at risk for HIV infection in the United States.

(b) The Working Group shall annually provide the President recommendations for updating the National HIV/AIDS Strategy. In addition, the Working Group shall provide information on:

(i) coordinated actions taken by the Working Group to meet its objectives and identify areas where the Federal Government has achieved integration and coordination in addressing the intersection of HIV/AIDS, violence against women and girls, and gender-related health disparities;

(ii) alternative means of making available gender-sensitive health care for women and girls through the integration of HIV/AIDS prevention and care services with intimate partner violence prevention and counseling as well as mental health and trauma services;

(iii) specific, evidence-based goals for addressing HIV among women, including HIV-related disparities among women of color, to inform the National HIV/AIDS Strategy Implementation Plan (for its biannual review);

(iv) research and data collection needs regarding HIV/AIDS, violence against women and girls, and gender-related health disparities to help develop more comprehensive data and targeted research (disaggregated by sex, gender, and gender identity, where practicable); and

(v) existing partnerships and potential areas of collaboration with other public or nongovernmental actors, taking into consideration the types of implementation or research objectives that other public or nongovernmental actors may be particularly well-situated to accomplish.

SEC. 3. *Outreach.* Consistent with the objectives of this memorandum and applicable law, the Working Group, in addition to regular meetings, shall conduct outreach with representatives of private and nonprofit organizations, State, tribal, and local government agencies, elected officials, and other interested persons to assist the Working Group in developing a detailed set of recommendations.

SEC. 4. *General Provisions.* (a) The heads of agencies shall assist and provide information to the Working Group, consistent with applicable law, as may be necessary to carry out the functions of the Working Group. Each agency and office shall bear its own expense for carrying out activities related to the Working Group.

(b) Nothing in this memorandum shall be construed to impair or otherwise affect:

(i) the authority granted by law to an executive department, agency, or the head thereof; or

(ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(d) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(e) The Secretary of Health and Human Services is authorized and directed to publish this memorandum in the Federal Register.

BARACK OBAMA.

FINDINGS AND SENSE OF CONGRESS

Pub. L. 102–96, §2, Aug. 14, 1991, 105 Stat. 481, provided that:

"(a) **FINDINGS**.—Congress finds that—

"(1) community-based clinical trials complement the National Institute of Allergy and Infectious Diseases' university-based research in order to provide increased access to experimental therapies;

"(2) community-based clinical trials provide an efficient and cost-effective means to develop new HIV-related treatments, benefiting all people living with HIV disease and other illnesses; and

"(3) because the community-based clinical trials model has a proven ability to conduct rapid trials that meet the very highest standards of scientific inquiry, this program should be reauthorized and significantly expanded.

"(b) **SENSE OF CONGRESS**.—It is the sense of Congress that, because of Terry Beirn's tireless efforts to foster a partnership among all parties invested in AIDS research (including the National Institutes of Health university-based research system, primary care physicians practicing in the community, and patients), the community-based clinical trials program should be renamed as the 'Terry Beirn Community-Based AIDS Research Initiative' in his honor."

Prior to revision by Pub. L. 102–321, this part was comprised of subpart I, consisting of sections 300dd–31 to 300dd–33, and subpart II, consisting of section 300dd–41.

§300dd–31. Grants for anonymous testing

The Secretary may make grants to the States for the purpose of providing opportunities for individuals—

(1) to undergo counseling and testing with respect to the etiologic agent for acquired immune deficiency syndrome without being required to provide any information relating to the identity of the individuals; and

(2) to undergo such counseling and testing through the use of a pseudonym.

(July 1, 1944, ch. 373, title XXIV, §2431, as added Pub. L. 100–607, title II, §211, Nov. 4, 1988, 102 Stat. 3090.)

§300dd–32. Requirement of provision of certain counseling services

(a) Counseling before testing

The Secretary may not make a grant under section 300dd–31 of this title to a State unless the State agrees that, before testing an individual pursuant to such section, the State will provide to the individual appropriate counseling with respect to acquired immune deficiency syndrome (based on the most recent scientific data relating to such syndrome), including—

(1) measures for the prevention of exposure to, and the transmission of, the etiologic agent for such syndrome;

(2) the accuracy and reliability of the results of such testing;

(3) the significance of the results of such testing, including the potential for developing acquired immune deficiency syndrome; and

(4) encouraging individuals, as appropriate, to undergo testing for such etiologic agent and providing information on the benefits of such testing.

(b) Counseling of individuals with negative test results

The Secretary may not make a grant under section 300dd–31 of this title to a State unless the State agrees that, if the results of testing conducted pursuant to such section indicate that an individual is not infected with the etiologic agent for acquired immune deficiency syndrome, the State will review for the individual the information provided pursuant to subsection (a) with respect to such syndrome, including—

(1) the information described in paragraphs (1) through (3) of such subsection; and

(2) the appropriateness of further counseling, testing, and education of the individual with respect to acquired immune deficiency syndrome.

(c) Counseling of individuals with positive test results

The Secretary may not make a grant under section 300dd–31 of this title to a State unless the State agrees that, if the results of testing conducted pursuant to such section indicate that an individual is infected with the etiologic agent for acquired immune deficiency syndrome, the State will provide to the individual appropriate counseling with respect to such syndrome, including—

- (1) reviewing the information described in paragraphs (1) through (3) of subsection (a);
- (2) reviewing the appropriateness of further counseling, testing, and education of the individual with respect to acquired immune deficiency syndrome;
- (3) the importance of not exposing others to the etiologic agent for acquired immune deficiency syndrome;
- (4) the availability in the geographic area of any appropriate services with respect to health care, including mental health care and social and support services;
- (5) the benefits of locating and counseling any individual by whom the infected individual may have been exposed to the etiologic agent for acquired immune deficiency syndrome and any individual whom the infected individual may have exposed to such etiologic agent; and
- (6) the availability, if any, of the services of public health authorities with respect to locating and counseling any individual described in paragraph (5).

(d) Rule of construction with respect to counseling without testing

Agreements entered into pursuant to subsections (a) through (c) may not be construed to prohibit any grantee under section 300dd–31 of this title from expending the grant for the purpose of providing counseling services described in such subsections to an individual who will not undergo testing described in such section as a result of the grantee or the individual determining that such testing of the individual is not appropriate.

(e) Use of funds

(1) The purpose of this subpart ¹ is to provide for counseling and testing services to prevent and reduce exposure to, and transmission of, the etiologic agent for acquired immune deficiency syndrome.

(2) All individuals receiving counseling pursuant to this subpart ¹ are to be counseled about the harmful effects of promiscuous sexual activity and intravenous substance abuse, and the benefits of abstaining from such activities.

(3) None of the fund appropriated to carry out this subpart ¹ may be used to provide counseling that is designed to promote or encourage, directly, homosexual or heterosexual sexual activity or intravenous drug abuse.

(4) Paragraph (3) may not be construed to prohibit a counselor who has already performed the counseling of an individual required by paragraph (2), to provide accurate information about means to reduce an individual's risk of exposure to, or the transmission of, the etiologic agent for acquired immune deficiency syndrome, provided that any informational materials used are not obscene.

(M) representatives of individuals who formerly were Federal, State, or local prisoners, were released from the custody of the penal system during the preceding 3 years, and had HIV/AIDS as of the date on which the individuals were so released.

(3) Method of providing for council

(A) In general

In providing for a council for purposes of paragraph (1), a chief elected official receiving a grant under section 300ff-11(a) of this title may establish the council directly or designate an existing entity to serve as the council, subject to subparagraph (B).

(B) Consideration regarding designation of council

In making a determination of whether to establish or designate a council under subparagraph (A), a chief elected official receiving a grant under section 300ff-11(a) of this title shall give priority to the designation of an existing entity that has demonstrated experience in planning for the HIV health care service needs within the eligible area and in the implementation of such plans in addressing those needs. Any existing entity so designated shall be expanded to include a broad representation of the full range of entities that provide such services within the geographic area to be served.

(4) Duties

The planning council established or designated under paragraph (1) shall—

(A) determine the size and demographics of the population of individuals with HIV/AIDS, as well as the size and demographics of the estimated population of individuals with HIV/AIDS who are unaware of their HIV status;

(B) determine the needs of such population, with particular attention to—

(i) individuals with HIV/AIDS who know their HIV status and are not receiving HIV-related services;

(ii) disparities in access and services among affected subpopulations and historically underserved communities; and

(iii) individuals with HIV/AIDS who do not know their HIV status;

(C) establish priorities for the allocation of funds within the eligible area, including how best to meet each such priority and additional factors that a grantee should consider in allocating funds under a grant based on the—

(i) size and demographics of the population of individuals with HIV/AIDS (as determined under subparagraph (A)) and the needs of such population (as determined under subparagraph (B));

(ii) demonstrated (or probable) cost effectiveness and outcome effectiveness of proposed strategies and interventions, to the extent that data are reasonably available;

(iii) priorities of the communities with HIV/AIDS for whom the services are intended;

(iv) coordination in the provision of services to such individuals with programs for HIV prevention and for the prevention and treatment of substance abuse, including programs that provide comprehensive treatment for such abuse;

(v) availability of other governmental and non-governmental resources, including the State medicaid plan under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] and the State Children's Health Insurance Program under title XXI of such Act [42 U.S.C. 1397aa et seq.] to cover health care costs of eligible individuals and families with HIV/AIDS; and

(vi) capacity development needs resulting from disparities in the availability of HIV-related services in historically underserved communities;

(D) develop a comprehensive plan for the organization and delivery of health and support services described in section 300ff-14 of this title that—

(i) includes a strategy for identifying individuals who know their HIV status and are not receiving such services and for informing the individuals of and enabling the individuals to utilize the services, giving particular attention to eliminating disparities in access and services among affected subpopulations and historically underserved communities, and including discrete goals, a timetable, and an appropriate allocation of funds;

(ii) includes a strategy to coordinate the provision of such services with programs for HIV prevention (including outreach and early intervention) and for the prevention and treatment of substance abuse (including programs that provide comprehensive treatment services for such abuse);

(iii) is compatible with any State or local plan for the provision of services to individuals with HIV/AIDS; and

(iv) includes a strategy, coordinated as appropriate with other community strategies and efforts, including discrete goals, a timetable, and appropriate funding, for identifying individuals with HIV/AIDS who do not know their HIV status, making such individuals aware of such status, and enabling such individuals to use the health and support services described in section 300ff-14 of this title, with particular attention to reducing barriers to routine testing and disparities in access and services among affected subpopulations and historically underserved communities;

(E) assess the efficiency of the administrative mechanism in rapidly allocating funds to the areas of greatest need within the eligible area, and at the discretion of the planning council, assess the effectiveness, either directly or through contractual arrangements, of the services offered in meeting the identified needs;

(F) participate in the development of the statewide coordinated statement of need initiated by the State public health agency responsible for administering grants under part B;

(G) establish methods for obtaining input on community needs and priorities which may include public meetings (in accordance with paragraph (7)), conducting focus groups, and convening ad-hoc panels; and

(H) coordinate with Federal grantees that provide HIV-related services within the eligible area.

(5) Conflicts of interest

(A) In general

The planning council under paragraph (1) may not be directly involved in the administration of a grant under section 300ff-11(a) of this title. With respect to compliance with the preceding sentence, the planning council may not designate (or otherwise be involved in the selection of) particular entities as recipients of any of the amounts provided in the grant.

(B) Required agreements

An individual may serve on the planning council under paragraph (1) only if the individual agrees that if the individual has a financial interest in an entity, if the individual is an employee of a public or private entity, or if the individual is a member of a public or private organization, and such entity or organization is seeking amounts from a grant under section 300ff-11(a) of this title, the individual will not, with respect to the purpose for which the entity seeks such amounts, participate (directly or in an advisory capacity) in the process of selecting entities to receive such amounts for such purpose.

(C) Composition of council

The following applies regarding the membership of a planning council under paragraph (1):

(i) Not less than 33 percent of the council shall be individuals who are receiving HIV-related services pursuant to a grant under section 300ff-11(a) of this title, are not officers, employees, or consultants to any entity that receives amounts from such a grant, and do not represent any such entity, and reflect the demographics of the population of individuals with HIV/AIDS as determined under paragraph (4)(A). For purposes of the

preceding sentence, an individual shall be considered to be receiving such services if the individual is a parent of, or a caregiver for, a minor child who is receiving such services.

(ii) With respect to membership on the planning council, clause (i) may not be construed as having any effect on entities that receive funds from grants under any of parts B through F but do not receive funds from grants under section 300ff-11(a) of this title, on officers or employees of such entities, or on individuals who represent such entities.

(6) Grievance procedures

A planning council under paragraph (1) shall develop procedures for addressing grievances with respect to funding under this subpart, including procedures for submitting grievances that cannot be resolved to binding arbitration. Such procedures shall be described in the by-laws of the planning council and be consistent with the requirements of subsection (c).

(7) Public deliberations

With respect to a planning council under paragraph (1), the following applies:

(A) The council may not be chaired solely by an employee of the grantee under section 300ff-11(a) of this title.

(B) In accordance with criteria established by the Secretary:

(i) The meetings of the council shall be open to the public and shall be held only after adequate notice to the public.

(ii) The records, reports, transcripts, minutes, agenda, or other documents which were made available to or prepared for or by the council shall be available for public inspection and copying at a single location.

(iii) Detailed minutes of each meeting of the council shall be kept. The accuracy of all minutes shall be certified to by the chair of the council.

(iv) This subparagraph does not apply to any disclosure of information of a personal nature that would constitute a clearly unwarranted invasion of personal privacy, including any disclosure of medical information or personnel matters.

(c) Grievance procedures

(1) Federal responsibility

(A) Models

The Secretary shall, through a process that includes consultations with grantees under this subpart and public and private experts in grievance procedures, arbitration, and mediation, develop model grievance procedures that may be implemented by the planning council under subsection (b)(1) and grantees under this subpart. Such model procedures shall describe the elements that must be addressed in establishing local grievance procedures and provide grantees with flexibility in the design of such local procedures.

(B) Review

The Secretary shall review grievance procedures established by the planning council and grantees under this subpart to determine if such procedures are adequate. In making such a determination, the Secretary shall assess whether such procedures permit legitimate grievances to be filed, evaluated, and resolved at the local level.

(2) Grantees

To be eligible to receive funds under this subpart, a grantee shall develop grievance procedures that are determined by the Secretary to be consistent with the model procedures developed under paragraph (1)(A). Such procedures shall include a process for submitting grievances to binding arbitration.

(d) Process for establishing allocation priorities

Promptly after the date of the submission of the report required in section 501(b) of the Ryan White CARE Act Amendments of 2000 (relating to the relationship between epidemiological measures and health care for certain individuals with HIV/AIDS), the Secretary, in consultation with

planning councils and entities that receive amounts from grants under section 300ff–11(a) or 300ff–21 of this title, shall develop epidemiologic measures—

(1) for establishing the number of individuals living with HIV/AIDS who are not receiving HIV-related health services; and

(2) for carrying out the duties under subsection (b)(4) and section 300ff–27(b) of this title.

(e) Training guidance and materials

The Secretary shall provide to each chief elected official receiving a grant under section 300ff–11(a) of this title guidelines and materials for training members of the planning council under paragraph (1) regarding the duties of the council.

§300ff–13. Type and distribution of grants

(a) Grants based on relative need of area

(1) In general

In carrying out section 300ff–11(a) of this title, the Secretary shall make a grant for each eligible area for which an application under section 300ff–15(a) of this title has been approved. Each such grant shall be made in an amount determined in accordance with paragraph (3).

(2) Expedited distribution

Not later than 60 days after an appropriation becomes available to carry out this subpart for a fiscal year, the Secretary shall, except in the case of waivers granted under section 300ff–15(c) ¹ of this title, disburse 662/3 percent of the amount made available under section 300ff–20(b) of this title for carrying out this subpart for such fiscal year through grants to eligible areas under section 300ff–11(a) of this title, in accordance with paragraphs (3) and (4).

(3) Amount of grant

(A) In general

Subject to the extent of amounts made available in appropriations Acts, a grant made for purposes of this paragraph to an eligible area shall be made in an amount equal to the product of—

- (i) an amount equal to the amount available for distribution under paragraph (2) for the fiscal year involved; and
- (ii) the percentage constituted by the ratio of the distribution factor for the eligible area to the sum of the respective distribution factors for all eligible areas;

which product shall then, as applicable, be increased under paragraph (4).

(B) Distribution factor

For purposes of subparagraph (A)(ii), the term "distribution factor" means an amount equal to the living cases of HIV/AIDS (reported to and confirmed by the Director of the Centers for Disease Control and Prevention) in the eligible area involved, as determined under subparagraph (C).

(C) Living cases of HIV/AIDS

(i) Requirement of names-based reporting

Except as provided in clause (ii), the number determined under this subparagraph for an eligible area for a fiscal year for purposes of subparagraph (B) is the number of living names-based cases of HIV/AIDS that, as of December 31 of the most recent calendar year for which such data is available, have been reported to and confirmed by the Director of the Centers for Disease Control and Prevention.

(ii) Transition period; exemption regarding non-AIDS cases

For each of the fiscal years 2007 through 2012, an eligible area is, subject to clauses (iii) through (v), exempt from the requirement under clause (i) that living names-based non-AIDS cases of HIV be reported unless—

(I) a system was in operation as of December 31, 2005, that provides sufficiently accurate and reliable names-based reporting of such cases throughout the State in which the area is located, subject to clause (viii); or

(II) no later than the beginning of fiscal year 2008 or a subsequent fiscal year through fiscal year 2012, the Secretary, in consultation with the chief executive of the State in which the area is located, determines that a system has become operational in the State that provides sufficiently accurate and reliable names-based reporting of such cases throughout the State.

(iii) Requirements for exemption for fiscal year 2007

For fiscal year 2007, an exemption under clause (ii) for an eligible area applies only if, by October 1, 2006—

(I)(aa) the State in which the area is located had submitted to the Secretary a plan for making the transition to sufficiently accurate and reliable names-based reporting of living non-AIDS cases of HIV; or

(bb) all statutory changes necessary to provide for sufficiently accurate and reliable reporting of such cases had been made; and

(II) the State had agreed that, by April 1, 2008, the State will begin accurate and reliable names-based reporting of such cases, except that such agreement is not required to provide that, as of such date, the system for such reporting be fully sufficient with respect to accuracy and reliability throughout the area.

(iv) Requirement for exemption as of fiscal year 2008

For each of the fiscal years 2008 through 2012, an exemption under clause (ii) for an eligible area applies only if, as of April 1, 2008, the State in which the area is located is substantially in compliance with the agreement under clause (iii)(II).

(v) Progress toward names-based reporting

For fiscal year 2009 or a subsequent fiscal year, the Secretary may terminate an exemption under clause (ii) for an eligible area if the State in which the area is located submitted a plan under clause (iii)(I)(aa) and the Secretary determines that the State is not substantially following the plan.

(vi) Counting of cases in areas with exemptions

(I) In general

With respect to an eligible area that is under a reporting system for living non-AIDS cases of HIV that is not names-based (referred to in this subparagraph as "code-based reporting"), the Secretary shall, for purposes of this subparagraph, modify the number of such cases reported for the eligible area in order to adjust for duplicative reporting in and among systems that use code-based reporting.

(II) Adjustment rate

The adjustment rate under subclause (I) for an eligible area shall be a reduction of 5 percent for fiscal years before fiscal year 2012 (and 6 percent for fiscal year 2012) in the number of living non-AIDS cases of HIV reported for the area.

(III) Increased adjustment for certain areas previously using code-based reporting

For purposes of this subparagraph for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in an area that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if—

- (aa) for fiscal year 2007, such area was a transitional area;
- (bb) fiscal year 2007 was the first year in which the count of living non-AIDS cases of HIV in such area, for purposes of this section, was based on a names-based reporting system; and
- (cc) the amount of funding that such area received under this part for fiscal year 2007 was less than 70 percent of the amount of funding (exclusive of funds that were identified as being for purposes of the Minority AIDS Initiative) that such area received under such part for fiscal year 2006.

(vii) Multiple political jurisdictions

With respect to living non-AIDS cases of HIV, if an eligible area is not entirely within one political jurisdiction and as a result is subject to more than one reporting system for purposes of this subparagraph:

(I) Names-based reporting under clause (i) applies in a jurisdictional portion of the area, or an exemption under clause (ii) applies in such portion (subject to applicable provisions of this subparagraph), according to whether names-based reporting or code-based reporting is used in such portion.

(II) If under subclause (I) both names-based reporting and code-based reporting apply in the area, the number of code-based cases shall be reduced under clause (vi).

(viii) List of eligible areas meeting standard regarding December 31, 2005

(I) In general

If an eligible area or portion thereof is in a State specified in subclause (II), the eligible area or portion shall be considered to meet the standard described in clause (ii)(I). No other eligible area or portion thereof may be considered to meet such standard.

(II) Relevant States

For purposes of subclause (I), the States specified in this subclause are the following: Alaska, Alabama, Arkansas, Arizona, Colorado, Florida, Indiana, Iowa, Idaho, Kansas, Louisiana, Michigan, Minnesota, Missouri, Mississippi, North Carolina, North Dakota, Nebraska, New Jersey, New Mexico, New York, Nevada, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Wisconsin, West Virginia, Wyoming, Guam, and the Virgin Islands.

(ix) Rules of construction regarding acceptance of reports

(I) Cases of AIDS

With respect to an eligible area that is subject to the requirement under clause (i) and is not in compliance with the requirement for names-based reporting of living non-AIDS cases of HIV, the Secretary shall, notwithstanding such noncompliance, accept reports of

living cases of AIDS that are in accordance with such clause.

(II) Applicability of exemption requirements

The provisions of clauses (ii) through (viii) may not be construed as having any legal effect for fiscal year 2013 or any subsequent fiscal year, and accordingly, the status of a State for purposes of such clauses may not be considered after fiscal year 2012.

(x) Program for detecting inaccurate or fraudulent counting

The Secretary shall carry out a program to monitor the reporting of names-based cases for purposes of this subparagraph and to detect instances of inaccurate reporting, including fraudulent reporting.

(xi) Future fiscal years

For fiscal years beginning with fiscal year 2013, determinations under this paragraph shall be based only on living names-based cases of HIV/AIDS with respect to the area involved.

(D) Code-based areas; limitation on increase in grant

(i) In general

For each of the fiscal years 2007 through 2012, if code-based reporting (within the meaning of subparagraph (C)(vi)) applies in an eligible area or any portion thereof as of the beginning of the fiscal year involved, then notwithstanding any other provision of this paragraph, the amount of the grant pursuant to this paragraph for such area for such fiscal year may not—

(I) for fiscal year 2007, exceed by more than 5 percent the amount of the grant for the area that would have been made pursuant to this paragraph and paragraph (4) for fiscal year 2006 (as such paragraphs were in effect for such fiscal year) if paragraph (2) (as so in effect) had been applied by substituting "662/3 percent" for "50 percent"; and

(II) for each of the fiscal years 2008 through 2012, exceed by more than 5 percent the amount of the grant pursuant to this paragraph and paragraph (4) for the area for the preceding fiscal year.

(ii) Use of amounts involved

For each of the fiscal years 2007 through 2012, amounts available as a result of the limitation under clause (i) shall be made available by the Secretary as additional amounts for grants pursuant to subsection (b) for the fiscal year involved, subject to paragraph (4) and section 300ff-20(d)(2) of this title.

(4) Increases in grant

(A) In general

For each eligible area that received a grant pursuant to this subsection for fiscal year 2009, the Secretary shall, for each of the fiscal years 2010 through 2013, increase the amount of the grant made pursuant to paragraph (3) for the area to ensure that the amount of the grant for the fiscal year involved is not less than the following amount, as applicable to such fiscal year:

(i) For fiscal year 2010, an amount equal to 95 percent of the sum of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2009.

(ii) For each of the fiscal years 2011 and 2012, an amount equal to 100 percent of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2010.

(iii) For fiscal year 2013, an amount equal to 92.5 percent of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2012.

(B) Source of funds for increase

(i) In general

From the amounts available for carrying out the single program referred to in section 300ff-19(d)(2)(C) of this title for a fiscal year (relating to supplemental grants), the Secretary shall make available such amounts as may be necessary to comply with subparagraph (A),

subject to section 300ff–20(d)(2) of this title.

(ii) Pro rata reduction

If the amounts referred to in clause (i) for a fiscal year are insufficient to fully comply with subparagraph (A) for the year, the Secretary, in order to provide the additional funds necessary for such compliance, shall reduce on a pro rata basis the amount of each grant pursuant to this subsection for the fiscal year, other than grants for eligible areas for which increases under subparagraph (A) apply. A reduction under the preceding sentence may not be made in an amount that would result in the eligible area involved becoming eligible for such an increase.

(C) Limitation

This paragraph may not be construed as having any applicability after fiscal year 2013.

(b) Supplemental grants

(1) In general

Subject to subsection (a)(4)(B)(i) and section 300ff–20(d) of this title, the Secretary shall disburse the remainder of amounts not disbursed under subsection (a)(2) for such fiscal year for the purpose of making grants under section 300ff–11(a) of this title to eligible areas whose application under section 300ff–15(b) of this title—

(A) contains a report concerning the dissemination of emergency relief funds under subsection (a) and the plan for utilization of such funds;

(B) demonstrates the need in such area, on an objective and quantified basis, for supplemental financial assistance to combat the HIV epidemic;

(C) demonstrates the existing commitment of local resources of the area, both financial and in-kind, to combating the HIV epidemic;

(D) demonstrates the ability of the area to utilize such supplemental financial resources in a manner that is immediately responsive and cost effective;

(E) demonstrates that resources will be allocated in accordance with the local demographic incidence of AIDS including appropriate allocations for services for infants, children, youth, women, and families with HIV/AIDS;

(F) demonstrates the inclusiveness of affected communities and individuals with HIV/AIDS;

(G) demonstrates the manner in which the proposed services are consistent with the local needs assessment and the statewide coordinated statement of need;

(H) demonstrates the ability of the applicant to expend funds efficiently by not having had, for the most recent grant year under subsection (a) for which data is available, more than 5 percent of grant funds under such subsection canceled, offset under subsection (c)(4), or covered by any waivers under subsection (c)(3); and

(I) demonstrates success in identifying individuals with HIV/AIDS as described in clauses (i) through (iii) of paragraph (2)(A).

(2) Amount of grant

(A) In general

The amount of each grant made for purposes of this subsection shall be determined by the Secretary based on a weighting of factors under paragraph (1), with demonstrated need under subparagraph (B) of such paragraph counting one-third, and demonstrated success in identifying individuals with HIV/AIDS who do not know their HIV status and making them aware of such status counting one-third. In making such determination, the Secretary shall consider—

(i) the number of individuals who have been tested for HIV/AIDS;

(ii) of those individuals described in clause (i), the number of individuals who tested for HIV/AIDS who are made aware of their status, including the number who test positive; and

(iii) of those individuals described in clause (ii), the number who have been referred to appropriate treatment and care.

(B) Demonstrated need

The factors considered by the Secretary in determining whether an eligible area has a demonstrated need for purposes of paragraph (1)(B) may include any or all of the following:

(i) The unmet need for such services, as determined under section 300ff-12(b)(4) of this title or other community input process as defined under section 300ff-19(d)(1)(A) of this title.

(ii) An increasing need for HIV/AIDS-related services, including relative rates of increase in the number of cases of HIV/AIDS.

(iii) The relative rates of increase in the number of cases of HIV/AIDS within new or emerging subpopulations.

(iv) The current prevalence of HIV/AIDS.

(v) Relevant factors related to the cost and complexity of delivering health care to individuals with HIV/AIDS in the eligible area.

(vi) The impact of co-morbid factors, including co-occurring conditions, determined relevant by the Secretary.

(vii) The prevalence of homelessness.

(viii) The prevalence of individuals described under section 300ff-12(b)(2)(M) of this title.

(ix) The relevant factors that limit access to health care, including geographic variation, adequacy of health insurance coverage, and language barriers.

(x) The impact of a decline in the amount received pursuant to subsection (a) on services available to all individuals with HIV/AIDS identified and eligible under this subchapter.

(C) Priority in making grants

The Secretary shall provide funds under this subsection to an eligible area to address the decline or disruption of all EMA-provided services related to the decline in the amounts received pursuant to subsection (a) consistent with the grant award for the eligible area for fiscal year 2006, to the extent that the factor under subparagraph (B)(x) (relating to a decline in funding) applies to the eligible area.

(D) Increased adjustment for certain areas previously using code-based reporting

For purposes of this subsection for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in an area that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if the conditions described in items (aa) through (cc) of subsection (a)(3)(C)(vi)(III) are all satisfied.

(3) Remainder of amounts

In determining the amount of funds to be obligated under paragraph (1), the Secretary shall include amounts that are not paid to the eligible areas under expedited procedures under subsection (a)(2) as a result of—

(A) the failure of any eligible area to submit an application under section 300ff-15(c) ¹ of this title; or

(B) any eligible area informing the Secretary that such eligible area does not intend to expend the full amount of its grant under such section.

(4) Failure to submit

(A) In general

The failure of an eligible area to submit an application for an expedited grant under subsection (a)(2) shall not result in such area being ineligible for a grant under this subsection.

(B) Application

The application of an eligible area submitted under section 300ff-15(b) of this title shall contain the assurances required under subsection (a) of such section if such eligible area fails to submit an application for an expedited grant under subsection (a)(2).

(c) Timeframe for obligation and expenditure of grant funds

(1) Obligation by end of grant year

Effective for fiscal year 2007 and subsequent fiscal years, funds from a grant award made pursuant to subsection (a) or (b) for a fiscal year are available for obligation by the eligible area involved through the end of the one-year period beginning on the date in such fiscal year on which funds from the award first become available to the area (referred to in this subsection as the "grant year for the award"), except as provided in paragraph (3)(A).

(2) Supplemental grants; cancellation of unobligated balance of grant award

Effective for fiscal year 2007 and subsequent fiscal years, if a grant award made pursuant to subsection (b) for an eligible area for a fiscal year has an unobligated balance as of the end of the grant year for the award—

(A) the Secretary shall cancel that unobligated balance of the award, and shall require the eligible area to return any amounts from such balance that have been disbursed to the area; and

(B) the funds involved shall be made available by the Secretary as additional amounts for grants pursuant to subsection (b) for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that the balance is required under subparagraph (A) to be canceled, except that the availability of the funds for such grants is subject to subsection (a)(4) and section 300ff–20(d)(2) of this title as applied for such year.

(3) Formula grants; cancellation of unobligated balance of grant award; waiver permitting carryover

(A) In general

Effective for fiscal year 2007 and subsequent fiscal years, if a grant award made pursuant to subsection (a) for an eligible area for a fiscal year has an unobligated balance as of the end of the grant year for the award, the Secretary shall cancel that unobligated balance of the award, and shall require the eligible area to return any amounts from such balance that have been disbursed to the area, unless—

- (i) before the end of the grant year, the chief elected official of the area submits to the Secretary a written application for a waiver of the cancellation, which application includes a description of the purposes for which the area intends to expend the funds involved; and
- (ii) the Secretary approves the waiver.

(B) Expenditure by end of carryover year

With respect to a waiver under subparagraph (A) that is approved for a balance that is unobligated as of the end of a grant year for an award:

- (i) The unobligated funds are available for expenditure by the eligible area involved for the one-year period beginning upon the expiration of the grant year (referred to in this subsection as the "carryover year").
- (ii) If the funds are not expended by the end of the carryover year, the Secretary shall cancel that unexpended balance of the award, and shall require the eligible area to return any amounts from such balance that have been disbursed to the area.

(C) Use of cancelled balances

In the case of any balance of a grant award that is cancelled under subparagraph (A) or (B)(ii), the grant funds involved shall be made available by the Secretary as additional amounts for grants pursuant to subsection (b) for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that the balance is required under such subparagraph to be canceled, except that the availability of the funds for such grants is subject to subsection (a)(4) and section 300ff–20(d)(2) of this title as applied for such year.

(D) Corresponding reduction in future grant

(i) In general

In the case of an eligible area for which a balance from a grant award under subsection (a)

is unobligated as of the end of the grant year for the award—

(I) the Secretary shall reduce, by the same amount as such unobligated balance (less any amount of such balance that is the subject of a waiver of cancellation under subparagraph (A)), the amount of the grant under such subsection for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that such balance was unobligated as of the end of the grant year (which requirement for a reduction applies without regard to whether a waiver under subparagraph (A) has been approved with respect to such balance); and

(II) the grant funds involved in such reduction shall be made available by the Secretary as additional funds for grants pursuant to subsection (b) for such first fiscal year, subject to subsection (a)(4) and section 300ff–20(d)(2) of this title;

except that this clause does not apply to the eligible area if the amount of the unobligated balance was 5 percent or less.

(ii) Relation to increases in grant

A reduction under clause (i) for an eligible area for a fiscal year may not be taken into account in applying subsection (a)(4) with respect to the area for the subsequent fiscal year.

(4) Authority regarding administration of provisions

In administering paragraphs (2) and (3) with respect to the unobligated balance of an eligible area, the Secretary may elect to reduce the amount of future grants to the area under subsection (a) or (b), as applicable, by the amount of any such unobligated balance in lieu of cancelling such amount as provided for in paragraph (2) or (3)(A). In such case, the Secretary may permit the area to use such unobligated balance for purposes of any such future grant. An amount equal to such reduction shall be available for use as additional amounts for grants pursuant to subsection (b), subject to subsection (a)(4) and section 300ff–20(d)(2) of this title. Nothing in this paragraph shall be construed to affect the authority of the Secretary under paragraphs (2) and (3), including the authority to grant waivers under paragraph (3)(A). The reduction in future grants authorized under this paragraph shall be notwithstanding the penalty required under paragraph (3)(D) with respect to unobligated funds.

(d) Compliance with priorities of HIV planning council

Notwithstanding any other provision of this subpart, the Secretary, in carrying out section 300ff–11(a) of this title, may not make any grant under subsection (a) or (b) to an eligible area unless the application submitted by such area under section 300ff–15 of this title for the grant involved demonstrates that the grants made under subsections (a) and (b) to the area for the preceding fiscal year (if any) were expended in accordance with the priorities applicable to such year that were established, pursuant to section 300ff–12(b)(4)(C) of this title, by the planning council serving the area.

(e) Report on the awarding of supplemental funds

Not later than 45 days after the awarding of supplemental funds under this section, the Secretary shall submit to Congress a report concerning such funds. Such report shall include information detailing—

- (1) the total amount of supplemental funds available under this section for the year involved;
- (2) the amount of supplemental funds used in accordance with the hold harmless provisions of subsection (a)(4);
- (3) the amount of supplemental funds disbursed pursuant to subsection (b)(2)(C);
- (4) the disbursement of the remainder of the supplemental funds after taking into account the uses described in paragraphs (2) and (3); and
- (5) the rationale used for the amount of funds disbursed as described under paragraphs (2), (3), and (4).

SUBPART II—TRANSITIONAL GRANTS

§300ff–19. Establishment of program

(a) In general

The Secretary, acting through the Administrator of the Health Resources and Services Administration, shall make grants for the purpose of providing services described in section 300ff–14 of this title in transitional areas, subject to the same provisions regarding the allocation of grant funds as apply under subsection (c) of such section.

(b) Transitional areas

For purposes of this section, the term "transitional area" means, subject to subsection (c), a metropolitan area for which there has been reported to and confirmed by the Director of the Centers for Disease Control and Prevention a cumulative total of at least 1,000, but fewer than 2,000, cases of AIDS during the most recent period of 5 calendar years for which such data are available.

(c) Certain eligibility rules

(1) Fiscal year 2011

With respect to grants under subsection (a) for fiscal year 2011, a metropolitan area that received funding under subpart I for fiscal year 2010 but does not for fiscal year 2011 qualify under such subpart as an eligible area and does not qualify under subsection (b) as a transitional area shall, notwithstanding subsection (b), be considered a transitional area.

(2) Continued status as transitional area

(A) In general

Notwithstanding subsection (b), a metropolitan area that is a transitional area for a fiscal year continues, except as provided in subparagraph (B), to be a transitional area until the metropolitan area fails, for three consecutive fiscal years—

(i) to qualify under such subsection as a transitional area; and

(ii) subject to subparagraphs (B) and (C), to have a cumulative total of 1,500 or more living cases of AIDS (reported to and confirmed by the Director of the Centers for Disease Control and Prevention) as of December 31 of the most recent calendar year for which such data is available.

(B) Permitting margin of error applicable to certain metropolitan areas

In applying subparagraph (A)(ii) for a fiscal year after fiscal year 2008, in the case of a metropolitan area that has a cumulative total of at least 1,400 (and fewer than 1,500) living cases of AIDS as of December 31 of the most recent calendar year for which such data is available, such area shall be treated as having met the criteria of such subparagraph if not more than 5 percent of the total from grants awarded to such area under this part is unobligated as of the end of the most recent fiscal year for which such data is available.

(C) Exception regarding status as eligible area

Subparagraphs (A) and (B) do not apply for a fiscal year if the metropolitan area involved qualifies under subpart I as an eligible area.

(d) Application of certain provisions of subpart I

(1) Administration; planning council

(A) In general

The provisions of section 300ff–12 of this title apply with respect to a grant under subsection (a) for a transitional area to the same extent and in the same manner as such provisions apply with respect to a grant under subpart I for an eligible area, except that, subject to subparagraph (B), the chief elected official of the transitional area may elect not to comply with the provisions of section 300ff–12(b) of this title if the official provides documentation to the Secretary that details the process used to obtain community input (particularly from those with HIV) in the transitional area for formulating the overall plan for priority setting and allocating funds from the grant under subsection (a).

(B) Exception

For each of the fiscal years 2007 through 2013, the exception described in subparagraph (A) does not apply if the transitional area involved received funding under subpart I for fiscal year 2006.

(2) Type and distribution of grants; timeframe for obligation and expenditure of grant funds

(A) Formula grants; supplemental grants

The provisions of section 300ff–13 of this title apply with respect to grants under subsection (a) to the same extent and in the same manner as such provisions apply with respect to grants under subpart I, subject to subparagraphs (B) and (C).

(B) Formula grants; increase in grant

For purposes of subparagraph (A), section 300ff–13(a)(4) of this title does not apply.

(C) Supplemental grants; single program with subpart I program

With respect to section 300ff–13(b) of this title as applied for purposes of subparagraph (A):

(i) The Secretary shall combine amounts available pursuant to such subparagraph with amounts available for carrying out section 300ff–13(b) of this title and shall administer the two programs as a single program.

(ii) In the single program, the Secretary has discretion in allocating amounts between eligible areas under subpart I and transitional areas under this section, subject to the eligibility criteria that apply under such section, and subject to section 300ff–13(b)(2)(C) of this title (relating to priority in making grants).

(iii) Pursuant to section 300ff–13(b)(1) of this title, amounts for the single program are subject to use under sections 300ff–13(a)(4) and 300ff–20(d)(1) of this title.

(3) Application; technical assistance; definitions

The provisions of sections 300ff–15, 300ff–16, and 300ff–17 of this title apply with respect to grants under subsection (a) to the same extent and in the same manner as such provisions apply with respect to grants under subpart I.

(a) Consortia

A State may, subject to subsection (f), use amounts provided under a grant awarded under section 300ff–21 of this title to provide assistance under section 300ff–22(a) of this title to an entity that—

(1) is an association of one or more public, and one or more nonprofit private,¹ (or private for-profit providers or organizations if such entities are the only available providers of quality HIV care in the area) ¹ health care and support service providers and community based organizations operating within areas determined by the State to be most affected by HIV/AIDS; and

(2) agrees to use such assistance for the planning, development and delivery, through the direct provision of services or through entering into agreements with other entities for the provision of such services, of comprehensive outpatient health and support services for individuals with HIV/AIDS, that may include—

(A) essential health services such as case management services, medical, nursing, substance abuse treatment, mental health treatment, and dental care, diagnostics, monitoring, prophylactic treatment for opportunistic infections, treatment education to take place in the context of health care delivery, and medical follow-up services, mental health, developmental, and rehabilitation services, home health and hospice care; and

(B) essential support services such as transportation services, attendant care, homemaker services, day or respite care, benefits advocacy, advocacy services provided through public and nonprofit private entities, and services that are incidental to the provision of health care services for individuals with HIV/AIDS including nutrition services, housing referral services, and child welfare and family services (including foster care and adoption services).

An entity or entities of the type described in this subsection shall hereinafter be referred to in this subchapter as a "consortium" or "consortia".

(b) Assurances

(1) Requirement

To receive assistance from a State under subsection (a), an applicant consortium shall provide the State with assurances that—

(A) within any locality in which such consortium is to operate, the populations and subpopulations of individuals and families with HIV/AIDS have been identified by the consortium, particularly those experiencing disparities in access and services and those who reside in historically underserved communities;

(B) the service plan established under subsection (c)(2) by such consortium is consistent with the comprehensive plan under section 300ff–27(b)(4) of this title and addresses the special care and service needs of the populations and subpopulations identified under subparagraph (A); and

(C) except as provided in paragraph (2), the consortium will be a single coordinating entity that will integrate the delivery of services among the populations and subpopulations identified under subparagraph (A).

(2) Exception

Subparagraph (C) of paragraph (1) shall not apply to any applicant consortium that the State determines will operate in a community or locality in which it has been demonstrated by the applicant consortium that—

(A) subpopulations exist within the community to be served that have unique service requirements; and

(B) such unique service requirements cannot be adequately and efficiently addressed by a single consortium serving the entire community or locality.

(c) Application

(1) In general

To receive assistance from the State under subsection (a), a consortium shall prepare and submit to the State, an application that—

(A) demonstrates that the consortium includes agencies and community-based organizations—

(i) with a record of service to populations and subpopulations with HIV/AIDS requiring care within the community to be served; and

(ii) that are representative of populations and subpopulations reflecting the local incidence of HIV and that are located in areas in which such populations reside;

(B) demonstrates that the consortium has carried out an assessment of service needs within the geographic area to be served and, after consultation with the entities described in paragraph (2), has established a plan to ensure the delivery of services to meet such identified needs that shall include—

(i) assurances that service needs will be addressed through the coordination and expansion of existing programs before new programs are created;

(ii) assurances that, in metropolitan areas, the geographic area to be served by the consortium corresponds to the geographic boundaries of local health and support services delivery systems to the extent practicable;

(iii) assurances that, in the case of services for individuals residing in rural areas, the applicant consortium shall deliver case management services that link available community support services to appropriate specialized medical services; and

(iv) assurances that the assessment of service needs and the planning of the delivery of services will include participation by individuals with HIV/AIDS;

(C) demonstrates that adequate planning has occurred to meet the special needs of families with HIV/AIDS, including family centered and youth centered care;

(D) demonstrates that the consortium has created a mechanism to evaluate periodically—

(i) the success of the consortium in responding to identified needs; and

(ii) the cost-effectiveness of the mechanisms employed by the consortium to deliver comprehensive care;

(E) demonstrates that the consortium will report to the State the results of the evaluations described in subparagraph (D) and shall make available to the State or the Secretary, on request, such data and information on the program methodology that may be required to perform an independent evaluation; and

(F) demonstrates that adequate planning occurred to address disparities in access and services and historically underserved communities.

(2) Consultation

In establishing the plan required under paragraph (1)(B), the consortium shall consult with—

(A)(i) the public health agency that provides or supports ambulatory and outpatient HIV-related health care services within the geographic area to be served; or

(ii) in the case of a public health agency that does not directly provide such HIV-related health care services such agency shall consult with an entity or entities that directly provide ambulatory and outpatient HIV-related health care services within the geographic area to be served;

(B) not less than one community-based organization that is organized solely for the purpose of providing HIV-related support services to individuals with HIV/AIDS;

(C) grantees under section 300ff-71 of this title, or, if none are operating in the area, representatives in the area of organizations with a history of serving children, youth, women, and families living with HIV; and

(D) the types of entities described in section 300ff–12(b)(2) of this title.

The organization to be consulted under subparagraph (B) shall be at the discretion of the applicant consortium.

(d) "Family centered care" defined

As used in section 300ff–21 of this title, the term "family centered care" means the system of services described in this section that is targeted specifically to the special needs of infants, children, women, and families. Family centered care shall be based on a partnership between parents, professionals, and the community designed to ensure an integrated, coordinated, culturally sensitive, and community-based continuum of care for children, women, and families with HIV/AIDS.

(e) Priority

In providing assistance under subsection (a), the State shall, among applicants that meet the requirements of this section, give priority—

- (1) first to consortia that are receiving assistance from the Health Resources and Services Administration for adult and pediatric HIV-related care demonstration projects; and then
- (2) to any other existing HIV care consortia.

(f) Allocation of funds; treatment as support services

For purposes of the requirement of section 300ff–22(b)(1) of this title, expenditures of grants under section 300ff–21 of this title for or through consortia under this section are deemed to be support services, not core medical services. The preceding sentence may not be construed as having any legal effect on the provisions of subsection (a) that relate to authorized expenditures of the grant. The State shall waive the requirements established in paragraphs (1) through (3) in the case of an entity that does not, in providing health care services, impose a charge or accept reimbursement from any third-party payor, including reimbursement under any insurance policy or under any Federal or State health benefits program.

(B) Determination

A determination by the State of whether an entity referred to in subparagraph (A) meets the criteria for a waiver under such subparagraph shall be made without regard to whether the entity accepts voluntary donations regarding the provision of services to the public.

(d) Requirement of matching funds regarding State allotments

(1) In general

In the case of any State to which the criterion described in paragraph (3) applies, the Secretary may not make a grant under section 300ff–21 of this title unless the State agrees that, with respect to the costs to be incurred by the State in carrying out the program for which the grant was awarded, the State will, subject to subsection (b)(2),⁴ make available (directly or through donations from public or private entities) non-Federal contributions toward such costs in an amount equal to—

(2) Determination of amount of non-Federal contribution

(A) In general

Non-Federal contributions required in paragraph (1) may be in cash or in kind, fairly evaluated, including plant, equipment, or services. Amounts provided by the Federal Government, and any portion of any service subsidized by the Federal Government, may not be included in determining the amount of such non-Federal contributions.

(B) Inclusion of certain amounts

(i) In making a determination of the amount of non-Federal contributions made by a State for purposes of paragraph (1), the Secretary shall, subject to clause (ii), include any non-Federal contributions provided by the State for HIV-related services, without regard to whether the contributions are made for programs established pursuant to this subchapter;

(3) Applicability of requirement

(A) Number of cases

A State referred to in paragraph (1) is any State for which the number of cases of HIV/AIDS reported to and confirmed by the Director of the Centers for Disease Control and Prevention for the period described in subparagraph (B) constitutes in excess of 1 percent of the aggregate number of such cases reported to and confirmed by the Director for such period for the United States.

(B) Period of time

The period referred to in subparagraph (A) is the 2-year period preceding the fiscal year for which the State involved is applying to receive a grant under subsection (a).

(C) Puerto Rico

For purposes of paragraph (1), the number of cases of HIV/AIDS reported and confirmed for the Commonwealth of Puerto Rico for any fiscal year shall be deemed to be less than 1 percent.

(4) Diminished State contribution

With respect to a State that does not make available the entire amount of the non-Federal contribution referred to in paragraph (1), the State shall continue to be eligible to receive Federal funds under a grant under section 300ff–21 of this title, except that the Secretary in providing Federal funds under the grant shall provide such funds (in accordance with the ratios prescribed in paragraph (1)) only with respect to the amount of funds contributed by such State.

(ii) a number equal to the sum of—

(I) the total number of living cases of HIV/AIDS that are within areas in such State that are eligible areas under subpart I of part A for the fiscal year involved, which individual number for an area is the number that applies under section 300ff–11 of this title for the area for such fiscal year; and

(II) the total number of such cases that are within areas in such State that are transitional areas under section 300ff–19 of this title for such fiscal year, which individual number for an area is the number that applies under such section for the fiscal year.

(D) Living cases of HIV/AIDS

(i) Requirement of names-based reporting

Except as provided in clause (ii), the number determined under this subparagraph for a State for a fiscal year for purposes of subparagraph (B) is the number of living names-based cases of HIV/AIDS in the State that, as of December 31 of the most recent calendar year for which such data is available, have been reported to and confirmed by the Director of the Centers for Disease Control and Prevention.

(ii) Transition period; exemption regarding non-AIDS cases

For each of the fiscal years 2007 through 2012, a State is, subject to clauses (iii) through (v), exempt from the requirement under clause (i) that living non-AIDS names-based cases of HIV be reported unless—

(I) a system was in operation as of December 31, 2005, that provides sufficiently accurate and reliable names-based reporting of such cases throughout the State, subject to clause (vii); or

(II) no later than the beginning of fiscal year 2008 or a subsequent fiscal year through fiscal year 2012, the Secretary, after consultation with the chief executive of the State, determines that a system has become operational in the State that provides sufficiently accurate and reliable names-based reporting of such cases throughout the State.

(iii) Requirements for exemption for fiscal year 2007

For fiscal year 2007, an exemption under clause (ii) for a State applies only if, by October 1, 2006—

(I)(aa) the State had submitted to the Secretary a plan for making the transition to sufficiently accurate and reliable names-based reporting of living non-AIDS cases of HIV; or

(bb) all statutory changes necessary to provide for sufficiently accurate and reliable reporting of such cases had been made; and

(II) the State had agreed that, by April 1, 2008, the State will begin accurate and reliable names-based reporting of such cases, except that such agreement is not required to provide that, as of such date, the system for such reporting be fully sufficient with respect to accuracy and reliability throughout the area.

(iv) Requirement for exemption as of fiscal year 2008

For each of the fiscal years 2008 through 2012, an exemption under clause (ii) for a State applies only if, as of April 1, 2008, the State is substantially in compliance with the agreement under clause (iii)(II).

(v) Progress toward names-based reporting

For fiscal year 2009 or a subsequent fiscal year, the Secretary may terminate an exemption under clause (ii) for a State if the State submitted a plan under clause (iii)(I)(aa) and the Secretary determines that the State is not substantially following the plan.

(vi) Counting of cases in areas with exemptions

(I) In general

With respect to a State that is under a reporting system for living non-AIDS cases of HIV that is not names-based (referred to in this subparagraph as "code-based reporting"), the Secretary shall, for purposes of this subparagraph, modify the number of such cases reported for the State in order to adjust for duplicative reporting in and among systems that use code-based reporting.

(II) Adjustment rate

The adjustment rate under subclause (I) for a State shall be a reduction of 5 percent for fiscal years before fiscal year 2012 (and 6 percent for fiscal year 2012) in the number of living non-AIDS cases of HIV reported for the State.

(III) Increased adjustment for certain States previously using code-based reporting

For purposes of this subparagraph for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in a State that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if—

(aa) there is an area in such State that satisfies all of the conditions described in items (aa) through (cc) of section 300ff-13(a)(3)(C)(vi)(III) of this title; or

(bb)(AA) fiscal year 2007 was the first year in which the count of living non-AIDS cases of HIV in such area, for purposes of this part, was based on a names-based reporting system; and

(BB) the amount of funding that such State received under this part for fiscal year 2007 was less than 70 percent of the amount of funding that such State received under such part for fiscal year 2006.

(vii) List of States meeting standard regarding December 31, 2005

(I) In general

If a State is specified in subclause (II), the State shall be considered to meet the standard described in clause (ii)(I). No other State may be considered to meet such standard.

(II) Relevant States

For purposes of subclause (I), the States specified in this subclause are the following: Alaska, Alabama, Arkansas, Arizona, Colorado, Florida, Indiana, Iowa, Idaho, Kansas, Louisiana, Michigan, Minnesota, Missouri, Mississippi, North Carolina, North Dakota, Nebraska, New Jersey, New Mexico, New York, Nevada, Ohio, Oklahoma, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, Wisconsin, West Virginia, Wyoming, Guam, and the Virgin Islands.

(viii) Rules of construction regarding acceptance of reports

(I) Cases of AIDS

With respect to a State that is subject to the requirement under clause (i) and is not in compliance with the requirement for names-based reporting of living non-AIDS cases of HIV, the Secretary shall, notwithstanding such noncompliance, accept reports of living cases of AIDS that are in accordance with such clause.

(II) Applicability of exemption requirements

The provisions of clauses (ii) through (vii) may not be construed as having any legal

effect for fiscal year 2013 or any subsequent fiscal year, and accordingly, the status of a State for purposes of such clauses may not be considered after fiscal year 2012.

(ix) Program for detecting inaccurate or fraudulent counting

The Secretary shall carry out a program to monitor the reporting of names-based cases for purposes of this subparagraph and to detect instances of inaccurate reporting, including fraudulent reporting.

(x) Future fiscal years

For fiscal years beginning with fiscal year 2013, determinations under this paragraph shall be based only on living names-based cases of HIV/AIDS with respect to the State involved.

(E) Code-based States; limitation on increase in grant

(i) In general

For each of the fiscal years 2007 through 2012, if code-based reporting (within the meaning of subparagraph (D)(vi)) applies in a State as of the beginning of the fiscal year involved, then notwithstanding any other provision of this paragraph, the amount of the grant pursuant to paragraph (1) for the State may not for the fiscal year involved exceed by more than 5 percent the amount of the grant pursuant to this paragraph for the State for the preceding fiscal year, except that the limitation under this clause may not result in a grant pursuant to paragraph (1) for a fiscal year that is less than the minimum amount that applies to the State under such paragraph for such fiscal year.

(ii) Use of amounts involved

For each of the fiscal years 2007 through 2012, amounts available as a result of the limitation under clause (i) shall be made available by the Secretary as additional amounts for grants pursuant to section 300ff–29a of this title, subject to subparagraph (H).

(F) Appropriations for treatment drug program

(i) Formula grants

With respect to the fiscal year involved, if under section 300ff–31b of this title an appropriations Act provides an amount exclusively for carrying out section 300ff–26 of this title, the portion of such amount allocated to a State shall be the product of—

- (I) 100 percent of such amount, less the percentage reserved under clause (ii)(V); and
- (II) the percentage constituted by the ratio of the State distribution factor for the State (as determined under subparagraph (B)) to the sum of the State distribution factors for all States;

which product shall then, as applicable, be increased under subparagraph (H).

(ii) Supplemental treatment drug grants

(I) In general

From amounts made available under subclause (V), the Secretary shall award supplemental grants to States described in subclause (II) to enable such States to purchase and distribute to eligible individuals under section 300ff–26(b) of this title pharmaceutical therapeutics described under subsections (c)(2) and (e) of such section.

(II) Eligible States

For purposes of subclause (I), a State shall be an eligible State if the State did not have unobligated funds subject to reallocation under subsection (d) in the previous fiscal year and, in accordance with criteria established by the Secretary, demonstrates a severe need for a grant under this clause. For purposes of determining severe need, the Secretary shall consider eligibility standards, formulary composition, the number of eligible individuals to whom a State is unable to provide therapeutics described in section 300ff–26(a) of this title, and an unanticipated increase of eligible individuals with HIV/AIDS.

(III) State requirements

The Secretary may not make a grant to a State under this clause unless the State agrees that the State will make available (directly or through donations of public or private entities) non-Federal contributions toward the activities to be carried out under the grant in an amount equal to \$1 for each \$4 of Federal funds provided in the grant, except that the Secretary may waive this subclause if the State has otherwise fully complied with section 300ff–27(d) of this title with respect to the grant year involved. The provisions of this subclause shall apply to States that are not required to comply with such section 300ff–27(d) of this title.

(IV) Use and coordination

Amounts made available under a grant under this clause shall only be used by the State to provide HIV/AIDS-related medications. The State shall coordinate the use of such amounts with the amounts otherwise provided under section 300ff–26(a) of this title in order to maximize drug coverage.

(V) Funding

For the purpose of making grants under this clause, the Secretary shall each fiscal year reserve 5 percent of the amount referred to in clause (i) with respect to section 300ff–26 of this title.

(iii) Code-based States; limitation on increase in formula grant

The limitation under subparagraph (E)(i) applies to grants pursuant to clause (i) of this subparagraph to the same extent and in the same manner as such limitation applies to grants pursuant to paragraph (1), except that the reference to minimum grants does not apply for purposes of this clause. Amounts available as a result of the limitation under the preceding sentence shall be made available by the Secretary as additional amounts for grants under clause (ii) of this subparagraph.

(G) Repealed. Pub. L. 109–415, title II, §203(b)(2), Dec. 19, 2006, 120 Stat. 2792

(H) Increase in formula grants

(i) Assurance of amount

(I) General rule

For fiscal year 2010, the Secretary shall ensure, subject to clauses (ii) through (iv), that the total for a State of the grant pursuant to paragraph (1) and the grant pursuant to subparagraph (F) is not less than 95 percent of such total for the State for fiscal year 2009.

(II) Rule of construction

With respect to the application of subclause (I), the 95 percent requirement under such subclause shall apply with respect to each grant awarded under paragraph (1) and with respect to each grant awarded under subparagraph (F).

(ii) Fiscal years 2011 and 2012

For each of the fiscal years 2011 and 2012, the Secretary shall ensure that the total for a State of the grant pursuant to paragraph (1) and the grant pursuant to subparagraph (F) is not less than 100 percent of such total for the State for fiscal year 2010.

(iii) Fiscal year 2013

For fiscal year 2013, the Secretary shall ensure that the total for a State of the grant pursuant to paragraph (1) and the grant pursuant to subparagraph (F) is not less than 92.5 percent of such total for the State for fiscal year 2012.

(iv) Source of funds for increase

(I) In general

From the amount reserved under section 300ff–31b(b)(2) of this title for a fiscal year,

and from amounts available for such section pursuant to subsection (d) of this section, the Secretary shall make available such amounts as may be necessary to comply with clause (i).

(II) Pro rata reduction

If the amounts referred to in subclause (I) for a fiscal year are insufficient to fully comply with clause (i) for the year, the Secretary, in order to provide the additional funds necessary for such compliance, shall reduce on a pro rata basis the amount of each grant pursuant to paragraph (1) for the fiscal year, other than grants for States for which increases under clause (i) apply and other than States described in paragraph (1)(A)(i)(I). A reduction under the preceding sentence may not be made in an amount that would result in the State involved becoming eligible for such an increase.

(v) Applicability

This paragraph may not be construed as having any applicability after fiscal year 2013.

(b) Allocation of assistance by States

(1) Allowances

Prior to allocating assistance under this subsection, a State shall consider the unmet needs of those areas that have not received financial assistance under part A.

In the case of entities and subcontractors to which a State allocates amounts received by the State under a grant under section 300ff–21 of this title, the State shall ensure that, of the aggregate amount so allocated, the total of the expenditures by such entities for administrative expenses does not exceed 10 percent (without regard to whether particular entities expend more than 10 percent for such expenses).

(C) Administrative activities

For the purposes of subparagraph (A), amounts may be used for administrative activities that include routine grant administration and monitoring activities, including a clinical quality management program under subparagraph (E).

(D) Subcontractor administrative costs

For the purposes of this paragraph, subcontractor administrative activities include—

- (i) usual and recognized overhead, including established indirect rates for agencies;
- (ii) management oversight of specific programs funded under this subchapter; and
- (iii) other types of program support such as quality assurance, quality control, and related activities.

(E) Clinical quality management

(i) Requirement

Each State that receives a grant under section 300ff–21 of this title shall provide for the establishment of a clinical quality management program to assess the extent to which HIV health services provided to patients under the grant are consistent with the most recent Public

Health Service guidelines for the treatment of HIV/AIDS and related opportunistic infection, and as applicable, to develop strategies for ensuring that such services are consistent with the guidelines for improvement in the access to and quality of HIV health services.

(ii) Use of funds

(I) In general

With respect to a State that receives the minimum allotment under subsection (a)(1) for a fiscal year, such State, from the amounts received under a grant awarded under section 300ff–21 of this title for such fiscal year for the activities described in paragraphs (2) and (3), may, notwithstanding paragraphs (2) through (4), use not more than that amount required to support one full-time-equivalent employee.

(6) Construction

A State may not use amounts received under a grant awarded under section 300ff–21 of this title to purchase or improve land, or to purchase, construct, or permanently improve (other than minor remodeling) any building or other facility, or to make cash payments to intended recipients of services.

(c) Expedited distribution

(1) In general

Not less than 75 percent of the amounts received under a grant awarded to a State under section 300ff–21 of this title shall be obligated to specific programs and projects and made available for expenditure not later than—

- (A) in the case of the first fiscal year for which amounts are received, 150 days after the receipt of such amounts by the State; and

Section, act July 1, 1944, ch. 373, title XXVI, §2621, as added Pub. §300ff–31a. Timeframe for obligation and expenditure of grant funds

(a) Obligation by end of grant year

Effective for fiscal year 2007 and subsequent fiscal years, funds from a grant award made to a State for a fiscal year pursuant to section 300ff–28(a)(1) or 300ff–28(a)(2)(F) of this title, or under section 300ff–29a or 300ff–30 of this title, are available for obligation by the State through the end of the one-year period beginning on the date in such fiscal year on which funds from the award first become available to the State (referred to in this section as the "grant year for the award"), except as provided in subsection (c)(1).

(b) Supplemental grants; cancellation of unobligated balance of grant award

Effective for fiscal year 2007 and subsequent fiscal years, if a grant award made to a State for a fiscal year pursuant to section 300ff–28(a)(2)(F)(ii) of this title, or under section 300ff–29a or 300ff–30 of this title, has an unobligated balance as of the end of the grant year for the award—

(1) the Secretary shall cancel that unobligated balance of the award, and shall require the State to return any amounts from such balance that have been disbursed to the State; and

(2) the funds involved shall be made available by the Secretary as additional amounts for grants pursuant to section 300ff–29a of this title for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that the balance is required under paragraph (1) to be canceled, except that the availability of the funds for such grants is subject to section 300ff–28(a)(2)(H) of this title as applied for such year.

(c) Formula grants; cancellation of unobligated balance of grant award; waiver permitting carryover

(1) In general

Effective for fiscal year 2007 and subsequent fiscal years, if a grant award made to a State for a fiscal year pursuant to section 300ff–28(a)(1) or 300ff–28(a)(2)(F)(i) of this title has an unobligated balance as of the end of the grant year for the award, the Secretary shall cancel that unobligated balance of the award, and shall require the State to return any amounts from such balance that have been disbursed to the State, unless—

(A) before the end of the grant year, the State submits to the Secretary a written application for a waiver of the cancellation, which application includes a description of the purposes for which the State intends to expend the funds involved; and

(B) the Secretary approves the waiver.

(2) Expenditure by end of carryover year

With respect to a waiver under paragraph (1) that is approved for a balance that is unobligated as of the end of a grant year for an award:

(A) The unobligated funds are available for expenditure by the State involved for the one-year period beginning upon the expiration of the grant year (referred to in this section as the "carryover year").

(B) If the funds are not expended by the end of the carryover year, the Secretary shall cancel that unexpended balance of the award, and shall require the State to return any amounts from such balance that have been disbursed to the State.

(3) Use of cancelled balances

In the case of any balance of a grant award that is cancelled under paragraph (1) or (2)(B), the grant funds involved shall be made available by the Secretary as additional amounts for grants under section 300ff–29a of this title for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that the balance is required under such paragraph to be canceled, except that the availability of the funds for such grants is subject to section 300ff–28(a)(2)(H) of this title as applied for such year.

(4) Corresponding reduction in future grant

(A) In general

In the case of a State for which a balance from a grant award made pursuant to section 300ff–28(a)(1) or 300ff–28(a)(2)(F)(i) of this title is unobligated as of the end of the grant year for the award—

(i) the Secretary shall reduce, by the same amount as such unobligated balance (less any amount of such balance that is the subject of a waiver of cancellation under paragraph (1)), the amount of the grant under such section for the first fiscal year beginning after the fiscal year in which the Secretary obtains the information necessary for determining that such balance was unobligated as of the end of the grant year (which requirement for a reduction applies without regard to whether a waiver under paragraph (1) has been approved with respect to such balance); and

(ii) the grant funds involved in such reduction shall be made available by the Secretary as additional funds for grants under section 300ff–29a of this title for such first fiscal year, subject to section 300ff–28(a)(2)(H) of this title;

except that this subparagraph does not apply to the State if the amount of the unobligated balance was 5 percent or less.

(B) Relation to increases in grant

A reduction under subparagraph (A) for a State for a fiscal year may not be taken into account in applying section 300ff–28(a)(2)(H) of this title with respect to the State for the subsequent fiscal year.

(d) Treatment of drug rebates

For purposes of this section, funds that are drug rebates referred to in section 300ff–26(g) of this title may not be considered part of any grant award referred to in subsection (a). If an expenditure of ADAP rebate funds would trigger a penalty under this section or a higher penalty than would otherwise have applied, the State may request that for purposes of this section, the Secretary deem the State's unobligated balance to be reduced by the amount of rebate funds in the proposed expenditure. Notwithstanding 300ff–28(a)(2)(F) ¹ of this title, any unobligated amount under section 300ff–28(a)(2)(F)(ii)(V) of this title that is returned to the Secretary for reallocation shall be used by the Secretary for—

- (1) the ADAP supplemental program if the Secretary determines appropriate; or
- (2) for additional amounts for grants pursuant to section 300ff–29a of this title.

(e) Authority regarding administration of provisions

In administering subsections (b) and (c) with respect to the unobligated balance of a State, the Secretary may elect to reduce the amount of future grants to the State under section 300ff–28, 300ff–29a, or 300ff–30 of this title, as applicable, by the amount of any such unobligated balance in lieu of cancelling such amount as provided for in subsection (b) or (c)(1). In such case, the Secretary may permit the State to use such unobligated balance for purposes of any such future grant. An amount equal to such reduction shall be available for use as additional amounts for grants pursuant to

section 300ff–29a of this title, subject to section 300ff–28(a)(2)(H) of this title. Nothing in this paragraph shall be construed to affect the authority of the Secretary under subsections (b) and (c), including the authority to grant waivers under subsection (c)(1). The reduction in future grants authorized under this subsection shall be notwithstanding the penalty required under subsection (c)(4) with respect to unobligated funds.

PERINATAL TRANSMISSION OF HIV DISEASE; CONGRESSIONAL FINDINGS

Pub. L. 104–146, §7(a), May 20, 1996, 110 Stat. 1368, provided that: "The Congress finds as follows:

"(1) Research studies and statewide clinical experiences have demonstrated that administration of anti-retroviral medication during pregnancy can significantly reduce the transmission of the human immunodeficiency virus (commonly known as HIV) from an infected mother to her baby.

"(2) The Centers for Disease Control and Prevention have recommended that all pregnant women receive HIV counseling; voluntary, confidential HIV testing; and appropriate medical treatment (including anti-retroviral therapy) and support services.

"(3) The provision of such testing without access to such counseling, treatment, and services will not improve the health of the woman or the child.

"(4) The provision of such counseling, testing, treatment, and services can reduce the number of pediatric cases of acquired immune deficiency syndrome, can improve access to and provision of medical care for the woman, and can provide opportunities for counseling to reduce transmission among adults, and from mother to child.

"(5) The provision of such counseling, testing, treatment, and services can reduce the overall cost of pediatric cases of acquired immune deficiency syndrome.

"(6) The cancellation or limitation of health insurance or other health coverage on the basis of HIV status should be impermissible under applicable law. Such cancellation or limitation could result in disincentives for appropriate counseling, testing, treatment, and services.

"(7) For the reasons specified in paragraphs (1) through (6)—

"(A) routine HIV counseling and voluntary testing of pregnant women should become the standard of care; and

"(B) the relevant medical organizations as well as public health officials should issue guidelines making such counseling and testing the standard of care."

§300ff–34. Perinatal transmission of HIV/AIDS; contingent requirement regarding State grants under this part

(a) Annual determination of reported cases

A State shall annually determine the rate of reported cases of AIDS as a result of perinatal transmission among residents of the State.

(b) Causes of perinatal transmission

In determining the rate under subsection (a), a State shall also determine the possible causes of perinatal transmission. Such causes may include—

(1) the inadequate provision within the State of prenatal counseling and testing in accordance with the guidelines issued by the Centers for Disease Control and Prevention;

(2) the inadequate provision or utilization within the State of appropriate therapy or failure of such therapy to reduce perinatal transmission of HIV, including—

(A) that therapy is not available, accessible or offered to mothers; or

(B) that available therapy is offered but not accepted by mothers; or

(3) other factors (which may include the lack of prenatal care) determined relevant by the State.

(c) CDC reporting system

Not later than 4 months after May 20, 1996, the Director of the Centers for Disease Control and Prevention shall develop and implement a system to be used by States to comply with the requirements of subsections (a) and (b). SUBPART III—CERTAIN PARTNER NOTIFICATION PROGRAMS

§300ff–38. Grants for partner notification programs

(a) In general

In the case of States whose laws or regulations are in accordance with subsection (b), the Secretary, subject to subsection (c)(2), may make grants to the States for carrying out programs to provide partner counseling and referral services.

(b) Description of compliant State programs

For purposes of subsection (a), the laws or regulations of a State are in accordance with this subsection if under such laws or regulations (including programs carried out pursuant to the discretion of State officials) the following policies are in effect:

(1) The State requires that the public health officer of the State carry out a program of partner notification to inform partners of individuals with HIV/AIDS that the partners may have been exposed to the disease.

(2)(A) In the case of a health entity that provides for the performance on an individual of a test for HIV/AIDS, or that treats the individual for the disease, the State requires, subject to subparagraph (B), that the entity confidentially report the positive test results to the State public health officer in a manner recommended and approved by the Director of the Centers for Disease Control and Prevention, together with such additional information as may be necessary for carrying out such program.

(B) The State may provide that the requirement of subparagraph (A) does not apply to the testing of an individual for HIV/AIDS if the individual underwent the testing through a program designed to perform the test and provide the results to the individual without the individual disclosing his or her identity to the program. This subparagraph may not be construed as affecting the requirement of subparagraph (A) with respect to a health entity that treats an individual for HIV/AIDS.

(3) The program under paragraph (1) is carried out in accordance with the following:

(A) Partners are provided with an appropriate opportunity to learn that the partners have been exposed to HIV/AIDS, subject to subparagraph (B).

(B) The State does not inform partners of the identity of the infected individuals involved.

(C) Counseling and testing for HIV/AIDS are made available to the partners and to infected individuals, and such counseling includes information on modes of transmission for the disease, including information on prenatal and perinatal transmission and preventing transmission.

(D) Counseling of infected individuals and their partners includes the provision of information regarding therapeutic measures for preventing and treating the deterioration of the immune system and conditions arising from the disease, and the provision of other prevention-related information.

(E) Referrals for appropriate services are provided to partners and infected individuals, including referrals for support services and legal aid.

(F) Notifications under subparagraph (A) are provided in person, unless doing so is an unreasonable burden on the State.

(G) There is no criminal or civil penalty on, or civil liability for, an infected individual if the individual chooses not to identify the partners of the individual, or the individual does not otherwise cooperate with such program.

(H) The failure of the State to notify partners is not a basis for the civil liability of any health entity who under the program reported to the State the identity of the infected individual involved.

(I) The State provides that the provisions of the program may not be construed as prohibiting the State from providing a notification under subparagraph (A) without the consent of the infected individual involved.

(4) The State annually reports to the Director of the Centers for Disease Control and Prevention the number of individuals from whom the names of partners have been sought under the program under paragraph (1), the number of such individuals who provided the names of partners, and the number of partners so named who were notified under the program.

(5) The State cooperates with such Director in carrying out a national program of partner notification, including the sharing of information between the public health officers of the States.

(c) Reporting system for cases of HIV/AIDS; preference in making grants

In making grants under subsection (a), the Secretary shall give preference to States whose reporting systems for cases of HIV/AIDS produce data on such cases that is sufficiently accurate and reliable for use for purposes of section 300ff-28(a)(2)(D)(i) of this title.

(d) Authorization of appropriations

For the purpose of carrying out this section, there is authorized to be appropriated \$10,000,000 for each of the fiscal years 2007 through 2009.

§300gg–2. Guaranteed renewability of coverage

(a) In general

Except as provided in this section, if a health insurance issuer offers health insurance coverage in the individual or group market, the issuer must renew or continue in force such coverage at the option of the plan sponsor or the individual, as applicable.

(b) General exceptions

A health insurance issuer may nonrenew or discontinue health insurance coverage offered in connection with a health insurance coverage offered in the group or individual market based only on one or more of the following:

(1) Nonpayment of premiums

The plan sponsor, or individual, as applicable, has failed to pay premiums or contributions in accordance with the terms of the health insurance coverage or the issuer has not received timely premium payments.

(2) Fraud

The plan sponsor, or individual, as applicable, has performed an act or practice that constitutes fraud or made an intentional misrepresentation of material fact under the terms of the coverage.

(3) Violation of participation or contribution rates

In the case of a group health plan, the plan sponsor has failed to comply with a material plan provision relating to employer contribution or group participation rules, pursuant to applicable State law.

(4) Termination of coverage

The issuer is ceasing to offer coverage in such market in accordance with subsection (c) and applicable State law.

(5) Movement outside service area

In the case of a health insurance issuer that offers health insurance coverage in the market through a network plan, there is no longer any enrollee in connection with such plan who lives, resides, or works in the service area of the issuer (or in the area for which the issuer is authorized to do business) and, in the case of the small group market, the issuer would deny enrollment with respect to such plan under section 2711(c)(1)(A).¹

(6) Association membership ceases

In the case of health insurance coverage that is made available in the small or large group market (as the case may be) only through one or more bona fide associations, the membership of an employer in the association (on the basis of which the coverage is provided) ceases but only if such coverage is terminated under this paragraph uniformly without regard to any health status-related factor relating to any covered individual.

(c) Requirements for uniform termination of coverage

(1) Particular type of coverage not offered

In any case in which an issuer decides to discontinue offering a particular type of group or individual health insurance coverage, coverage of such type may be discontinued by the issuer in accordance with applicable State law in such market only if—

(A) the issuer provides notice to each plan sponsor or individual, as applicable, provided coverage of this type in such market (and participants and beneficiaries covered under such coverage) of such discontinuation at least 90 days prior to the date of the discontinuation of such coverage;

(B) the issuer offers to each plan sponsor or individual, as applicable, provided coverage of this type in such market, the option to purchase all (or, in the case of the large group market, any) other health insurance coverage currently being offered by the issuer to a group health plan or individual health insurance coverage in such market; and

(C) in exercising the option to discontinue coverage of this type and in offering the option of coverage under subparagraph (B), the issuer acts uniformly without regard to the claims experience of those sponsors or individuals, as applicable, or any health status-related factor relating to any participants or beneficiaries covered or new participants or beneficiaries who may become eligible for such coverage.

(2) Discontinuance of all coverage

(A) In general

In any case in which a health insurance issuer elects to discontinue offering all health insurance coverage in the individual or group market, or all markets, in a State, health insurance

coverage may be discontinued by the issuer only in accordance with applicable State law and if—

(i) the issuer provides notice to the applicable State authority and to each plan sponsor or individual, as applicable,² (and participants and beneficiaries covered under such coverage) of such discontinuation at least 180 days prior to the date of the discontinuation of such coverage; and

(ii) all health insurance issued or delivered for issuance in the State in such market (or markets) are discontinued and coverage under such health insurance coverage in such market (or markets) is not renewed.

(B) Prohibition on market reentry

In the case of a discontinuation under subparagraph (A) in a market, the issuer may not provide for the issuance of any health insurance coverage in the market and State involved during the 5-year period beginning on the date of the discontinuation of the last health insurance coverage not so renewed.

(d) Exception for uniform modification of coverage

At the time of coverage renewal, a health insurance issuer may modify the health insurance coverage for a product offered to a group health plan—

(1) in the large group market; or

(2) in the small group market if, for coverage that is available in such market other than only through one or more bona fide associations, such modification is consistent with State law and effective on a uniform basis among group health plans with that product.

(e) Application to coverage offered only through associations

In applying this section in the case of health insurance coverage that is made available by a health insurance issuer in the small or large group market to employers only through one or more associations, a reference to "plan sponsor" is deemed, with respect to coverage provided to an employer member of the association, to include a reference to such employer.

§300gg–3. Prohibition of preexisting condition exclusions or other discrimination based on health status

(a) In general

A group health plan and a health insurance issuer offering group or individual health insurance coverage may not impose any preexisting condition exclusion with respect to such plan or coverage.

(b) Definitions

For purposes of this part—

(1) Preexisting condition exclusion

(A) In general

The term "preexisting condition exclusion" means, with respect to coverage, a limitation or exclusion of benefits relating to a condition based on the fact that the condition was present before the date of enrollment for such coverage, whether or not any medical advice, diagnosis, care, or treatment was recommended or received before such date.

(B) Treatment of genetic information

Genetic information shall not be treated as a condition described in subsection (a)(1) ¹ in the absence of a diagnosis of the condition related to such information.

(2) Enrollment date

The term "enrollment date" means, with respect to an individual covered under a group health plan or health insurance coverage, the date of enrollment of the individual in the plan or coverage

or, if earlier, the first day of the waiting period for such enrollment.

(3) Late enrollee

The term "late enrollee" means, with respect to coverage under a group health plan, a participant or beneficiary who enrolls under the plan other than during—

- (A) the first period in which the individual is eligible to enroll under the plan, or
- (B) a special enrollment period under subsection (f).

(4) Waiting period

The term "waiting period" means, with respect to a group health plan and an individual who is a potential participant or beneficiary in the plan, the period that must pass with respect to the individual before the individual is eligible to be covered for benefits under the terms of the plan.

(c) Rules relating to crediting previous coverage

(1) "Creditable coverage" defined

For purposes of this subchapter, the term "creditable coverage" means, with respect to an individual, coverage of the individual under any of the following:

- (A) A group health plan.
- (B) Health insurance coverage.
- (C) Part A or part B of title XVIII of the Social Security Act [42 U.S.C. 1395c et seq., 1395j et seq.].
- (D) Title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], other than coverage consisting solely of benefits under section 1928 [42 U.S.C. 1396s].
- (E) Chapter 55 of title 10.
- (F) A medical care program of the Indian Health Service or of a tribal organization.

- (H) A health plan offered under chapter 89 of title 5.
- (I) A public health plan (as defined in regulations).
- (J) A health benefit plan under section 2504(e) of title 22.

Such term does not include coverage consisting solely of coverage of excepted benefits (as defined in section 300gg-91(c) of this title).

(2) Not counting periods before significant breaks in coverage

(A) In general

A period of creditable coverage shall not be counted, with respect to enrollment of an individual under a group or individual health plan, if, after such period and before the enrollment date, there was a 63-day period during all of which the individual was not covered under any creditable coverage.

(B) Waiting period not treated as a break in coverage

For purposes of subparagraph (A) and subsection (d)(4), any period that an individual is in a waiting period for any coverage under a group or individual health plan (or for group health insurance coverage) or is in an affiliation period (as defined in subsection (g)(2)) shall not be taken into account in determining the continuous period under subparagraph (A).

(C) TAA-eligible individuals

In the case of plan years beginning before January 1, 2014—

(i) TAA pre-certification period rule

In the case of a TAA-eligible individual, the period beginning on the date the individual has a TAA-related loss of coverage and ending on the date that is 7 days after the date of the issuance by the Secretary (or by any person or entity designated by the Secretary) of a

qualified health insurance costs credit eligibility certificate for such individual for purposes of section 7527 of title 26 shall not be taken into account in determining the continuous period under subparagraph (A).

(ii) Definitions

The terms "TAA-eligible individual" and "TAA-related loss of coverage" have the meanings given such terms in section 300bb-5(b)(4) of this title.

(3) Method of crediting coverage

(A) Standard method

Except as otherwise provided under subparagraph (B), for purposes of applying subsection (a)(3),¹ a group health plan, and a health insurance issuer offering group or individual health insurance coverage, shall count a period of creditable coverage without regard to the specific benefits covered during the period.

(B) Election of alternative method

A group health plan, or a health insurance issuer offering group or individual health insurance, may elect to apply subsection (a)(3)¹ based on coverage of benefits within each of several classes or categories of benefits specified in regulations rather than as provided under subparagraph (A). Such election shall be made on a uniform basis for all participants and beneficiaries. Under such election a group health plan or issuer shall count a period of creditable coverage with respect to any class or category of benefits if any level of benefits is covered within such class or category.

(C) Plan notice

In the case of an election with respect to a group health plan under subparagraph (B) (whether or not health insurance coverage is provided in connection with such plan), the plan shall—

- (i) prominently state in any disclosure statements concerning the plan, and state to each enrollee at the time of enrollment under the plan, that the plan has made such election, and
- (ii) include in such statements a description of the effect of this election.

(D) Issuer notice

In the case of an election under subparagraph (B) with respect to health insurance coverage offered by an issuer in the individual or group group² market, the issuer—

- (i) shall prominently state in any disclosure statements concerning the coverage, and to each employer at the time of the offer or sale of the coverage, that the issuer has made such election, and
- (ii) shall include in such statements a description of the effect of such election.

(4) Establishment of period

Periods of creditable coverage with respect to an individual shall be established through presentation of certifications described in subsection (e) or in such other manner as may be specified in regulations.

(d) Exceptions

(1) Exclusion not applicable to certain newborns

Subject to paragraph (4), a group health plan, and a health insurance issuer offering group or individual health insurance coverage, may not impose any preexisting condition exclusion in the case of an individual who, as of the last day of the 30-day period beginning with the date of birth, is covered under creditable coverage.

(2) Exclusion not applicable to certain adopted children

Subject to paragraph (4), a group health plan, and a health insurance issuer offering group or individual health insurance coverage, may not impose any preexisting condition exclusion in the

case of a child who is adopted or placed for adoption before attaining 18 years of age and who, as of the last day of the 30-day period beginning on the date of the adoption or placement for adoption, is covered under creditable coverage. The previous sentence shall not apply to coverage before the date of such adoption or placement for adoption.

(3) Exclusion not applicable to pregnancy

A group health plan, and health insurance issuer offering group or individual health insurance coverage, may not impose any preexisting condition exclusion relating to pregnancy as a preexisting condition.

(4) Loss if break in coverage

Paragraphs (1) and (2) shall no longer apply to an individual after the end of the first 63-day period during all of which the individual was not covered under any creditable coverage.

(e) Certifications and disclosure of coverage

(1) Requirement for certification of period of creditable coverage

(A) In general

A group health plan, and a health insurance issuer offering group or individual health insurance coverage, shall provide the certification described in subparagraph (B)—

- (i) at the time an individual ceases to be covered under the plan or otherwise becomes covered under a COBRA continuation provision,
- (ii) in the case of an individual becoming covered under such a provision, at the time the individual ceases to be covered under such provision, and
- (iii) on the request on behalf of an individual made not later than 24 months after the date of cessation of the coverage described in clause (i) or (ii), whichever is later.

The certification under clause (i) may be provided, to the extent practicable, at a time consistent with notices required under any applicable COBRA continuation provision.

(B) Certification

The certification described in this subparagraph is a written certification of—

- (i) the period of creditable coverage of the individual under such plan and the coverage (if any) under such COBRA continuation provision, and
- (ii) the waiting period (if any) (and affiliation period, if applicable) imposed with respect to the individual for any coverage under such plan.

(C) Issuer compliance

To the extent that medical care under a group health plan consists of group health insurance coverage, the plan is deemed to have satisfied the certification requirement under this paragraph if the health insurance issuer offering the coverage provides for such certification in accordance with this paragraph.

(2) Disclosure of information on previous benefits

In the case of an election described in subsection (c)(3)(B) by a group health plan or health insurance issuer, if the plan or issuer enrolls an individual for coverage under the plan and the individual provides a certification of coverage of the individual under paragraph (1)—

- (A) upon request of such plan or issuer, the entity which issued the certification provided by the individual shall promptly disclose to such requesting plan or issuer information on coverage of classes and categories of health benefits available under such entity's plan or coverage, and
- (B) such entity may charge the requesting plan or issuer for the reasonable cost of disclosing such information.

(3) Regulations

The Secretary shall establish rules to prevent an entity's failure to provide information under paragraph (1) or (2) with respect to previous coverage of an individual from adversely affecting

any subsequent coverage of the individual under another group health plan or health insurance coverage.

(f) Special enrollment periods

(1) Individuals losing other coverage

A group health plan, and a health insurance issuer offering group health insurance coverage in connection with a group health plan, shall permit an employee who is eligible, but not enrolled, for coverage under the terms of the plan (or a dependent of such an employee if the dependent is eligible, but not enrolled, for coverage under such terms) to enroll for coverage under the terms of the plan if each of the following conditions is met:

(A) The employee or dependent was covered under a group health plan or had health insurance coverage at the time coverage was previously offered to the employee or dependent.

(B) The employee stated in writing at such time that coverage under a group health plan or health insurance coverage was the reason for declining enrollment, but only if the plan sponsor or issuer (if applicable) required such a statement at such time and provided the employee with notice of such requirement (and the consequences of such requirement) at such time.

(C) The employee's or dependent's coverage described in subparagraph (A)—

(i) was under a COBRA continuation provision and the coverage under such provision was exhausted; or

(ii) was not under such a provision and either the coverage was terminated as a result of loss of eligibility for the coverage (including as a result of legal separation, divorce, death, termination of employment, or reduction in the number of hours of employment) or employer contributions toward such coverage were terminated.

(D) Under the terms of the plan, the employee requests such enrollment not later than 30 days after the date of exhaustion of coverage described in subparagraph (C)(i) or termination of coverage or employer contribution described in subparagraph (C)(ii).

(2) For dependent beneficiaries

(A) In general

If—

(i) a group health plan makes coverage available with respect to a dependent of an individual,

(ii) the individual is a participant under the plan (or has met any waiting period applicable to becoming a participant under the plan and is eligible to be enrolled under the plan but for a failure to enroll during a previous enrollment period), and

(iii) a person becomes such a dependent of the individual through marriage, birth, or adoption or placement for adoption,

the group health plan shall provide for a dependent special enrollment period described in subparagraph (B) during which the person (or, if not otherwise enrolled, the individual) may be enrolled under the plan as a dependent of the individual, and in the case of the birth or adoption of a child, the spouse of the individual may be enrolled as a dependent of the individual if such spouse is otherwise eligible for coverage.

(B) Dependent special enrollment period

A dependent special enrollment period under this subparagraph shall be a period of not less than 30 days and shall begin on the later of—

(i) the date dependent coverage is made available, or

(ii) the date of the marriage, birth, or adoption or placement for adoption (as the case may be) described in subparagraph (A)(iii).

(C) No waiting period

If an individual seeks to enroll a dependent during the first 30 days of such a dependent

special enrollment period, the coverage of the dependent shall become effective—

- (i) in the case of marriage, not later than the first day of the first month beginning after the date the completed request for enrollment is received;
- (ii) in the case of a dependent's birth, as of the date of such birth; or
- (iii) in the case of a dependent's adoption or placement for adoption, the date of such adoption or placement for adoption.

(3) Special rules for application in case of Medicaid and CHIP

(A) In general

A group health plan, and a health insurance issuer offering group health insurance coverage in connection with a group health plan, shall permit an employee who is eligible, but not enrolled, for coverage under the terms of the plan (or a dependent of such an employee if the dependent is eligible, but not enrolled, for coverage under such terms) to enroll for coverage under the terms of the plan if either of the following conditions is met:

(i) Termination of Medicaid or CHIP coverage

The employee or dependent is covered under a Medicaid plan under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] or under a State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.] and coverage of the employee or dependent under such a plan is terminated as a result of loss of eligibility for such coverage and the employee requests coverage under the group health plan (or health insurance coverage) not later than 60 days after the date of termination of such coverage.

(ii) Eligibility for employment assistance under Medicaid or CHIP

The employee or dependent becomes eligible for assistance, with respect to coverage under the group health plan or health insurance coverage, under such Medicaid plan or State child health plan (including under any waiver or demonstration project conducted under or in relation to such a plan), if the employee requests coverage under the group health plan or health insurance coverage not later than 60 days after the date the employee or dependent is determined to be eligible for such assistance.

(B) Coordination with Medicaid and CHIP

(i) Outreach to employees regarding availability of Medicaid and CHIP coverage

(I) In general

Each employer that maintains a group health plan in a State that provides medical assistance under a State Medicaid plan under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.], or child health assistance under a State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.], in the form of premium assistance for the purchase of coverage under a group health plan, shall provide to each employee a written notice informing the employee of potential opportunities then currently available in the State in which the employee resides for premium assistance under such plans for health coverage of the employee or the employee's dependents. For purposes of compliance with this subclause, the employer may use any State-specific model notice developed in accordance with section 1181(f)(3)(B)(i)(II) of title 29.

(II) Option to provide concurrent with provision of plan materials to employee

An employer may provide the model notice applicable to the State in which an employee resides concurrent with the furnishing of materials notifying the employee of health plan eligibility, concurrent with materials provided to the employee in connection with an open season or election process conducted under the plan, or concurrent with the furnishing of the summary plan description as provided in section 1024(b) of title 29.

(ii) Disclosure about group health plan benefits to States for Medicaid and CHIP eligible individuals

In the case of an enrollee in a group health plan who is covered under a Medicaid plan of a State under title XIX of the Social Security Act [42 U.S.C. 1396 et seq.] or under a State child health plan under title XXI of such Act [42 U.S.C. 1397aa et seq.], the plan administrator of the group health plan shall disclose to the State, upon request, information about the benefits available under the group health plan in sufficient specificity, as determined under regulations of the Secretary of Health and Human Services in consultation with the Secretary that require use of the model coverage coordination disclosure form developed under section 311(b)(1)(C) of the Children's Health Insurance ³ Reauthorization Act of 2009, so as to permit the State to make a determination (under paragraph (2)(B), (3), or (10) of section 2105(c) of the Social Security Act [42 U.S.C. 1397ee(c)(2)(B), (3), (10)] or otherwise) concerning the cost-effectiveness of the State providing medical or child health assistance through premium assistance for the purchase of coverage under such group health plan and in order for the State to provide supplemental benefits required under paragraph (10)(E) of such section or other authority.

(g) Use of affiliation period by HMOs as alternative to preexisting condition exclusion

(1) In general

A health maintenance organization which offers health insurance coverage in connection with a group health plan and which does not impose any preexisting condition exclusion allowed under subsection (a) with respect to any particular coverage option may impose an affiliation period for such coverage option, but only if—

- (A) such period is applied uniformly without regard to any health status-related factors; and
- (B) such period does not exceed 2 months (or 3 months in the case of a late enrollee).

(2) Affiliation period

(A) "Affiliation period" defined

§300gg–4. Prohibiting discrimination against individual participants and beneficiaries based on health status

(a) In general

A group health plan and a health insurance issuer offering group or individual health insurance coverage may not establish rules for eligibility (including continued eligibility) of any individual to enroll under the terms of the plan or coverage based on any of the following health status-related factors in relation to the individual or a dependent of the individual:

- (1) Health status.
- (2) Medical condition (including both physical and mental illnesses).
- (3) Claims experience.
- (4) Receipt of health care.
- (5) Medical history.
- (6) Genetic information.
- (7) Evidence of insurability (including conditions arising out of acts of domestic violence).
- (8) Disability.
- (9) Any other health status-related factor determined appropriate by the Secretary.

(b) In premium contributions

(1) In general

A group health plan, and a health insurance issuer offering group or individual health insurance coverage, may not require any individual (as a condition of enrollment or continued enrollment under the plan) to pay a premium or contribution which is greater than such premium or contribution for a similarly situated individual enrolled in the plan on the basis of any health status-related factor in relation to the individual or to an individual enrolled under the plan as a dependent of the individual.

(2) Construction

Nothing in paragraph (1) shall be construed—

(A) to restrict the amount that an employer or individual may be charged for coverage under a group health plan except as provided in paragraph (3) or individual health coverage, as the case may be; or

(B) to prevent a group health plan, and a health insurance issuer offering group health insurance coverage, from establishing premium discounts or rebates or modifying otherwise applicable copayments or deductibles in return for adherence to programs of health promotion and disease prevention.

(3) No group-based discrimination on basis of genetic information

(A) In general

For purposes of this section, a group health plan, and health insurance issuer offering group health insurance coverage in connection with a group health plan, may not adjust premium or contribution amounts for the group covered under such plan on the basis of genetic information.

(B) Rule of construction

Nothing in subparagraph (A) or in paragraphs (1) and (2) of subsection (d) shall be construed to limit the ability of a health insurance issuer offering group or individual health insurance coverage to increase the premium for an employer based on the manifestation of a disease or disorder of an individual who is enrolled in the plan. In such case, the manifestation of a disease or disorder in one individual cannot also be used as genetic information about other group members and to further increase the premium for the employer.

(c) Genetic testing

(1) Limitation on requesting or requiring genetic testing

A group health plan, and a health insurance issuer offering health insurance coverage in connection with a group health plan, shall not request or require an individual or a family member of such individual to undergo a genetic test.

(2) Rule of construction

Paragraph (1) shall not be construed to limit the authority of a health care professional who is providing health care services to an individual to request that such individual undergo a genetic test.

(3) Rule of construction regarding payment

(A) In general

Nothing in paragraph (1) shall be construed to preclude a group health plan, or a health insurance issuer offering health insurance coverage in connection with a group health plan, from obtaining and using the results of a genetic test in making a determination regarding payment (as such term is defined for the purposes of applying the regulations promulgated by the Secretary under part C of title XI of the Social Security Act [42 U.S.C. 1320d et seq.] and section 264 of the Health Insurance Portability and Accountability Act of 1996, as may be revised from time to time) consistent with subsection (a).

(B) Limitation

For purposes of subparagraph (A), a group health plan, or a health insurance issuer offering health insurance coverage in connection with a group health plan, may request only the minimum amount of information necessary to accomplish the intended purpose.

(4) Research exception

Notwithstanding paragraph (1), a group health plan, or a health insurance issuer offering health insurance coverage in connection with a group health plan, may request, but not require, that a participant or beneficiary undergo a genetic test if each of the following conditions is met:

(A) The request is made pursuant to research that complies with part 46 of title 45, Code of Federal Regulations, or equivalent Federal regulations, and any applicable State or local law or regulations for the protection of human subjects in research.

(B) The plan or issuer clearly indicates to each participant or beneficiary, or in the case of a minor child, to the legal guardian of such beneficiary, to whom the request is made that—

(i) compliance with the request is voluntary; and

(ii) non-compliance will have no effect on enrollment status or premium or contribution amounts.

(C) No genetic information collected or acquired under this paragraph shall be used for underwriting purposes.

(D) The plan or issuer notifies the Secretary in writing that the plan or issuer is conducting activities pursuant to the exception provided for under this paragraph, including a description of the activities conducted.

(E) The plan or issuer complies with such other conditions as the Secretary may by regulation require for activities conducted under this paragraph.

(d) Prohibition on collection of genetic information

(1) In general

A group health plan, and a health insurance issuer offering health insurance coverage in connection with a group health plan, shall not request, require, or purchase genetic information for underwriting purposes (as defined in section 300gg–91 of this title).

(2) Prohibition on collection of genetic information prior to enrollment

A group health plan, and a health insurance issuer offering health insurance coverage in connection with a group health plan, shall not request, require, or purchase genetic information with respect to any individual prior to such individual's enrollment under the plan or coverage in connection with such enrollment.

(3) Incidental collection

If a group health plan, or a health insurance issuer offering health insurance coverage in connection with a group health plan, obtains genetic information incidental to the requesting, requiring, or purchasing of other information concerning any individual, such request, requirement, or purchase shall not be considered a violation of paragraph (2) if such request, requirement, or purchase is not in violation of paragraph (1).

(e) Application to all plans

The provisions of subsections (a)(6), (b)(3), (c), and (d) and subsection (b)(1) and section 300gg–3 of this title with respect to genetic information, shall apply to group health plans and health insurance issuers without regard to section 300gg–21(a)² of this title.

(f) Genetic information of a fetus or embryo

Any reference in this part to genetic information concerning an individual or family member of an individual shall—

(1) with respect to such an individual or family member of an individual who is a pregnant woman, include genetic information of any fetus carried by such pregnant woman; and

(2) with respect to an individual or family member utilizing an assisted reproductive technology, include genetic information of any embryo legally held by the individual or family member.

(j)³ Programs of health promotion or disease prevention

(1) General provisions

(A) General rule

For purposes of subsection (b)(2)(B), a program of health promotion or disease prevention

(referred to in this subsection as a "wellness program") shall be a program offered by an employer that is designed to promote health or prevent disease that meets the applicable requirements of this subsection.

(B) No conditions based on health status factor

If none of the conditions for obtaining a premium discount or rebate or other reward for participation in a wellness program is based on an individual satisfying a standard that is related to a health status factor, such wellness program shall not violate this section if participation in the program is made available to all similarly situated individuals and the requirements of paragraph (2) are complied with.

(C) Conditions based on health status factor

If any of the conditions for obtaining a premium discount or rebate or other reward for participation in a wellness program is based on an individual satisfying a standard that is related to a health status factor, such wellness program shall not violate this section if the requirements of paragraph (3) are complied with.

(2) Wellness programs not subject to requirements

If none of the conditions for obtaining a premium discount or rebate or other reward under a wellness program as described in paragraph (1)(B) are based on an individual satisfying a standard that is related to a health status factor (or if such a wellness program does not provide such a reward), the wellness program shall not violate this section if participation in the program is made available to all similarly situated individuals. The following programs shall not have to comply with the requirements of paragraph (3) if participation in the program is made available to all similarly situated individuals:

(A) A program that reimburses all or part of the cost for memberships in a fitness center.

(B) A diagnostic testing program that provides a reward for participation and does not base any part of the reward on outcomes.

(C) A program that encourages preventive care related to a health condition through the waiver of the copayment or deductible requirement under group ¹ health plan for the costs of certain items or services related to a health condition (such as prenatal care or well-baby visits).

(D) A program that reimburses individuals for the costs of smoking cessation programs without regard to whether the individual quits smoking.

(E) A program that provides a reward to individuals for attending a periodic health education seminar.

(3) Wellness programs subject to requirements

If any of the conditions for obtaining a premium discount, rebate, or reward under a wellness program as described in paragraph (1)(C) is based on an individual satisfying a standard that is related to a health status factor, the wellness program shall not violate this section if the following requirements are complied with:

(A) The reward for the wellness program, together with the reward for other wellness programs with respect to the plan that requires satisfaction of a standard related to a health status factor, shall not exceed 30 percent of the cost of employee-only coverage under the plan. If, in addition to employees or individuals, any class of dependents (such as spouses or spouses and dependent children) may participate fully in the wellness program, such reward shall not exceed 30 percent of the cost of the coverage in which an employee or individual and any dependents are enrolled. For purposes of this paragraph, the cost of coverage shall be determined based on the total amount of employer and employee contributions for the benefit package under which the employee is (or the employee and any dependents are) receiving coverage. A reward may be in the form of a discount or rebate of a premium or contribution, a waiver of all or part of a cost-sharing mechanism (such as deductibles, copayments, or coinsurance), the absence of a surcharge, or the value of a benefit that would otherwise not be

provided under the plan. The Secretaries of Labor, Health and Human Services, and the Treasury may increase the reward available under this subparagraph to up to 50 percent of the cost of coverage if the Secretaries determine that such an increase is appropriate.

(B) The wellness program shall be reasonably designed to promote health or prevent disease. A program complies with the preceding sentence if the program has a reasonable chance of improving the health of, or preventing disease in, participating individuals and it is not overly burdensome, is not a subterfuge for discriminating based on a health status factor, and is not highly suspect in the method chosen to promote health or prevent disease.

(C) The plan shall give individuals eligible for the program the opportunity to qualify for the reward under the program at least once each year.

(D) The full reward under the wellness program shall be made available to all similarly situated individuals. For such purpose, among other things:

(i) The reward is not available to all similarly situated individuals for a period unless the wellness program allows—

(I) for a reasonable alternative standard (or waiver of the otherwise applicable standard) for obtaining the reward for any individual for whom, for that period, it is unreasonably difficult due to a medical condition to satisfy the otherwise applicable standard; and

(II) for a reasonable alternative standard (or waiver of the otherwise applicable standard) for obtaining the reward for any individual for whom, for that period, it is medically inadvisable to attempt to satisfy the otherwise applicable standard.

(ii) If reasonable under the circumstances, the plan or issuer may seek verification, such as a statement from an individual's physician, that a health status factor makes it unreasonably difficult or medically inadvisable for the individual to satisfy or attempt to satisfy the otherwise applicable standard.

(E) The plan or issuer involved shall disclose in all plan materials describing the terms of the wellness program the availability of a reasonable alternative standard (or the possibility of waiver of the otherwise applicable standard) required under subparagraph (D). If plan materials disclose that such a program is available, without describing its terms, the disclosure under this subparagraph shall not be required.

(k) Existing programs

Nothing in this section shall prohibit a program of health promotion or disease prevention that was established prior to March 23, 2010, and applied with all applicable regulations, and that is operating on such date, from continuing to be carried out for as long as such regulations remain in effect.

(l) Wellness program demonstration project

(1) In general

Not later than July 1, 2014, the Secretary, in consultation with the Secretary of the Treasury and the Secretary of Labor, shall establish a 10-State demonstration project under which participating States shall apply the provisions of subsection (j) to programs of health promotion offered by a health insurance issuer that offers health insurance coverage in the individual market in such State.

(2) Expansion of demonstration project

If the Secretary, in consultation with the Secretary of the Treasury and the Secretary of Labor, determines that the demonstration project described in paragraph (1) is effective, such Secretaries may, beginning on July 1, 2017 expand such demonstration project to include additional participating States.

(3) Requirements

(A) Maintenance of coverage

The Secretary, in consultation with the Secretary of the Treasury and the Secretary of Labor, shall not approve the participation of a State in the demonstration project under this section

unless the Secretaries determine that the State's project is designed in a manner that—

(i) will not result in any decrease in coverage; and

(ii) will not increase the cost to the Federal Government in providing credits under section 36B of title 26 or cost-sharing assistance under section 18071 of this title.

(B) Other requirements

States that participate in the demonstration project under this subsection—

(i) may permit premium discounts or rebates or the modification of otherwise applicable copayments or deductibles for adherence to, or participation in, a reasonably designed program of health promotion and disease prevention;

(ii) shall ensure that requirements of consumer protection are met in programs of health promotion in the individual market;

(iii) shall require verification from health insurance issuers that offer health insurance coverage in the individual market of such State that premium discounts—

(I) do not create undue burdens for individuals insured in the individual market;

(II) do not lead to cost shifting; and

(III) are not a subterfuge for discrimination;

(iv) shall ensure that consumer data is protected in accordance with the requirements of section 264(c) of the Health Insurance Portability and Accountability Act of 1996 (42 U.S.C. 1320d–2 note); and

(v) shall ensure and demonstrate to the satisfaction of the Secretary that the discounts or other rewards provided under the project reflect the expected level of participation in the wellness program involved and the anticipated effect the program will have on utilization or medical claim costs.

(m) Report

(1) In general

Not later than 3 years after March 23, 2010, the Secretary, in consultation with the Secretary of the Treasury and the Secretary of Labor, shall submit a report to the appropriate committees of Congress concerning—

(A) the effectiveness of wellness programs (as defined in subsection (j)) in promoting health and preventing disease;

(B) the impact of such wellness programs on the access to care and affordability of coverage for participants and non-participants of such programs;

(C) the impact of premium-based and cost-sharing incentives on participant behavior and the role of such programs in changing behavior; and

(D) the effectiveness of different types of rewards.

(2) Data collection

In preparing the report described in paragraph (1), the Secretaries shall gather relevant information from employers who provide employees with access to wellness programs, including State and Federal agencies.

(n) Regulations

Nothing in this section shall be construed as prohibiting the Secretaries of Labor, Health and Human Services, or the Treasury from promulgating regulations in connection with this section.

(July 1, 1944, ch. 373, title XXVII, §2705, as added and amended Pub. L. 111–148, title I, §1201(3), (4), Mar. 23, 2010, 124 Stat. 154, 156.)

(a) Providers

A group health plan and a health insurance issuer offering group or individual health insurance

coverage shall not discriminate with respect to participation under the plan or coverage against any health care provider who is acting within the scope of that provider's license or certification under applicable State law. This section shall not require that a group health plan or health insurance issuer contract with any health care provider willing to abide by the terms and conditions for participation established by the plan or issuer. Nothing in this section shall be construed as preventing a group health plan, a health insurance issuer, or the Secretary from establishing varying reimbursement rates based on quality or performance measures.

§300gg–18. Bringing down the cost of health care coverage

(a) Clear accounting for costs

A health insurance issuer offering group or individual health insurance coverage (including a grandfathered health plan) shall, with respect to each plan year, submit to the Secretary a report concerning the ratio of the incurred loss (or incurred claims) plus the loss adjustment expense (or change in contract reserves) to earned premiums. Such report shall include the percentage of total premium revenue, after accounting for collections or receipts for risk adjustment and risk corridors and payments of reinsurance, that such coverage expends—

- (1) on reimbursement for clinical services provided to enrollees under such coverage;
- (2) for activities that improve health care quality; and
- (3) on all other non-claims costs, including an explanation of the nature of such costs, and excluding Federal and State taxes and licensing or regulatory fees.

The Secretary shall make reports received under this section available to the public on the Internet website of the Department of Health and Human Services.

(b) Ensuring that consumers receive value for their premium payments

(1) Requirement to provide value for premium payments

(A) Requirement

Beginning not later than January 1, 2011, a health insurance issuer offering group or

individual health insurance coverage (including a grandfathered health plan) shall, with respect to each plan year, provide an annual rebate to each enrollee under such coverage, on a pro rata basis, if the ratio of the amount of premium revenue expended by the issuer on costs described in paragraphs (1) and (2) of subsection (a) to the total amount of premium revenue (excluding Federal and State taxes and licensing or regulatory fees and after accounting for payments or receipts for risk adjustment, risk corridors, and reinsurance under sections 18061, 18062, and 18063 of this title) for the plan year (except as provided in subparagraph (B)(ii)), is less than—

- (i) with respect to a health insurance issuer offering coverage in the large group market, 85 percent, or such higher percentage as a State may by regulation determine; or
- (ii) with respect to a health insurance issuer offering coverage in the small group market or in the individual market, 80 percent, or such higher percentage as a State may by regulation determine, except that the Secretary may adjust such percentage with respect to a State if the Secretary determines that the application of such 80 percent may destabilize the individual market in such State.

(B) Rebate amount

(i) Calculation of amount

The total amount of an annual rebate required under this paragraph shall be in an amount equal to the product of—

- (I) the amount by which the percentage described in clause (i) or (ii) of subparagraph (A) exceeds the ratio described in such subparagraph; and
- (II) the total amount of premium revenue (excluding Federal and State taxes and licensing or regulatory fees and after accounting for payments or receipts for risk adjustment, risk corridors, and reinsurance under sections 18061, 18062, and 18063 of this title) for such plan year.

(ii) Calculation based on average ratio

Beginning on January 1, 2014, the determination made under subparagraph (A) for the year involved shall be based on the averages of the premiums expended on the costs described in such subparagraph and total premium revenue for each of the previous 3 years for the plan.

(2) Consideration in setting percentages

In determining the percentages under paragraph (1), a State shall seek to ensure adequate participation by health insurance issuers, competition in the health insurance market in the State, and value for consumers so that premiums are used for clinical services and quality improvements.

(3) Enforcement

The Secretary shall promulgate regulations for enforcing the provisions of this section and may provide for appropriate penalties.

(c) Definitions

Not later than December 31, 2010, and subject to the certification of the Secretary, the National Association of Insurance Commissioners shall establish uniform definitions of the activities reported under subsection (a) and standardized methodologies for calculating measures of such activities, including definitions of which activities, and in what regard such activities, constitute activities described in subsection (a)(2). Such methodologies shall be designed to take into account the special circumstances of smaller plans, different types of plans, and newer plans.

(d) Adjustments

The Secretary may adjust the rates described in subsection (b) if the Secretary determines appropriate on account of the volatility of the individual market due to the establishment of State Exchanges.

(e) Standard hospital charges

Each hospital operating within the United States shall for each year establish (and update) and

make public (in accordance with guidelines developed by the Secretary) a list of the hospital's standard charges for items and services provided by the hospital, including for diagnosis-related groups established under section 1395ww(d)(4) of this title.

(ii) Exception for certain collectively bargained plans

Notwithstanding clause (i)(II), a plan described in subparagraph (B)(ii) that is subject to multiple agreements described in such subparagraph of varying lengths and that has an election described in subparagraph (A) with respect to section 300gg–26 of this title in effect as of December 29, 2022, that expires on or after the date that is 180 days after December 29, 2022, may extend such election until the date on which the term of the last such agreement expires.

§300gg–22. Enforcement

(a) State enforcement

(1) State authority

Subject to section 300gg–23¹ of this title, each State may require that health insurance issuers that issue, sell, renew, or offer health insurance coverage in the State in the individual or group market meet the requirements of this part and part D with respect to such issuers.

(2) Failure to implement provisions

In the case of a determination by the Secretary that a State has failed to substantially enforce a provision (or provisions) in this part or part D with respect to health insurance issuers in the State, the Secretary shall enforce such provision (or provisions) under subsection (b) insofar as they relate to the issuance, sale, renewal, and offering of health insurance coverage in connection with group health plans or individual health insurance coverage in such State.

(b) Secretarial enforcement authority

(1) Limitation

The provisions of this subsection shall apply to enforcement of a provision (or provisions) of this part or part D only—

(A) as provided under subsection (a)(2); and

(B) with respect to individual health insurance coverage or group health plans that are non-Federal governmental plans.

(2) Imposition of penalties

In the cases described in paragraph (1)—

(A) In general

Subject to the succeeding provisions of this subsection, any non-Federal governmental plan that is a group health plan and any health insurance issuer that fails to meet a provision of this part or part D applicable to such plan or issuer is subject to a civil money penalty under this subsection.

(B) Liability for penalty

In the case of a failure by—

- (i) a health insurance issuer, the issuer is liable for such penalty, or
- (ii) a group health plan that is a non-Federal governmental plan which is—
 - (I) sponsored by 2 or more employers, the plan is liable for such penalty, or
 - (II) not so sponsored, the employer is liable for such penalty.

(C) Amount of penalty

(i) In general

The maximum amount of penalty imposed under this paragraph is \$100 for each day for each individual with respect to which such a failure occurs.

(ii) Considerations in imposition

In determining the amount of any penalty to be assessed under this paragraph, the Secretary shall take into account the previous record of compliance of the entity being assessed with the applicable provisions of this part and part D and the gravity of the violation.

(iii) Limitations

(I) Penalty not to apply where failure not discovered exercising reasonable diligence

No civil money penalty shall be imposed under this paragraph on any failure during any period for which it is established to the satisfaction of the Secretary that none of the entities against whom the penalty would be imposed knew, or exercising reasonable diligence would have known, that such failure existed.

(II) Penalty not to apply to failures corrected within 30 days

No civil money penalty shall be imposed under this paragraph on any failure if such failure was due to reasonable cause and not to willful neglect, and such failure is corrected during the 30-day period beginning on the first day any of the entities against whom the penalty would be imposed knew, or exercising reasonable diligence would have known, that such failure existed.

(D) Administrative review

(i) Opportunity for hearing

The entity assessed shall be afforded an opportunity for hearing by the Secretary upon request made within 30 days after the date of the issuance of a notice of assessment. In such hearing the decision shall be made on the record pursuant to section 554 of title 5. If no hearing is requested, the assessment shall constitute a final and unappealable order.

(ii) Hearing procedure

If a hearing is requested, the initial agency decision shall be made by an administrative law judge, and such decision shall become the final order unless the Secretary modifies or vacates the decision. Notice of intent to modify or vacate the decision of the administrative law judge shall be issued to the parties within 30 days after the date of the decision of the judge. A final order which takes effect under this paragraph shall be subject to review only as provided under subparagraph (E).

(E) Judicial review

(i) Filing of action for review

Any entity against whom an order imposing a civil money penalty has been entered after an agency hearing under this paragraph may obtain review by the United States district court for any district in which such entity is located or the United States District Court for the District of Columbia by filing a notice of appeal in such court within 30 days from the date of such order, and simultaneously sending a copy of such notice by registered mail to the Secretary.

(ii) Certification of administrative record

The Secretary shall promptly certify and file in such court the record upon which the penalty was imposed.

(iii) Standard for review

The findings of the Secretary shall be set aside only if found to be unsupported by substantial evidence as provided by section 706(2)(E) of title 5.

(iv) Appeal

Any final decision, order, or judgment of the district court concerning such review shall be subject to appeal as provided in chapter 83 of title 28.

(F) Failure to pay assessment; maintenance of action

(i) Failure to pay assessment

If any entity fails to pay an assessment after it has become a final and unappealable order, or after the court has entered final judgment in favor of the Secretary, the Secretary shall refer the matter to the Attorney General who shall recover the amount assessed by action in the appropriate United States district court.

(ii) Nonreviewability

In such action the validity and appropriateness of the final order imposing the penalty shall not be subject to review.

(G) Payment of penalties

Except as otherwise provided, penalties collected under this paragraph shall be paid to the Secretary (or other officer) imposing the penalty and shall be available without appropriation and until expended for the purpose of enforcing the provisions with respect to which the penalty was imposed.

(3) Enforcement authority relating to genetic discrimination

(A) General rule

In the cases described in paragraph (1), notwithstanding the provisions of paragraph (2)(C), the succeeding subparagraphs of this paragraph shall apply with respect to an action under this subsection by the Secretary with respect to any failure of a health insurance issuer in connection with a group health plan, to meet the requirements of subsection (a)(1)(F), (b)(3), (c), or (d) of section 2702 ¹ or section 2701 ¹ or 2702(b)(1) ¹ with respect to genetic information in connection with the plan.

(B) Amount

(i) In general

The amount of the penalty imposed under this paragraph shall be \$100 for each day in the noncompliance period with respect to each participant or beneficiary to whom such failure relates.

(ii) Noncompliance period

For purposes of this paragraph, the term "noncompliance period" means, with respect to any failure, the period—

- (I) beginning on the date such failure first occurs; and
- (II) ending on the date the failure is corrected.

(C) Minimum penalties where failure discovered

Notwithstanding clauses (i) and (ii) of subparagraph (D):

(i) In general

In the case of 1 or more failures with respect to an individual—

- (I) which are not corrected before the date on which the plan receives a notice from the Secretary of such violation; and

(II) which occurred or continued during the period involved;

the amount of penalty imposed by subparagraph (A) by reason of such failures with respect to such individual shall not be less than \$2,500.

(ii) Higher minimum penalty where violations are more than de minimis

To the extent violations for which any person is liable under this paragraph for any year are more than de minimis, clause (i) shall be applied by substituting "\$15,000" for "\$2,500" with respect to such person.

(D) Limitations

(i) Penalty not to apply where failure not discovered exercising reasonable diligence

No penalty shall be imposed by subparagraph (A) on any failure during any period for which it is established to the satisfaction of the Secretary that the person otherwise liable for such penalty did not know, and exercising reasonable diligence would not have known, that such failure existed.

(ii) Penalty not to apply to failures corrected within certain periods

No penalty shall be imposed by subparagraph (A) on any failure if—

(I) such failure was due to reasonable cause and not to willful neglect; and

(II) such failure is corrected during the 30-day period beginning on the first date the person otherwise liable for such penalty knew, or exercising reasonable diligence would have known, that such failure existed.

(iii) Overall limitation for unintentional failures

In the case of failures which are due to reasonable cause and not to willful neglect, the penalty imposed by subparagraph (A) for failures shall not exceed the amount equal to the lesser of—

(I) 10 percent of the aggregate amount paid or incurred by the employer (or predecessor employer) during the preceding taxable year for group health plans; or

(II) \$500,000.

(E) Waiver by Secretary

In the case of a failure which is due to reasonable cause and not to willful neglect, the Secretary may waive part or all of the penalty imposed by subparagraph (A) to the extent that the payment of such penalty would be excessive relative to the failure involved.

§300gg–23. Preemption; State flexibility; construction

(a) Continued applicability of State law with respect to health insurance issuers

(1) In general

Subject to paragraph (2) and except as provided in subsection (b), this part, part D, and part C insofar as it relates to this part or part D shall not be construed to supersede any provision of State law which establishes, implements, or continues in effect any standard or requirement solely

relating to health insurance issuers in connection with individual or group health insurance coverage except to the extent that such standard or requirement prevents the application of a requirement of this part or part D.

(2) Continued preemption with respect to group health plans

Nothing in this part or part D shall be construed to affect or modify the provisions of section 1144 of title 29 with respect to group health plans.

(b) Special rules in case of portability requirements

(1) In general

Subject to paragraph (2), the provisions of this part relating to health insurance coverage offered by a health insurance issuer supersede any provision of State law which establishes, implements, or continues in effect a standard or requirement applicable to imposition of a preexisting condition exclusion specifically governed by section 701 ¹ which differs from the standards or requirements specified in such section.

(2) Exceptions

Only in relation to health insurance coverage offered by a health insurance issuer, the provisions of this part do not supersede any provision of State law to the extent that such provision—

(i) substitutes for the reference to "6-month period" in section 2701(a)(1) ¹ a reference to any shorter period of time;

(ii) substitutes for the reference to "12 months" and "18 months" in section 2701(a)(2) ¹ a reference to any shorter period of time;

(v) prohibits the imposition of any preexisting condition exclusion in cases not described in section 2701(d) ¹ or expands the exceptions described in such section;

(vii) reduces the maximum period permitted in an affiliation period under section 2701(g)(1)(B) ¹.

(c) Rules of construction

Nothing in this part (other than section 2704) ¹ or part D shall be construed as requiring a group health plan or health insurance coverage to provide specific benefits under the terms of such plan or coverage.

(d) Definitions

For purposes of this section—

(1) State law

The term "State law" includes all laws, decisions, rules, regulations, or other State action having the effect of law, of any State. A law of the United States applicable only to the District of Columbia shall be treated as a State law rather than a law of the United States.

(2) State

The term "State" includes a State (including the Northern Mariana Islands), any political subdivisions of a State or such Islands, or any agency or instrumentality of either.

§300gg–25. Standards relating to benefits for mothers and newborns

(a) Requirements for minimum hospital stay following birth

(1) In general

A group health plan, and a health insurance issuer offering group or individual health insurance coverage, may not—

(A) except as provided in paragraph (2)—

(i) restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child, following a normal vaginal delivery, to less than 48 hours, or

(ii) restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child, following a cesarean section, to less than 96 hours, or

(B) require that a provider obtain authorization from the plan or the issuer for prescribing any length of stay required under subparagraph (A) (without regard to paragraph (2)).

(2) Exception

Paragraph (1)(A) shall not apply in connection with any group health plan or health insurance issuer in any case in which the decision to discharge the mother or her newborn child prior to the expiration of the minimum length of stay otherwise required under paragraph (1)(A) is made by an attending provider in consultation with the mother.

(b) Prohibitions

A group health plan, and a health insurance issuer offering group or individual health insurance coverage, may not—

(1) deny to the mother or her newborn child eligibility, or continued eligibility, to enroll or to renew coverage under the terms of the plan or coverage, solely for the purpose of avoiding the requirements of this section;

(2) provide monetary payments or rebates to mothers to encourage such mothers to accept less than the minimum protections available under this section;

(3) penalize or otherwise reduce or limit the reimbursement of an attending provider because such provider provided care to an individual participant or beneficiary in accordance with this section;

(4) provide incentives (monetary or otherwise) to an attending provider to induce such provider to provide care to an individual participant or beneficiary in a manner inconsistent with this section; or

(5) subject to subsection (c)(3), restrict benefits for any portion of a period within a hospital length of stay required under subsection (a) in a manner which is less favorable than the benefits provided for any preceding portion of such stay.

(c) Rules of construction

(1) Nothing in this section shall be construed to require a mother who is a participant or beneficiary—

(A) to give birth in a hospital; or

(B) to stay in the hospital for a fixed period of time following the birth of her child.

(2) This section shall not apply with respect to any group health plan, or any health insurance issuer offering group or individual health insurance coverage, which does not provide benefits for hospital lengths of stay in connection with childbirth for a mother or her newborn child.

(3) Nothing in this section shall be construed as preventing a group health plan or health insurance issuer from imposing deductibles, coinsurance, or other cost-sharing in relation to benefits for hospital lengths of stay in connection with childbirth for a mother or newborn child under the plan (or under health insurance coverage offered in connection with a group health plan), except that such

coinsurance or other cost-sharing for any portion of a period within a hospital length of stay required under subsection (a) may not be greater than such coinsurance or cost-sharing for any preceding portion of such stay.

(d) Notice

A group health plan under this part shall comply with the notice requirement under section 1185(d) of title 29 with respect to the requirements of this section as if such section applied to such plan.

(e) Level and type of reimbursements

Nothing in this section shall be construed to prevent a group health plan or a health insurance issuer offering group or individual health insurance coverage from negotiating the level and type of reimbursement with a provider for care provided in accordance with this section.

(f) Preemption; exception for health insurance coverage in certain States

(1) In general

The requirements of this section shall not apply with respect to health insurance coverage if there is a State law (as defined in section 300gg–23(d)(1) ¹ of this title) for a State that regulates such coverage that is described in any of the following subparagraphs:

(A) Such State law requires such coverage to provide for at least a 48-hour hospital length of stay following a normal vaginal delivery and at least a 96-hour hospital length of stay following a cesarean section.

(B) Such State law requires such coverage to provide for maternity and pediatric care in accordance with guidelines established by the American College of Obstetricians and Gynecologists, the American Academy of Pediatrics, or other established professional medical associations.

(C) Such State law requires, in connection with such coverage for maternity care, that the hospital length of stay for such care is left to the decision of (or required to be made by) the attending provider in consultation with the mother.

(2) Construction

Section 300gg–23(a)(1) ¹ of this title shall not be construed as superseding a State law described in paragraph (1).

§300gg–26. Parity in mental health and substance use disorder benefits

(a) In general

(1) Aggregate lifetime limits

In the case of a group health plan or a health insurance issuer offering group or individual health insurance coverage that provides both medical and surgical benefits and mental health or substance use disorder benefits—

(A) No lifetime limit

If the plan or coverage does not include an aggregate lifetime limit on substantially all medical and surgical benefits, the plan or coverage may not impose any aggregate lifetime limit on mental health or substance use disorder benefits.

(B) Lifetime limit

If the plan or coverage includes an aggregate lifetime limit on substantially all medical and surgical benefits (in this paragraph referred to as the "applicable lifetime limit"), the plan or coverage shall either—

(i) apply the applicable lifetime limit both to the medical and surgical benefits to which it otherwise would apply and to mental health and substance use disorder benefits and not distinguish in the application of such limit between such medical and surgical benefits and mental health and substance use disorder benefits; or

(ii) not include any aggregate lifetime limit on mental health or substance use disorder benefits that is less than the applicable lifetime limit.

(C) Rule in case of different limits

In the case of a plan or coverage that is not described in subparagraph (A) or (B) and that includes no or different aggregate lifetime limits on different categories of medical and surgical benefits, the Secretary shall establish rules under which subparagraph (B) is applied to such plan or coverage with respect to mental health and substance use disorder benefits by substituting for the applicable lifetime limit an average aggregate lifetime limit that is computed taking into account the weighted average of the aggregate lifetime limits applicable to such categories.

(2) Annual limits

In the case of a group health plan or a health insurance issuer offering group or individual health insurance coverage that provides both medical and surgical benefits and mental health or substance use disorder benefits—

(A) No annual limit

If the plan or coverage does not include an annual limit on substantially all medical and surgical benefits, the plan or coverage may not impose any annual limit on mental health or substance use disorder benefits.

(B) Annual limit

If the plan or coverage includes an annual limit on substantially all medical and surgical benefits (in this paragraph referred to as the "applicable annual limit"), the plan or coverage shall either—

(i) apply the applicable annual limit both to medical and surgical benefits to which it otherwise would apply and to mental health and substance use disorder benefits and not distinguish in the application of such limit between such medical and surgical benefits and mental health and substance use disorder benefits; or

(ii) not include any annual limit on mental health or substance use disorder benefits that is less than the applicable annual limit.

(C) Rule in case of different limits

In the case of a plan or coverage that is not described in subparagraph (A) or (B) and that includes no or different annual limits on different categories of medical and surgical benefits, the Secretary shall establish rules under which subparagraph (B) is applied to such plan or coverage with respect to mental health and substance use disorder benefits by substituting for the applicable annual limit an average annual limit that is computed taking into account the weighted average of the annual limits applicable to such categories.

(3) Financial requirements and treatment limitations

(A) In general

In the case of a group health plan or a health insurance issuer offering group or individual health insurance coverage that provides both medical and surgical benefits and mental health or substance use disorder benefits, such plan or coverage shall ensure that—

(i) the financial requirements applicable to such mental health or substance use disorder benefits are no more restrictive than the predominant financial requirements applied to substantially all medical and surgical benefits covered by the plan (or coverage), and there are no separate cost sharing requirements that are applicable only with respect to mental health or substance use disorder benefits; and

(ii) the treatment limitations applicable to such mental health or substance use disorder benefits are no more restrictive than the predominant treatment limitations applied to substantially all medical and surgical benefits covered by the plan (or coverage) and there are no separate treatment limitations that are applicable only with respect to mental health or substance use disorder benefits.

(B) Definitions

In this paragraph:

(i) Financial requirement

The term "financial requirement" includes deductibles, copayments, coinsurance, and out-of-pocket expenses, but excludes an aggregate lifetime limit and an annual limit subject to paragraphs (1) and (2).

(ii) Predominant

A financial requirement or treatment limit is considered to be predominant if it is the most common or frequent of such type of limit or requirement.

(iii) Treatment limitation

The term "treatment limitation" includes limits on the frequency of treatment, number of visits, days of coverage, or other similar limits on the scope or duration of treatment.

(4) Availability of plan information

The criteria for medical necessity determinations made under the plan with respect to mental health or substance use disorder benefits (or the health insurance coverage offered in connection with the plan with respect to such benefits) shall be made available by the plan administrator (or the health insurance issuer offering such coverage) in accordance with regulations to any current or potential participant, beneficiary, or contracting provider upon request. The reason for any denial under the plan (or coverage) of reimbursement or payment for services with respect to mental health or substance use disorder benefits in the case of any participant or beneficiary shall, on request or as otherwise required, be made available by the plan administrator (or the health insurance issuer offering such coverage) to the participant or beneficiary in accordance with regulations.

(5) Out-of-network providers

In the case of a plan or coverage that provides both medical and surgical benefits and mental health or substance use disorder benefits, if the plan or coverage provides coverage for medical or surgical benefits provided by out-of-network providers, the plan or coverage shall provide coverage for mental health or substance use disorder benefits provided by out-of-network providers in a manner that is consistent with the requirements of this section.

(6) Compliance program guidance document

(A) In general

(I) examples illustrating requirements for information disclosures and nonquantitative

treatment limitations; and

(II) descriptions of the violations uncovered during the course of such investigations.

(ii) Nonquantitative treatment limitations

To the extent that any example described in clause (i) involves a finding of compliance or noncompliance with regard to any requirement for nonquantitative treatment limitations, the example shall provide sufficient detail to fully explain such finding, including a full description of the criteria involved for approving medical and surgical benefits and the criteria involved for approving mental health and substance use disorder benefits.

(iii) Access to additional information regarding compliance

In developing and issuing the compliance program guidance document required under this paragraph, the Secretaries specified in subparagraph (A)—

(I) shall enter into interagency agreements with the Inspector General of the Department of Health and Human Services, the Inspector General of the Department of Labor, and the Inspector General of the Department of the Treasury to share findings of compliance and noncompliance with this section, section 1185a of title 29, or section 9812 of title 26, as applicable; and

(II) shall seek to enter into an agreement with a State to share information on findings of compliance and noncompliance with this section, section 1185a of title 29, or section 9812 of title 26, as applicable.

(C) Recommendations

The compliance program guidance document shall include recommendations to advance compliance with this section, section 1185a of title 29, or section 9812 of title 26, as applicable, and encourage the development and use of internal controls to monitor adherence to applicable statutes, regulations, and program requirements. Such internal controls may include illustrative examples of nonquantitative treatment limitations on mental health and substance use disorder benefits, which may fail to comply with this section, section 1185a of title 29, or section 9812 of title 26, as applicable, in relation to nonquantitative treatment limitations on medical and surgical benefits.

(D) Updating the compliance program guidance document

The Secretary, the Secretary of Labor, and the Secretary of the Treasury, in consultation with the Inspector General of the Department of Health and Human Services, the Inspector General of the Department of Labor, and the Inspector General of the Department of the Treasury, shall update the compliance program guidance document every 2 years to include illustrative, de-identified examples (that do not disclose any protected health information or individually identifiable information) of previous findings of compliance and noncompliance with this section, section 1185a of title 29, or section 9812 of title 26, as applicable.

(7) Additional guidance

(A) In general

Not later than 12 months after December 13, 2016, the Secretary, the Secretary of Labor, and the Secretary of the Treasury shall issue guidance to group health plans and health insurance issuers offering group or individual health insurance coverage to assist such plans and issuers in satisfying the requirements of this section, section 1185a of title 29, or section 9812 of title 26, as applicable.

Such guidance shall include information that is comparative in nature with respect to—

- (I) nonquantitative treatment limitations for both medical and surgical benefits and mental health and substance use disorder benefits;
- (II) the processes, strategies, evidentiary standards, and other factors used to apply the limitations described in subclause (I); and
- (III) the application of the limitations described in subclause (I) to ensure that such limitations are applied in parity with respect to both medical and surgical benefits and mental health and substance use disorder benefits.

(C) Nonquantitative treatment limitations

The guidance issued under this paragraph shall include clarifying information and illustrative examples of methods, processes, strategies, evidentiary standards, and other factors that group health plans and health insurance issuers offering group or individual health insurance coverage may use regarding the development and application of nonquantitative treatment limitations to ensure compliance with this section, section 1185a of title 29, or section 9812 of title 26, as applicable, (and any regulations promulgated pursuant to such respective section), including—

- (i) examples of methods of determining appropriate types of nonquantitative treatment limitations with respect to both medical and surgical benefits and mental health and substance use disorder benefits, including nonquantitative treatment limitations pertaining to—

- (v) examples of how specific evidentiary standards may be used to determine whether treatments are considered experimental or investigative;
- (vi) examples of how specific evidentiary standards may be applied to each service category or classification of benefits;

(vii) examples of methods of reaching appropriate coverage determinations for new mental health or substance use disorder treatments, such as evidence-based early intervention programs for individuals with a serious mental illness and types of medical management techniques;

(viii) examples of methods of reaching appropriate coverage determinations for which there is an indirect relationship between the covered mental health or substance use disorder benefit and a traditional covered medical and surgical benefit, such as residential treatment or hospitalizations involving voluntary or involuntary commitment; and

(D) Public comment

Prior to issuing any final guidance under this paragraph, the Secretary shall provide a public comment period of not less than 60 days during which any member of the public may provide comments on a draft of the guidance.

(8) Compliance requirements

(A) Nonquantitative treatment limitation (NQTL) requirements

In the case of a group health plan or a health insurance issuer offering group or individual health insurance coverage that provides both medical and surgical benefits and mental health or substance use disorder benefits and that imposes nonquantitative treatment limitations (referred to in this section as "NQTLs") on mental health or substance use disorder benefits, such plan or issuer shall perform and document comparative analyses of the design and application of NQTLs and, beginning 45 days after December 27, 2020, make available to the applicable State authority (or, as applicable, to the Secretary of Labor or the Secretary of Health and Human Services), upon request, the comparative analyses and the following information:

(i) The specific plan or coverage terms or other relevant terms regarding the NQTLs and a description of all mental health or substance use disorder and medical or surgical benefits to which each such term applies in each respective benefits classification.

(ii) The factors used to determine that the NQTLs will apply to mental health or substance use disorder benefits and medical or surgical benefits.

(iii) The evidentiary standards used for the factors identified in clause (ii), when applicable, provided that every factor shall be defined, and any other source or evidence relied upon to design and apply the NQTLs to mental health or substance use disorder benefits and medical or surgical benefits.

(iv) The comparative analyses demonstrating that the processes, strategies, evidentiary standards, and other factors used to apply the NQTLs to mental health or substance use disorder benefits, as written and in operation, are comparable to, and are applied no more stringently than, the processes, strategies, evidentiary standards, and other factors used to apply the NQTLs to medical or surgical benefits in the benefits classification.

(v) The specific findings and conclusions reached by the group health plan or health insurance issuer with respect to the health insurance coverage, including any results of the analyses described in this subparagraph that indicate that the plan or coverage is or is not in compliance with this section.

(B) Secretary request process

(i) Submission upon request

The Secretary shall request that a group health plan or a health insurance issuer offering group or individual health insurance coverage submit the comparative analyses described in subparagraph (A) for plans that involve potential violations of this section or complaints

regarding noncompliance with this section that concern NQTLs and any other instances in which the Secretary determines appropriate. The Secretary shall request not fewer than 20 such analyses per year.

(ii) Additional information

In instances in which the Secretary has concluded that the group health plan or health insurance issuer with respect to health insurance coverage has not submitted sufficient information for the Secretary to review the comparative analyses described in subparagraph (A), as requested under clause (i), the Secretary shall specify to the plan or issuer the information the plan or issuer must submit to be responsive to the request under clause (i) for the Secretary to review the comparative analyses described in subparagraph (A) for compliance with this section. Nothing in this paragraph shall require the Secretary to conclude that a group health plan or health insurance issuer is in compliance with this section solely based upon the inspection of the comparative analyses described in subparagraph (A), as requested under clause (i).

(iii) Required action

(I) In general

In instances in which the Secretary has reviewed the comparative analyses described in subparagraph (A), as requested under clause (i), and determined that the group health plan or health insurance issuer is not in compliance with this section, the plan or issuer—

(aa) shall specify to the Secretary the actions the plan or issuer will take to be in compliance with this section and provide to the Secretary additional comparative analyses described in subparagraph (A) that demonstrate compliance with this section not later than 45 days after the initial determination by the Secretary that the plan or issuer is not in compliance; and

(bb) following the 45-day corrective action period under item (aa), if the Secretary makes a final determination that the plan or issuer still is not in compliance with this section, not later than 7 days after such determination, shall notify all individuals enrolled in the plan or applicable health insurance coverage offered by the issuer that the plan or issuer, with respect to such coverage, has been determined to be not in compliance with this section.

(II) Exemption from disclosure

Documents or communications produced in connection with the Secretary's recommendations to a group health plan or health insurance issuer shall not be subject to disclosure pursuant to section 552 of title 5.

(iv) Report

Not later than 1 year after December 27, 2020, and not later than October 1 of each year thereafter, the Secretary shall submit to Congress, and make publicly available, a report that contains—

(I) a summary of the comparative analyses requested under clause (i), including the identity of each group health plan or health insurance issuer, with respect to particular health insurance coverage that is determined to be not in compliance after the final determination by the Secretary described in clause (iii)(I)(bb);

(II) the Secretary's conclusions as to whether each group health plan or health insurance issuer submitted sufficient information for the Secretary to review the comparative analyses requested under clause (i) for compliance with this section;

(III) for each group health plan or health insurance issuer that did submit sufficient information for the Secretary to review the comparative analyses requested under clause (i), the Secretary's conclusions as to whether and why the plan or issuer is in compliance with the requirements under this section;

(IV) the Secretary's specifications described in clause (ii) for each group health plan or

health insurance issuer that the Secretary determined did not submit sufficient information for the Secretary to review the comparative analyses requested under clause (i) for compliance with this section; and

(V) the Secretary's specifications described in clause (iii) of the actions each group health plan or health insurance issuer that the Secretary determined is not in compliance with this section must take to be in compliance with this section, including the reason why the Secretary determined the plan or issuer is not in compliance.

(C) Compliance program guidance document update process

(i) In general

The Secretary shall include instances of noncompliance that the Secretary discovers upon reviewing the comparative analyses requested under subparagraph (B)(i) in the compliance program guidance document described in paragraph (6), as it is updated every 2 years, except that such instances shall not disclose any protected health information or individually identifiable information.

(ii) Guidance and regulations

Not later than 18 months after December 27, 2020, the Secretary shall finalize any draft or interim guidance and regulations relating to mental health parity under this section. Such draft guidance shall include guidance to clarify the process and timeline for current and potential participants and beneficiaries (and authorized representatives and health care providers of such participants and beneficiaries) with respect to plans to file complaints of such plans or issuers being in violation of this section, including guidance, by plan type, on the relevant State, regional, or national office with which such complaints should be filed.

(iii) State

The Secretary shall share information on findings of compliance and noncompliance discovered upon reviewing the comparative analyses requested under subparagraph (B)(i) shall be shared with the State where the group health plan is located or the State where the health insurance issuer is licensed to do business for coverage offered by a health insurance issuer in the group market, in accordance with paragraph (6)(B)(iii)(II).

(b) Construction

Nothing in this section shall be construed—

(1) as requiring a group health plan or a health insurance issuer offering group or individual health insurance coverage to provide any mental health or substance use disorder benefits; or

(2) in the case of a group health plan or a health insurance issuer offering group or individual health insurance coverage that provides mental health or substance use disorder benefits, as affecting the terms and conditions of the plan or coverage relating to such benefits under the plan or coverage, except as provided in subsection (a).

(c) Exemptions

(1) Small employer exemption

This section shall not apply to any group health plan and a health insurance issuer offering group or individual health insurance coverage for any plan year of a small employer (as defined in section 300gg-91(e)(4) of this title, except that for purposes of this paragraph such term shall include employers with 1 employee in the case of an employer residing in a State that permits small groups to include a single individual).

(2) Cost exemption

(A) In general

With respect to a group health plan or a health insurance issuer offering group or individual health insurance coverage, if the application of this section to such plan (or coverage) results in an increase for the plan year involved of the actual total costs of coverage with respect to

medical and surgical benefits and mental health and substance use disorder benefits under the plan (as determined and certified under subparagraph (C)) by an amount that exceeds the applicable percentage described in subparagraph (B) of the actual total plan costs, the provisions of this section shall not apply to such plan (or coverage) during the following plan year, and such exemption shall apply to the plan (or coverage) for 1 plan year. An employer may elect to continue to apply mental health and substance use disorder parity pursuant to this section with respect to the group health plan (or coverage) involved regardless of any increase in total costs.

(B) Applicable percentage

With respect to a plan (or coverage), the applicable percentage described in this subparagraph shall be—

- (i) 2 percent in the case of the first plan year in which this section is applied; and
- (ii) 1 percent in the case of each subsequent plan year.

(C) Determinations by actuaries

Determinations as to increases in actual costs under a plan (or coverage) for purposes of this section shall be made and certified by a qualified and licensed actuary who is a member in good standing of the American Academy of Actuaries. All such determinations shall be in a written report prepared by the actuary. The report, and all underlying documentation relied upon by the actuary, shall be maintained by the group health plan or health insurance issuer for a period of 6 years following the notification made under subparagraph (E).

(D) 6-month determinations

If a group health plan (or a health insurance issuer offering coverage in connection with a group health plan) seeks an exemption under this paragraph, determinations under subparagraph (A) shall be made after such plan (or coverage) has complied with this section for the first 6 months of the plan year involved.

(E) Notification

(i) In general

A group health plan (or a health insurance issuer offering coverage in connection with a group health plan) that, based upon a certification described under subparagraph (C), qualifies for an exemption under this paragraph, and elects to implement the exemption, shall promptly notify the Secretary, the appropriate State agencies, and participants and beneficiaries in the plan of such election.

(ii) Requirement

A notification to the Secretary under clause (i) shall include—

- (I) a description of the number of covered lives under the plan (or coverage) involved at the time of the notification, and as applicable, at the time of any prior election of the cost-exemption under this paragraph by such plan (or coverage);
- (II) for both the plan year upon which a cost exemption is sought and the year prior, a description of the actual total costs of coverage with respect to medical and surgical benefits and mental health and substance use disorder benefits under the plan; and
- (III) for both the plan year upon which a cost exemption is sought and the year prior, the actual total costs of coverage with respect to mental health and substance use disorder benefits under the plan.

(iii) Confidentiality

A notification to the Secretary under clause (i) shall be confidential. The Secretary shall make available, upon request and on not more than an annual basis, an anonymous itemization of such notifications, that includes—

- (I) a breakdown of States by the size and type of employers submitting such notification; and
- (II) a summary of the data received under clause (ii).

(F) Audits by appropriate agencies

To determine compliance with this paragraph, the Secretary may audit the books and records of a group health plan or health insurance issuer relating to an exemption, including any actuarial reports prepared pursuant to subparagraph (C), during the 6 year period following the notification of such exemption under subparagraph (E). A State agency receiving a notification under subparagraph (E) may also conduct such an audit with respect to an exemption covered by such notification.

(d) Separate application to each option offered

In the case of a group health plan that offers a participant or beneficiary two or more benefit package options under the plan, the requirements of this section shall be applied separately with respect to each such option.

(e) Definitions

For purposes of this section—

(1) Aggregate lifetime limit

The term "aggregate lifetime limit" means, with respect to benefits under a group health plan or health insurance coverage, a dollar limitation on the total amount that may be paid with respect to such benefits under the plan or health insurance coverage with respect to an individual or other coverage unit.

(3) Medical or surgical benefits

The term "medical or surgical benefits" means benefits with respect to medical or surgical services, as defined under the terms of the plan or coverage (as the case may be), but does not include mental health or substance use disorder benefits.

(4) Mental health benefits

The term "mental health benefits" means benefits with respect to services for mental health conditions, as defined under the terms of the plan and in accordance with applicable Federal and State law.

EXECUTIVE DOCUMENTS

MENTAL HEALTH AND SUBSTANCE USE DISORDER PARITY TASK FORCE

Memorandum of President of the United States, Mar. 29, 2016, 81 F.R. 19015, provided:

Memorandum for the Heads of Executive Departments and Agencies

My Administration has made behavioral health a priority and taken a number of steps to improve the prevention, early intervention, and treatment of mental health and substance use disorders. These actions are especially important in light of the prescription drug abuse and heroin epidemic as well as the suicide and substance use-related fatalities that have reversed increases in longevity in certain populations. One important response has been the expansion and implementation of mental health and substance use disorder parity protections to ensure that coverage for these benefits is comparable to coverage for medical and surgical care. The Affordable Care Act builds on the Paul Wellstone and Pete Domenici Mental Health Parity and Addiction Equity Act to expand mental health and substance use disorder benefits and Federal parity protections for more than 60 million Americans. To realize the promise of coverage expansion and parity protections in helping individuals with mental health and substance use disorders, executive departments and agencies need to work together to ensure that Americans are benefiting from the Federal parity protections the law intends. To that end, I hereby direct the following:

SECTION 1. *Mental Health and Substance Use Disorder Parity Task Force.* There is established an interagency Mental Health and Substance Use Disorder Parity Task Force (Task Force), which will identify and promote best practices for executive departments and agencies (agencies), as well as State agencies, to better ensure compliance with and implementation of requirements related to mental health and substance use disorder parity, and determine areas that would benefit from further guidance. The Director of the Domestic Policy Council shall serve as Chair of the Task Force.

(a) *Membership of the Task Force.* In addition to the Director of the Domestic Policy Council, the Task Force shall consist of the heads of the following agencies and offices, or their designees:

- (i) the Department of the Treasury;
- (ii) the Department of Defense;
- (iii) the Department of Justice;
- (iv) the Department of Labor;
- (v) the Department of Health and Human Services;
- (vi) the Department of Veterans Affairs;
- (vii) the Office of Personnel Management;
- (viii) the Office of National Drug Control Policy; and
- (ix) such other agencies or offices as the President may designate.

At the request of the Chair, the Task Force may establish subgroups consisting exclusively of Task Force members or their designees under this section, as appropriate.

(b) *Administration of the Task Force.* The Department of Health and Human Services shall provide funding

and administrative support for the Task Force to the extent permitted by law and within existing appropriations.

SEC. 2. *Mission and Functions of the Task Force.* The Task Force shall coordinate across agencies to:

- (a) identify and promote best practices for compliance and implementation;
- (b) identify and address gaps in guidance, particularly with regard to substance use disorder parity; and
- (c) implement actions during its tenure and at its conclusion to advance parity in mental health and substance use disorder treatment.

SEC. 3. *Outreach.* Consistent with the objectives set out in section 2 of this memorandum, the Task Force, in accordance with applicable law, shall conduct outreach to patients, consumer advocates, health care providers, specialists in mental health care and substance use disorder treatment, employers, insurers, State regulators, and other stakeholders as the Task Force deems appropriate.

SEC. 4. *Transparency and Reports.* The Task Force shall present to the President a report before October 31, 2016, on its findings and recommendations, which shall be made public.

SEC. 5. *General Provisions.* (a) The heads of agencies shall assist and provide information to the Task Force, consistent with applicable law, as may be necessary to carry out the functions of the Task Force.

(b) Nothing in this memorandum shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department, agency, or the head thereof; or
- (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(c) This memorandum shall be implemented consistent with applicable law and subject to the availability of appropriations.

(d) This memorandum is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

(e) The Secretary of Health and Human Services is authorized and directed to publish this memorandum in the Federal Register.

- (B) was enrolled in the plan or coverage, on the basis of being a student at a postsecondary educational institution (as described in subsection (a)), immediately before the first day of the medically necessary leave of absence involved.

(3) Certification by physician

Paragraph (1) shall apply to a group health plan or individual health insurance coverage only if the plan or issuer of the coverage has received written certification by a treating physician of the dependent child which states that the child is suffering from a serious illness or injury and that the leave of absence (or other change of enrollment) described in subsection (a) is medically necessary.

(c) Notice

A group health plan, and a health insurance issuer that offers group or individual health insurance coverage, shall include, with any notice regarding a requirement for certification of student status for coverage under the plan or coverage, a description of the terms of this section for continued coverage

during medically necessary leaves of absence. Such description shall be in language which is understandable to the typical plan participant.

(d) No change in benefits

A dependent child whose benefits are continued under this section shall be entitled to the same benefits as if (during the medically necessary leave of absence) the child continued to be a covered student at the institution of higher education and was not on a medically necessary leave of absence.

(e) Continued application in case of changed coverage

If—

(1) a dependent child of a participant or beneficiary is in a period of coverage under a group health plan or individual health insurance coverage, pursuant to a medically necessary leave of absence of the child described in subsection (b);

(2) the manner in which the participant or beneficiary is covered under the plan changes, whether through a change in health insurance coverage or health insurance issuer, a change between health insurance coverage and self-insured coverage, or otherwise; and

(3) the coverage as so changed continues to provide coverage of beneficiaries as dependent children,

this section shall apply to coverage of the child under the changed coverage for the remainder of the period of the medically necessary leave of absence of the dependent child under the plan in the same manner as it would have applied if the changed coverage had been the previous coverage.

PART B—INDIVIDUAL MARKET RULES

SUBPART 1—PORTABILITY, ACCESS, AND RENEWABILITY REQUIREMENTS

§300gg–41. Guaranteed availability of individual health insurance coverage to certain individuals with prior group coverage

(a) Guaranteed availability

(1) In general

Subject to the succeeding subsections of this section and section 300gg–44 of this title, each health insurance issuer that offers health insurance coverage (as defined in section 300gg–91(b)(1) of this title) in the individual market in a State may not, with respect to an eligible individual (as defined in subsection (b)) desiring to enroll in individual health insurance coverage—

(A) decline to offer such coverage to, or deny enrollment of, such individual; or

(B) impose any preexisting condition exclusion (as defined in section 2701(b)(1)(A)) ¹ with respect to such coverage.

(2) Substitution by State of acceptable alternative mechanism

The requirement of paragraph (1) shall not apply to health insurance coverage offered in the individual market in a State in which the State is implementing an acceptable alternative mechanism under section 300gg–44 of this title.

(b) "Eligible individual" defined

In this part, the term "eligible individual" means an individual—

(1)(A) for whom, as of the date on which the individual seeks coverage under this section, the aggregate of the periods of creditable coverage (as defined in section 2701(c)) ¹ is 18 or more months and (B) whose most recent prior creditable coverage was under a group health plan, governmental plan, or church plan (or health insurance coverage offered in connection with any such plan);

(2) who is not eligible for coverage under (A) a group health plan, (B) part A or part B of title XVIII of the Social Security Act [42 U.S.C. 1395c et seq., 1395j et seq.], or (C) a State plan under title XIX of such Act [42 U.S.C. 1396 et seq.] (or any successor program), and does not have other health insurance coverage;

(3) with respect to whom the most recent coverage within the coverage period described in paragraph (1)(A) was not terminated based on a factor described in paragraph (1) or (2) of section 2712(b) ¹ (relating to nonpayment of premiums or fraud);

(4) if the individual had been offered the option of continuation coverage under a COBRA continuation provision or under a similar State program, who elected such coverage; and

(5) who, if the individual elected such continuation coverage, has exhausted such continuation coverage under such provision or program.

(c) Alternative coverage permitted where no State mechanism

(1) In general

In the case of health insurance coverage offered in the individual market in a State in which the State is not implementing an acceptable alternative mechanism under section 300gg–44 of this title, the health insurance issuer may elect to limit the coverage offered under subsection (a) so long as it offers at least two different policy forms of health insurance coverage both of which—

(A) are designed for, made generally available to, and actively marketed to, and enroll both eligible and other individuals by the issuer; and

(B) meet the requirement of paragraph (2) or (3), as elected by the issuer.

For purposes of this subsection, policy forms which have different cost-sharing arrangements or different riders shall be considered to be different policy forms.

(2) Choice of most popular policy forms

The requirement of this paragraph is met, for health insurance coverage policy forms offered by an issuer in the individual market, if the issuer offers the policy forms for individual health insurance coverage with the largest, and next to largest, premium volume of all such policy forms offered by the issuer in the State or applicable marketing or service area (as may be prescribed in regulation) by the issuer in the individual market in the period involved.

(3) Choice of 2 policy forms with representative coverage

(A) In general

The requirement of this paragraph is met, for health insurance coverage policy forms offered by an issuer in the individual market, if the issuer offers a lower-level coverage policy form (as defined in subparagraph (B)) and a higher-level coverage policy form (as defined in subparagraph (C)) each of which includes benefits substantially similar to other individual health insurance coverage offered by the issuer in that State and each of which is covered under a method described in section 300gg–44(c)(3)(A) of this title (relating to risk adjustment, risk spreading, or financial subsidization).

(B) Lower-level of coverage described

A policy form is described in this subparagraph if the actuarial value of the benefits under the coverage is at least 85 percent but not greater than 100 percent of a weighted average (described in subparagraph (D)).

(C) Higher-level of coverage described

A policy form is described in this subparagraph if—

(i) the actuarial value of the benefits under the coverage is at least 15 percent greater than the actuarial value of the coverage described in subparagraph (B) offered by the issuer in the area involved; and

(ii) the actuarial value of the benefits under the coverage is at least 100 percent but not greater than 120 percent of a weighted average (described in subparagraph (D)).

(D) Weighted average

For purposes of this paragraph, the weighted average described in this subparagraph is the average actuarial value of the benefits provided by all the health insurance coverage issued (as elected by the issuer) either by that issuer or by all issuers in the State in the individual market during the previous year (not including coverage issued under this section), weighted by enrollment for the different coverage.

(4) Election

The issuer elections under this subsection shall apply uniformly to all eligible individuals in the State for that issuer. Such an election shall be effective for policies offered during a period of not shorter than 2 years.

(5) Assumptions

For purposes of paragraph (3), the actuarial value of benefits provided under individual health insurance coverage shall be calculated based on a standardized population and a set of

standardized utilization and cost factors.

(d) Special rules for network plans

(1) In general

In the case of a health insurance issuer that offers health insurance coverage in the individual market through a network plan, the issuer may—

(A) limit the individuals who may be enrolled under such coverage to those who live, reside, or work within the service area for such network plan; and

(B) within the service area of such plan, deny such coverage to such individuals if the issuer has demonstrated, if required, to the applicable State authority that—

(i) it will not have the capacity to deliver services adequately to additional individual enrollees because of its obligations to existing group contract holders and enrollees and individual enrollees, and

(ii) it is applying this paragraph uniformly to individuals without regard to any health status-related factor of such individuals and without regard to whether the individuals are eligible individuals.

(2) 180-day suspension upon denial of coverage

An issuer, upon denying health insurance coverage in any service area in accordance with paragraph (1)(B), may not offer coverage in the individual market within such service area for a period of 180 days after such coverage is denied.

(e) ² Application of financial capacity limits

(1) In general

A health insurance issuer may deny health insurance coverage in the individual market to an eligible individual if the issuer has demonstrated, if required, to the applicable State authority that—

(A) it does not have the financial reserves necessary to underwrite additional coverage; and

(B) it is applying this paragraph uniformly to all individuals in the individual market in the State consistent with applicable State law and without regard to any health status-related factor of such individuals and without regard to whether the individuals are eligible individuals.

(2) 180-day suspension upon denial of coverage

An issuer upon denying individual health insurance coverage in any service area in accordance with paragraph (1) may not offer such coverage in the individual market within such service area for a period of 180 days after the date such coverage is denied or until the issuer has demonstrated, if required under applicable State law, to the applicable State authority that the issuer has sufficient financial reserves to underwrite additional coverage, whichever is later. A State may provide for the application of this paragraph on a service-area-specific basis.

(e) ² Market requirements

(1) In general

The provisions of subsection (a) shall not be construed to require that a health insurance issuer offering health insurance coverage only in connection with group health plans or through one or more bona fide associations, or both, offer such health insurance coverage in the individual market.

(2) Conversion policies

A health insurance issuer offering health insurance coverage in connection with group health plans under this subchapter shall not be deemed to be a health insurance issuer offering individual health insurance coverage solely because such issuer offers a conversion policy.

(f) Construction

Nothing in this section shall be construed—

(1) to restrict the amount of the premium rates that an issuer may charge an individual for health insurance coverage provided in the individual market under applicable State law; or

(2) to prevent a health insurance issuer offering health insurance coverage in the individual market from establishing premium discounts or rebates or modifying otherwise applicable copayments or deductibles in return for adherence to programs of health promotion and disease prevention.

§300gg–42. Guaranteed renewability of individual health insurance coverage

(a) In general

Except as provided in this section, a health insurance issuer that provides individual health

insurance coverage to an individual shall renew or continue in force such coverage at the option of the individual.

(b) General exceptions

A health insurance issuer may nonrenew or discontinue health insurance coverage of an individual in the individual market based only on one or more of the following:

(1) Nonpayment of premiums

The individual has failed to pay premiums or contributions in accordance with the terms of the health insurance coverage or the issuer has not received timely premium payments.

(2) Fraud

The individual has performed an act or practice that constitutes fraud or made an intentional misrepresentation of material fact under the terms of the coverage.

(3) Termination of plan

The issuer is ceasing to offer coverage in the individual market in accordance with subsection (c) and applicable State law.

(4) Movement outside service area

In the case of a health insurance issuer that offers health insurance coverage in the market through a network plan, the individual no longer resides, lives, or works in the service area (or in an area for which the issuer is authorized to do business) but only if such coverage is terminated under this paragraph uniformly without regard to any health status-related factor of covered individuals.

(5) Association membership ceases

In the case of health insurance coverage that is made available in the individual market only through one or more bona fide associations, the membership of the individual in the association (on the basis of which the coverage is provided) ceases but only if such coverage is terminated under this paragraph uniformly without regard to any health status-related factor of covered individuals.

(c) Requirements for uniform termination of coverage

(1) Particular type of coverage not offered

In any case in which an issuer decides to discontinue offering a particular type of health insurance coverage offered in the individual market, coverage of such type may be discontinued by the issuer only if—

(A) the issuer provides notice to each covered individual provided coverage of this type in such market of such discontinuation at least 90 days prior to the date of the discontinuation of such coverage;

(B) the issuer offers to each individual in the individual market provided coverage of this type, the option to purchase any other individual health insurance coverage currently being offered by the issuer for individuals in such market; and

(C) in exercising the option to discontinue coverage of this type and in offering the option of coverage under subparagraph (B), the issuer acts uniformly without regard to any health status-related factor of enrolled individuals or individuals who may become eligible for such coverage.

(2) Discontinuance of all coverage

(A) In general

Subject to subparagraph (C), in any case in which a health insurance issuer elects to discontinue offering all health insurance coverage in the individual market in a State, health insurance coverage may be discontinued by the issuer only if—

(i) the issuer provides notice to the applicable State authority and to each individual of such discontinuation at least 180 days prior to the date of the expiration of such coverage, and

(ii) all health insurance issued or delivered for issuance in the State in such market are discontinued and coverage under such health insurance coverage in such market is not renewed.

(B) Prohibition on market reentry

In the case of a discontinuation under subparagraph (A) in the individual market, the issuer may not provide for the issuance of any health insurance coverage in the market and State involved during the 5-year period beginning on the date of the discontinuation of the last health insurance coverage not so renewed.

(d) Exception for uniform modification of coverage

At the time of coverage renewal, a health insurance issuer may modify the health insurance coverage for a policy form offered to individuals in the individual market so long as such modification is consistent with State law and effective on a uniform basis among all individuals with that policy form.

(e) Application to coverage offered only through associations

In applying this section in the case of health insurance coverage that is made available by a health insurance issuer in the individual market to individuals only through one or more associations, a reference to an "individual" is deemed to include a reference to such an association (of which the individual is a member).

§300gg–44. State flexibility in individual market reforms

(a) Waiver of requirements where implementation of acceptable alternative mechanism

(1) In general

The requirements of section 300gg–41 of this title shall not apply with respect to health insurance coverage offered in the individual market in the State so long as a State is found to be implementing, in accordance with this section and consistent with section 300gg–62(b) of this title, an alternative mechanism (in this section referred to as an "acceptable alternative mechanism")—

(A) under which all eligible individuals are provided a choice of health insurance coverage;

(B) under which such coverage does not impose any preexisting condition exclusion with respect to such coverage;

(C) under which such choice of coverage includes at least one policy form of coverage that is comparable to comprehensive health insurance coverage offered in the individual market in such State or that is comparable to a standard option of coverage available under the group or individual health insurance laws of such State; and

(D) in a State which is implementing—

- (i) a model act described in subsection (c)(1),
- (ii) a qualified high risk pool described in subsection (c)(2), or
- (iii) a mechanism described in subsection (c)(3).

(2) Permissible forms of mechanisms

A private or public individual health insurance mechanism (such as a health insurance coverage pool or programs, mandatory group conversion policies, guaranteed issue of one or more plans of individual health insurance coverage, or open enrollment by one or more health insurance issuers), or combination of such mechanisms, that is designed to provide access to health benefits for individuals in the individual market in the State in accordance with this section may constitute an acceptable alternative mechanism.

(b) Application of acceptable alternative mechanisms

(1) Presumption

(A) In general

Subject to the succeeding provisions of this subsection, a State is presumed to be implementing an acceptable alternative mechanism in accordance with this section as of July 1, 1997, if, by not later than April 1, 1997, the chief executive officer of a State—

(i) notifies the Secretary that the State has enacted or intends to enact (by not later than January 1, 1998, or July 1, 1998, in the case of a State described in subparagraph (B)(ii)) any necessary legislation to provide for the implementation of a mechanism reasonably designed to be an acceptable alternative mechanism as of January 1, 1998,¹ (or, in the case of a State described in subparagraph (B)(ii), July 1, 1998); and

(ii) provides the Secretary with such information as the Secretary may require to review the mechanism and its implementation (or proposed implementation) under this subsection.

(B) Delay permitted for certain States

(i) Effect of delay

In the case of a State described in clause (ii) that provides notice under subparagraph (A)(i), for the presumption to continue on and after July 1, 1998, the chief executive officer of the State by April 1, 1998—

(I) must notify the Secretary that the State has enacted any necessary legislation to provide for the implementation of a mechanism reasonably designed to be an acceptable alternative mechanism as of July 1, 1998; and

(II) must provide the Secretary with such information as the Secretary may require to review the mechanism and its implementation (or proposed implementation) under this subsection.

(ii) States described

A State described in this clause is a State that has a legislature that does not meet within the 12-month period beginning on August 21, 1996.

(C) Continued application

In order for a mechanism to continue to be presumed to be an acceptable alternative mechanism, the State shall provide the Secretary every 3 years with information described in subparagraph (A)(ii) or (B)(i)(II) (as the case may be).

(2) Notice

If the Secretary finds, after review of information provided under paragraph (1) and in consultation with the chief executive officer of the State and the insurance commissioner or chief insurance regulatory official of the State, that such a mechanism is not an acceptable alternative mechanism or is not (or no longer) being implemented, the Secretary—

(A) shall notify the State of—

(i) such preliminary determination, and

(ii) the consequences under paragraph (3) of a failure to implement such a mechanism; and

(B) shall permit the State a reasonable opportunity in which to modify the mechanism (or to adopt another mechanism) in a manner so that may be an acceptable alternative mechanism or to provide for implementation of such a mechanism.

(3) Final determination

If, after providing notice and opportunity under paragraph (2), the Secretary finds that the mechanism is not an acceptable alternative mechanism or the State is not implementing such a mechanism, the Secretary shall notify the State that the State is no longer considered to be implementing an acceptable alternative mechanism and that the requirements of section 300gg–41 of this title shall apply to health insurance coverage offered in the individual market in the State, effective as of a date specified in the notice.

(4) Limitation on secretarial authority

The Secretary shall not make a determination under paragraph (2) or (3) on any basis other than the basis that a mechanism is not an acceptable alternative mechanism or is not being implemented.

(5) Future adoption of mechanisms

If a State, after January 1, 1997, submits the notice and information described in paragraph (1), unless the Secretary makes a finding described in paragraph (3) within the 90-day period beginning on the date of submission of the notice and information, the mechanism shall be considered to be an acceptable alternative mechanism for purposes of this section, effective 90 days after the end of such period, subject to the second sentence of paragraph (1).

(c) Provision related to risk

(1) Adoption of NAIC models

The model act referred to in subsection (a)(1)(D)(i) is the Small Employer and Individual Health Insurance Availability Model Act (adopted by the National Association of Insurance Commissioners on June 3, 1996) insofar as it applies to individual health insurance coverage or the Individual Health Insurance Portability Model Act (also adopted by such Association on such date).

(2) Qualified high risk pool

For purposes of subsection (a)(1)(D)(ii), a "qualified high risk pool" described in this paragraph is a high risk pool that—

(A) provides to all eligible individuals health insurance coverage (or comparable coverage) that does not impose any preexisting condition exclusion with respect to such coverage for all eligible individuals, and

(B) provides for premium rates and covered benefits for such coverage consistent with standards included in the NAIC Model Health Plan for Uninsurable Individuals Act (as in effect as of August 21, 1996).

(3) Other mechanisms

§300gg–45. Relief for high risk pools

(a) Seed grants to States

The Secretary shall provide from the funds appropriated under subsection (d)(1)(A) a grant of up to \$1,000,000 to each State that has not created a qualified high risk pool as of February 10, 2006, for the State's costs of creation and initial operation of such a pool.

(b) Grants for operational losses

(1) In general

In the case of a State that has established a qualified high risk pool that—

(A) restricts premiums charged under the pool to no more than 200 percent of the premium for applicable standard risk rates;

(B) offers a choice of two or more coverage options through the pool; and

(C) has in effect a mechanism reasonably designed to ensure continued funding of losses incurred by the State in connection with operation of the pool after the end of the last fiscal year for which a grant is provided under this paragraph;

the Secretary shall provide, from the funds appropriated under paragraphs (1)(B)(i) and (2)(A) of subsection (d) and allotted to the State under paragraph (2), a grant for the losses incurred by the State in connection with the operation of the pool.

(2) Allotment

Subject to paragraph (4), the amounts appropriated under paragraphs (1)(B)(i) and (2)(A) of subsection (d) for a fiscal year shall be allotted and made available to the States (or the entities that operate the high risk pool under applicable State law) that qualify for a grant under paragraph (1) as follows:

(A) An amount equal to 40 percent of such appropriated amount for the fiscal year shall be allotted in equal amounts to each qualifying State that is one of the 50 States or the District of Columbia and that applies for a grant under this subsection.

(B) An amount equal to 30 percent of such appropriated amount for the fiscal year shall be allotted among qualifying States that apply for such a grant so that the amount allotted to such a State bears the same ratio to such appropriated amount as the number of uninsured individuals in the State bears to the total number of uninsured individuals (as determined by the Secretary) in all qualifying States that so apply.

(C) An amount equal to 30 percent of such appropriated amount for the fiscal year shall be allotted among qualifying States that apply for such a grant so that the amount allotted to a State bears the same ratio to such appropriated amount as the number of individuals enrolled in health care coverage through the qualified high risk pool of the State bears to the total number of individuals so enrolled through qualified high risk pools (as determined by the Secretary) in all qualifying States that so apply.

(3) Special rule for pools charging higher premiums

In the case of a qualified high risk pool of a State which charges premiums that exceed 150 percent of the premium for applicable standard risks, the State shall use at least 50 percent of the amount of the grant provided to the State to carry out this subsection to reduce premiums for enrollees.

(4) Limitation for territories

In no case shall the aggregate amount allotted and made available under paragraph (2) for a fiscal year to States that are not the 50 States or the District of Columbia exceed \$1,000,000.

(c) Bonus grants for supplemental consumer benefits

(1) In general

In the case of a State that is one of the 50 States or the District of Columbia, that has established a qualified high risk pool, and that is receiving a grant under subsection (b)(1), the Secretary shall

provide, from the funds appropriated under paragraphs (1)(B)(ii) and (2)(B) of subsection (d) and allotted to the State under paragraph (3), a grant to be used to provide supplemental consumer benefits to enrollees or potential enrollees (or defined subsets of such enrollees or potential enrollees) in qualified high risk pools.

(2) Benefits

A State shall use amounts received under a grant under this subsection to provide one or more of the following benefits:

(A) Low-income premium subsidies.

(B) A reduction in premium trends, actual premiums, or other cost-sharing requirements.

(C) An expansion or broadening of the pool of individuals eligible for coverage, such as through eliminating waiting lists, increasing enrollment caps, or providing flexibility in enrollment rules.

(D) Less stringent rules, or additional waiver authority, with respect to coverage of pre-existing conditions.

(E) Increased benefits.

(F) The establishment of disease management programs.

(3) Allotment; limitation

The Secretary shall allot funds appropriated under paragraphs (1)(B)(ii) and (2)(B) of subsection (d) among States qualifying for a grant under paragraph (1) in a manner specified by the Secretary, but in no case shall the amount so allotted to a State for a fiscal year exceed 10 percent of the funds so appropriated for the fiscal year.

(4) Rule of construction

Nothing in this subsection shall be construed to prohibit a State that, on February 10, 2006, is in the process of implementing a program to provide benefits of the type described in paragraph (2), from being eligible for a grant under this subsection.

(d) Funding

(1) Appropriation for fiscal year 2006

There are authorized to be appropriated for fiscal year 2006—

(A) \$15,000,000 to carry out subsection (a); and

(ii) one-third of the amount appropriated shall be made available for allotments under subsection (c)(3).

(2) Authorization of appropriations for fiscal years 2007 through 2010

There are authorized to be appropriated \$75,000,000 for each of fiscal years 2007 through 2010, of which, subject to paragraph (4)—

(A) two-thirds of the amount appropriated for a fiscal year shall be made available for allotments under subsection (b)(2); and

(B) one-third of the amount appropriated for a fiscal year shall be made available for allotments under subsection (c)(3).

(3) Availability

Funds appropriated for purposes of carrying out this section for a fiscal year shall remain available for obligation through the end of the following fiscal year.

(4) Reallotment

If, on June 30 of each fiscal year for which funds are appropriated under paragraph (1)(B) or (2), the Secretary determines that all the amounts so appropriated are not allotted or otherwise

made available to States, such remaining amounts shall be allotted and made available under subsection (b) among States receiving grants under subsection (b) for the fiscal year based upon the allotment formula specified in such subsection.

(5) No entitlement

Nothing in this section shall be construed as providing a State with an entitlement to a grant under this section.

(e) Applications

To be eligible for a grant under this section, a State shall submit to the Secretary an application at such time, in such manner, and containing such information as the Secretary may require.

(f) Annual report

The Secretary shall submit to Congress an annual report on grants provided under this section. Each such report shall include information on the distribution of such grants among States and the use of grant funds by States.

(g) Definitions

In this section:

(1) Qualified high risk pool

(A) ¹ In general

The term "qualified high risk pool" has the meaning given such term in section 300gg-44(c)(2) of this title, except that a State may elect to meet the requirement of subparagraph (A) of such section (insofar as it requires the provision of coverage to all eligible individuals) through providing for the enrollment of eligible individuals through an acceptable alternative mechanism (as defined for purposes of section 300gg-44 of this title) that includes a high risk pool as a component.

(2) Standard risk rate

The term "standard risk rate" means a rate—

(A) determined under the State high risk pool by considering the premium rates charged by other health insurers offering health insurance coverage to individuals in the insurance market served;

(B) that is established using reasonable actuarial techniques; and

(C) that reflects anticipated claims experience and expenses for the coverage involved.

(3) State

The term "State" means any of the 50 States and the District of Columbia and includes Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

(2) Rule of construction

Nothing in paragraph (1) or in paragraphs (1) and (2) of subsection (e) shall be construed to preclude a health insurance issuer from establishing rules for eligibility for an individual to enroll in individual health insurance coverage based on the manifestation of a disease or disorder in that individual, or in a family member of such individual where such family member is covered under the policy that covers such individual.

(b) Prohibition on genetic information in setting premium rates

(2) Rule of construction

Nothing in paragraph (1) or in paragraphs (1) and (2) of subsection (e) shall be construed to preclude a health insurance issuer from adjusting premium or contribution amounts for an individual on the basis of a manifestation of a disease or disorder in that individual, or in a family member of such individual where such family member is covered under the policy that covers such individual. In such case, the manifestation of a disease or disorder in one individual cannot also be used as genetic information about other individuals covered under the policy issued to such individual and to further increase premiums or contribution amounts.

(c) Prohibition on genetic information as preexisting condition

(1) In general

A health insurance issuer offering health insurance coverage in the individual market may not, on the basis of genetic information, impose any preexisting condition exclusion (as defined in section 2701(b)(1)(A)) ¹ with respect to such coverage.

(2) Rule of construction

(3) Rule of construction regarding payment

(A) In general

Nothing in paragraph (1) shall be construed to preclude a health insurance issuer offering health insurance coverage in the individual market from obtaining and using the results of a genetic test in making a determination regarding payment (as such term is defined for the purposes of applying the regulations promulgated by the Secretary under part C of title XI of the Social Security Act [42 U.S.C. 1320d et seq.] and section 264 of the Health Insurance Portability and Accountability Act of 1996, as may be revised from time to time) consistent with subsection ² (a) and (c).

(B) Limitation

For purposes of subparagraph (A), a health insurance issuer offering health insurance coverage in the individual market may request only the minimum amount of information necessary to accomplish the intended purpose.

PART D—ADDITIONAL COVERAGE PROVISIONS

(a) Coverage of emergency services

(1) In general

If a group health plan, or a health insurance issuer offering group or individual health insurance coverage, provides or covers any benefits with respect to services in an emergency department of a hospital or with respect to emergency services in an independent freestanding emergency department (as defined in paragraph (3)(D)), the plan or issuer shall cover emergency services (as defined in paragraph (3)(C))—

(A) without the need for any prior authorization determination;

(B) whether the health care provider furnishing such services is a participating provider or a participating emergency facility, as applicable, with respect to such services;

(C) in a manner so that, if such services are provided to a participant, beneficiary, or enrollee by a nonparticipating provider or a nonparticipating emergency facility—

(i) such services will be provided without imposing any requirement under the plan or coverage for prior authorization of services or any limitation on coverage that is more restrictive than the requirements or limitations that apply to emergency services received from participating providers and participating emergency facilities with respect to such plan or coverage, respectively;

(ii) the cost-sharing requirement is not greater than the requirement that would apply if such services were provided by a participating provider or a participating emergency facility;

(iii) such cost-sharing requirement is calculated as if the total amount that would have been charged for such services by such participating provider or participating emergency facility were equal to the recognized amount (as defined in paragraph (3)(H)) for such services, plan or coverage, and year;

(iv) the group health plan or health insurance issuer, respectively—

(I) not later than 30 calendar days after the bill for such services is transmitted by such provider or facility, sends to the provider or facility, as applicable, an initial payment or notice of denial of payment; and

(II) pays a total plan or coverage payment directly to such provider or facility, respectively (in accordance, if applicable, with the timing requirement described in subsection (c)(6)) that is, with application of any initial payment under subclause (I), equal to the amount by which the out-of-network rate (as defined in paragraph (3)(K)) for such services exceeds the cost-sharing amount for such services (as determined in accordance with clauses (ii) and (iii)) and year; and

(v) any cost-sharing payments made by the participant, beneficiary, or enrollee with respect to such emergency services so furnished shall be counted toward any in-network deductible or out-of-pocket maximums applied under the plan or coverage, respectively (and

such in-network deductible and out-of-pocket maximums shall be applied) in the same manner as if such cost-sharing payments were made with respect to emergency services furnished by a participating provider or a participating emergency facility; and

(D) without regard to any other term or condition of such coverage (other than exclusion or coordination of benefits, or an affiliation or waiting period, permitted under section 300gg-3 of this title, including as incorporated pursuant to section 1185d of title 29 and section 9815 of title 26, and other than applicable cost-sharing).

(2) Audit process and regulations for qualifying payment amounts

(A) Audit process

(i) In general

Not later than October 1, 2021, the Secretary, in consultation with the Secretary of Labor and the Secretary of the Treasury, shall establish through rulemaking a process, in accordance with clause (ii), under which group health plans and health insurance issuers offering group or individual health insurance coverage are audited by the Secretary or applicable State authority to ensure that—

(I) such plans and coverage are in compliance with the requirement of applying a qualifying payment amount under this section; and

(II) such qualifying payment amount so applied satisfies the definition under paragraph (3)(E) with respect to the year involved, including with respect to a group health plan or health insurance issuer described in clause (ii) of such paragraph (3)(E).

(ii) Audit samples

Under the process established pursuant to clause (i), the Secretary—

(I) shall conduct audits described in such clause, with respect to a year (beginning with 2022), of a sample with respect to such year of claims data from not more than 25 group health plans and health insurance issuers offering group or individual health insurance coverage; and

(II) may audit any group health plan or health insurance issuer offering group or individual health insurance coverage if the Secretary has received any complaint or other information about such plan or coverage, respectively, that involves the compliance of the plan or coverage, respectively, with either of the requirements described in subclauses (I) and (II) of such clause.

(iii) Reports

Beginning for 2022, the Secretary shall annually submit to Congress a report on the number of plans and issuers with respect to which audits were conducted during such year pursuant to this subparagraph.

(B) Rulemaking

Not later than July 1, 2021, the Secretary, in consultation with the Secretary of Labor and the Secretary of the Treasury, shall establish through rulemaking—

(i) the methodology the group health plan or health insurance issuer offering group or individual health insurance coverage shall use to determine the qualifying payment amount, differentiating by individual market, large group market, and small group market;

(ii) the information such plan or issuer, respectively, shall share with the nonparticipating provider or nonparticipating facility, as applicable, when making such a determination;

(iii) the geographic regions applied for purposes of this subparagraph, taking into account access to items and services in rural and underserved areas, including health professional shortage areas, as defined in section 254e of this title; and

(iv) a process to receive complaints of violations of the requirements described in subclauses (I) and (II) of subparagraph (A)(i) by group health plans and health insurance issuers offering group or individual health insurance coverage.

Such rulemaking shall take into account payments that are made by such plan or issuer, respectively, that are not on a fee-for-service basis. Such methodology may account for relevant payment adjustments that take into account quality or facility type (including higher acuity settings and the case-mix of various facility types) that are otherwise taken into account for purposes of determining payment amounts with respect to participating facilities. In carrying out clause (iii), the Secretary shall consult with the National Association of Insurance Commissioners to establish the geographic regions under such clause and shall periodically update such regions, as appropriate, taking into account the findings of the report submitted under section 109(a) of the No Surprises Act.

(3) Definitions

In this part and part E:

(A) Emergency department of a hospital

The term "emergency department of a hospital" includes a hospital outpatient department that provides emergency services (as defined in subparagraph (C)(i)).

(B) Emergency medical condition

The term "emergency medical condition" means a medical condition manifesting itself by acute symptoms of sufficient severity (including severe pain) such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate medical attention to result in a condition described in clause (i), (ii), or (iii) of section 1867(e)(1)(A) of the Social Security Act [42 U.S.C. 1395dd(e)(1)(A)].

(C) Emergency services

(i) In general

The term "emergency services", with respect to an emergency medical condition, means—

(I) a medical screening examination (as required under section 1867 of the Social Security Act [42 U.S.C. 1395dd], or as would be required under such section if such section applied to an independent freestanding emergency department) that is within the capability of the emergency department of a hospital or of an independent freestanding emergency department, as applicable, including ancillary services routinely available to the emergency department to evaluate such emergency medical condition; and

(II) within the capabilities of the staff and facilities available at the hospital or the independent freestanding emergency department, as applicable, such further medical examination and treatment as are required under section 1395dd of this title, or as would be required under such section if such section applied to an independent freestanding emergency department, to stabilize the patient (regardless of the department of the hospital in which such further examination or treatment is furnished).

(ii) Inclusion of additional services

(I) In general

For purposes of this subsection and section 300gg–131 of this title, in the case of a participant, beneficiary, or enrollee who is enrolled in a group health plan or group or individual health insurance coverage offered by a health insurance issuer and who is furnished services described in clause (i) with respect to an emergency medical condition, the term "emergency services" shall include, unless each of the conditions described in subclause (II) are met, in addition to the items and services described in clause (i), items and services—

(aa) for which benefits are provided or covered under the plan or coverage, respectively; and

(bb) that are furnished by a nonparticipating provider or nonparticipating emergency facility (regardless of the department of the hospital in which such items or services are

furnished) after the participant, beneficiary, or enrollee is stabilized and as part of outpatient observation or an inpatient or outpatient stay with respect to the visit in which the services described in clause (i) are furnished.

(II) Conditions

For purposes of subclause (I), the conditions described in this subclause, with respect to a participant, beneficiary, or enrollee who is stabilized and furnished additional items and services described in subclause (I) after such stabilization by a provider or facility described in subclause (I), are the following:

(aa) Such provider or facility determines such individual is able to travel using nonmedical transportation or nonemergency medical transportation.

(bb) Such provider furnishing such additional items and services satisfies the notice and consent criteria of section 300gg–132(d) of this title with respect to such items and services.

(cc) Such individual is in a condition to receive (as determined in accordance with guidelines issued by the Secretary pursuant to rulemaking) the information described in section 300gg–132 of this title and to provide informed consent under such section, in accordance with applicable State law.

(dd) Such other conditions, as specified by the Secretary, such as conditions relating to coordinating care transitions to participating providers and facilities.

(D) Independent freestanding emergency department

The term "independent freestanding emergency department" means a health care facility that—

(i) is geographically separate and distinct and licensed separately from a hospital under applicable State law; and

(ii) provides any of the emergency services (as defined in subparagraph (C)(i)).

(E) Qualifying payment amount

(i) In general

The term "qualifying payment amount" means, subject to clauses (ii) and (iii), with respect to a sponsor of a group health plan and health insurance issuer offering group or individual health insurance coverage—

(I) for an item or service furnished during 2022, the median of the contracted rates recognized by the plan or issuer, respectively (determined with respect to all such plans of such sponsor or all such coverage offered by such issuer that are offered within the same insurance market (specified in subclause (I), (II), (III), or (IV) of clause (iv)) as the plan or coverage) as the total maximum payment (including the cost-sharing amount imposed for such item or service and the amount to be paid by the plan or issuer, respectively) under such plans or coverage, respectively, on January 31, 2019, for the same or a similar item or service that is provided by a provider in the same or similar specialty and provided in the geographic region in which the item or service is furnished, consistent with the methodology established by the Secretary under paragraph (2)(B), increased by the percentage increase in the consumer price index for all urban consumers (United States city average) over 2019, such percentage increase over 2020, and such percentage increase over 2021; and

(II) for an item or service furnished during 2023 or a subsequent year, the qualifying payment amount determined under this clause for such an item or service furnished in the previous year, increased by the percentage increase in the consumer price index for all urban consumers (United States city average) over such previous year.

(ii) New plans and coverage

The term "qualifying payment amount" means, with respect to a sponsor of a group health plan or health insurance issuer offering group or individual health insurance coverage in a

geographic region in which such sponsor or issuer, respectively, did not offer any group health plan or health insurance coverage during 2019—

(I) for the first year in which such group health plan, group health insurance coverage, or individual health insurance coverage, respectively, is offered in such region, a rate (determined in accordance with a methodology established by the Secretary) for items and services that are covered by such plan or coverage and furnished during such first year; and

(II) for each subsequent year such group health plan, group health insurance coverage, or individual health insurance coverage, respectively, is offered in such region, the qualifying payment amount determined under this clause for such items and services furnished in the previous year, increased by the percentage increase in the consumer price index for all urban consumers (United States city average) over such previous year.

(iii) Insufficient information; newly covered items and services

In the case of a sponsor of a group health plan or health insurance issuer offering group or individual health insurance coverage that does not have sufficient information to calculate the median of the contracted rates described in clause (i)(I) in 2019 (or, in the case of a newly covered item or service (as defined in clause (v)(III)), in the first coverage year (as defined in clause (v)(I)) for such item or service with respect to such plan or coverage) for an item or service (including with respect to provider type, or amount, of claims for items or services (as determined by the Secretary) provided in a particular geographic region (other than in a case with respect to which clause (ii) applies)) the term "qualifying payment amount"—

(I) for an item or service furnished during 2022 (or, in the case of a newly covered item or service, during the first coverage year for such item or service with respect to such plan or coverage), means such rate for such item or service determined by the sponsor or issuer, respectively, through use of any database that is determined, in accordance with rulemaking described in paragraph (2)(B), to not have any conflicts of interest and to have sufficient information reflecting allowed amounts paid to a health care provider or facility for relevant services furnished in the applicable geographic region (such as a State all-payer claims database);

(II) for an item or service furnished in a subsequent year (before the first sufficient information year (as defined in clause (v)(II)) for such item or service with respect to such plan or coverage), means the rate determined under subclause (I) or this subclause, as applicable, for such item or service for the year previous to such subsequent year, increased by the percentage increase in the consumer price index for all urban consumers (United States city average) over such previous year;

(III) for an item or service furnished in the first sufficient information year for such item or service with respect to such plan or coverage, has the meaning given the term qualifying payment amount in clause (i)(I), except that in applying such clause to such item or service, the reference to "furnished during 2022" shall be treated as a reference to furnished during such first sufficient information year, the reference to "in 2019" ¹ shall be treated as a reference to such sufficient information year, and the increase described in such clause shall not be applied; and

For purposes of this subsection, the open negotiation period, with respect to an item or service, is the 30-day period beginning on the date of initiation of the negotiations with respect to such item or service.

(B) Accessing independent dispute resolution process in case of failed negotiations

In the case of open negotiations pursuant to subparagraph (A), with respect to an item or

(B) Authority to continue negotiations

Under the independent dispute resolution process, in the case that the parties to a determination for a qualified IDR item or service agree on a payment amount for such item or service during such process but before the date on which the entity selected with respect to such determination under paragraph (4) makes such determination under paragraph (5), such amount shall be treated for purposes of subsection (a)(3)(K)(ii) as the amount agreed to by such parties for such item or service. (C) Clarification

A nonparticipating provider may not, with respect to an item or service furnished by such provider, submit a notification under paragraph (1)(B) if such provider is exempt from the requirement under subsection (a) of section 300gg-132 of this title with respect to such item or service pursuant to subsection (b) of such section.

- (iii) such items and services are related to the treatment of a similar condition; and

on which the first item or service included with respect to such determination was furnished or an alternative period as determined by the Secretary, for use in limited situations, such as by the consent of the parties or in the case of low-volume items and services, to encourage procedural efficiency and minimize health plan and provider administrative costs.

(B) Treatment of bundled payments

In carrying out subparagraph (A), the Secretary shall provide that, in the case of items and services which are included by a provider or facility as part of a bundled payment, such items and services included in such bundled payment may be part of a single determination under this subsection.

(B) Period of certification

Subject to subparagraph (C), each certification (including a recertification) of an entity under the process described in subparagraph (A) shall be for a 5-year period.

(I) select such an entity that satisfies subclauses (I) through (III) of clause (i); ² and

(II) provide notification of such selection to the provider or facility (as applicable) and the plan or issuer (as applicable) party to such determination.

(D) Prohibition on consideration of certain factors

In determining which offer is the payment to be applied with respect to qualified IDR items and services furnished by a provider or facility, the certified IDR entity with respect to a determination shall not consider usual and customary charges, the amount that would have been billed by such provider or facility with respect to such items and services had the provisions of section 300gg–131 or 300gg–132 of this title (as applicable) not applied, or the payment or reimbursement rate for such items and services furnished by such provider or facility payable by a public payor, including under the Medicare program under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], under the Medicaid program under title XIX of such Act [42 U.S.C. 1396 et seq.], under the Children's Health Insurance Program under title XXI of such Act [42 U.S.C. 1397aa et seq.], under the TRICARE program under chapter 55 of title 10, or under chapter 17 of title 38.

(iv) Reports

The Secretary, jointly with the Secretary of Labor and the Secretary of the Treasury, shall examine the impact of the application of clause (ii) and whether the application of such clause delays payment determinations or impacts early, alternative resolution of claims (such as through open negotiations), and shall submit to Congress, not later than 2 years after the date of implementation of such clause an interim report (and not later than 4 years after such date of implementation, a final report) on whether any group health plans or health insurance issuers offering group or individual health insurance coverage or types of such plans or coverage have a pattern or practice of routine denial, low payment, or down-coding of claims, or otherwise abuse the 90-day period described in such clause, including recommendations on ways to discourage such a pattern or practice.

§300gg–112. Ending surprise air ambulance bills

(a) In general

In the case of a participant, beneficiary, or enrollee who is in a group health plan or group or individual health insurance coverage offered by a health insurance issuer and who receives air ambulance services from a nonparticipating provider (as defined in section 300gg–111(a)(3)(G) of this title) with respect to such plan or coverage, if such services would be covered if provided by a participating provider (as defined in such section) with respect to such plan or coverage—

(1) the cost-sharing requirement with respect to such services shall be the same requirement that would apply if such services were provided by such a participating provider, and any coinsurance or deductible shall be based on rates that would apply for such services if they were furnished by such a participating provider;

(2) such cost-sharing amounts shall be counted towards the in-network deductible and in-network out-of-pocket maximum amount under the plan or coverage for the plan year (and such in-network deductible shall be applied) with respect to such items and services so furnished in the same manner as if such cost-sharing payments were with respect to items and services furnished by a participating provider; and

(3) the group health plan or health insurance issuer, respectively, shall—

(A) not later than 30 calendar days after the bill for such services is transmitted by such provider, send to the provider, an initial payment or notice of denial of payment; and

(B) pay a total plan or coverage payment, in accordance with, if applicable, subsection (b)(6), directly to such provider furnishing such services to such participant, beneficiary, or enrollee that is, with application of any initial payment under subparagraph (A), equal to the amount by which the out-of-network rate (as defined in section 300gg-111(a)(3)(K) of this title) for such services and year involved exceeds the cost-sharing amount imposed under the plan or coverage, respectively, for such services (as determined in accordance with paragraphs (1) and (2)).

(b) Determination of out-of-network rates to be paid by health plans; independent dispute resolution process

(1) Determination through open negotiation

(A) In general

With respect to air ambulance services furnished in a year by a nonparticipating provider, with respect to a group health plan or health insurance issuer offering group or individual health insurance coverage, and for which a payment is required to be made by the plan or coverage pursuant to subsection (a)(3), the provider or plan or coverage may, during the 30-day period beginning on the day the provider receives an initial payment or a notice of denial of payment from the plan or coverage regarding a claim for payment for such service, initiate open negotiations under this paragraph between such provider and plan or coverage for purposes of determining, during the open negotiation period, an amount agreed on by such provider, and such plan or coverage for payment (including any cost-sharing) for such service. For purposes of this subsection, the open negotiation period, with respect to air ambulance services, is the 30-day period beginning on the date of initiation of the negotiations with respect to such services.

(B) Accessing independent dispute resolution process in case of failed negotiations

In the case of open negotiations pursuant to subparagraph (A), with respect to air ambulance services, that do not result in a determination of an amount of payment for such services by the last day of the open negotiation period described in such subparagraph with respect to such services, the provider or group health plan or health insurance issuer offering group or individual health insurance coverage that was party to such negotiations may, during the 4-day period beginning on the day after such open negotiation period, initiate the independent dispute resolution process under paragraph (2) with respect to such item or service. The independent dispute resolution process shall be initiated by a party pursuant to the previous sentence by submission to the other party and to the Secretary of a notification (containing such information as specified by the Secretary) and for purposes of this subsection, the date of initiation of such process shall be the date of such submission or such other date specified by the Secretary pursuant to regulations that is not later than the date of receipt of such notification by both the other party and the Secretary.

(2) Independent dispute resolution process available in case of failed open negotiations

(A) Establishment

Not later than 1 year after December 27, 2020, the Secretary, jointly with the Secretary of Labor and the Secretary of the Treasury, shall establish by regulation one independent dispute resolution process (referred to in this subsection as the "IDR process") under which, in the case of air ambulance services with respect to which a provider or group health plan or health insurance issuer offering group or individual health insurance coverage submits a notification under paragraph (1)(B) (in this subsection referred to as a "qualified IDR air ambulance

services"), a certified IDR entity under paragraph (4) determines, subject to subparagraph (B) and in accordance with the succeeding provisions of this subsection, the amount of payment under the plan or coverage for such services furnished by such provider.

(B) Authority to continue negotiations

Under the independent dispute resolution process, in the case that the parties to a determination for qualified IDR air ambulance services agree on a payment amount for such services during such process but before the date on which the entity selected with respect to such determination under paragraph (4) makes such determination under paragraph (5), such amount shall be treated for purposes of section 300gg–111(a)(3)(K)(ii) of this title as the amount agreed to by such parties for such services. In the case of an agreement described in the previous sentence, the independent dispute resolution process shall provide for a method to determine how to allocate between the parties to such determination the payment of the compensation of the entity selected with respect to such determination.

(C) Clarification

A nonparticipating provider may not, with respect to an item or service furnished by such provider, submit a notification under paragraph (1)(B) if such provider is exempt from the requirement under subsection (a) of section 300gg–132 of this title with respect to such item or service pursuant to subsection (b) of such section.

(3) Treatment of batching of services

The provisions of section 300gg–111(c)(3) of this title shall apply with respect to a notification submitted under this subsection with respect to air ambulance services in the same manner and to the same extent such provisions apply with respect to a notification submitted under section 300gg–111(c) of this title with respect to items and services described in such section.

(4) IDR entities

(A) Eligibility

An IDR entity certified under this subsection is an IDR entity certified under section 300gg–111(c)(4) of this title.

(B) Selection of certified IDR entity

The provisions of subparagraph (F) of section 300gg–111(c)(4) of this title shall apply with respect to selecting an IDR entity certified pursuant to subparagraph (A) with respect to the determination of the amount of payment under this subsection of air ambulance services in the same manner as such provisions apply with respect to selecting an IDR entity certified under such section with respect to the determination of the amount of payment under section 300gg–111(c) of this title of an item or service. An entity selected pursuant to the previous sentence to make a determination described in such sentence shall be referred to in this subsection as the "certified IDR entity" with respect to such determination.

(5) Payment determination

(A) In general

Not later than 30 days after the date of selection of the certified IDR entity with respect to a determination for qualified IDR ambulance services, the certified IDR entity shall—

(ii) notify the provider or facility and the group health plan or health insurance issuer offering group or individual health insurance coverage party to such determination of the offer selected under clause (i).

(B) Submission of offers

(iii) Prohibition on consideration of certain factors

In determining which offer is the payment amount to be applied with respect to qualified IDR air ambulance services furnished by a provider, the certified IDR entity with respect to such determination shall not consider usual and customary charges, the amount that would have been billed by such provider with respect to such services had the provisions of section 300gg–135 of this title not applied, or the payment or reimbursement rate for such services furnished by such provider payable by a public payor, including under the Medicare program under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], under the Medicaid program under title XIX of such Act [42 U.S.C. 1396 et seq.], under the Children's Health Insurance Program under title XXI of such Act [42 U.S.C. 1397aa et seq.], under the TRICARE program under chapter 55 of title 10, or under chapter 17 of title 38.

§300gg–132. Balance billing in cases of non-emergency services performed by

nonparticipating providers at certain participating facilities

(a) In general

Subject to subsection (b), in the case of a participant, beneficiary, or enrollee with benefits under a group health plan or group or individual health insurance coverage offered by a health insurance issuer and who is furnished during a plan year beginning on or after January 1, 2022, items or services (other than emergency services to which section 300gg–131 of this title applies) for which benefits are provided under the plan or coverage at a participating health care facility by a nonparticipating provider, such provider shall not bill, and shall not hold liable, such participant, beneficiary, or enrollee for a payment amount for such an item or service furnished by such provider with respect to a visit at such facility that is more than the cost-sharing requirement for such item or service (as determined in accordance with subparagraphs (A) and (B) of section 300gg–111(b)(1) of this title ¹ of section 9816(b)(1) of title 26, and of section 1185e(b)(1) of title 29, as applicable).

(b) Exception

(1) In general

Subsection (a) shall not apply with respect to items or services (other than ancillary services described in paragraph (2)) furnished by a nonparticipating provider to a participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer, if the provider satisfies the notice and consent criteria of subsection (d).

(2) Ancillary services described

For purposes of paragraph (1), ancillary services described in this paragraph are, with respect to a participating health care facility—

(C) items and services provided by such other specialty practitioners, as the Secretary specifies through rulemaking; and

(D) items and services provided by a nonparticipating provider if there is no participating provider who can furnish such item or service at such facility.

(3) Exception

The Secretary may, through rulemaking, establish a list (and update such list periodically) of advanced diagnostic laboratory tests, which shall not be included as an ancillary service described in paragraph (2) and with respect to which subsection (a) would apply.

(c) Clarification

In the case of a nonparticipating provider that satisfies the notice and consent criteria of subsection (d) with respect to an item or service (referred to in this subsection as a "covered item or service"), such notice and consent criteria may not be construed as applying with respect to any item or service that is furnished as a result of unforeseen, urgent medical needs that arise at the time such covered item or service is furnished. For purposes of the previous sentence, a covered item or service shall not include an ancillary service described in subsection (b)(2).

(d) Notice and consent to be treated by a nonparticipating provider or nonparticipating facility

(1) In general

A nonparticipating provider or nonparticipating facility satisfies the notice and consent criteria of this subsection, with respect to items or services furnished by the provider or facility to a

participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer, if the provider (or, if applicable, the participating health care facility on behalf of such provider) or nonparticipating facility—

(i) contains the information required under paragraph (2);

(ii) clearly states that consent to receive such items and services from such nonparticipating provider or nonparticipating facility is optional and that the participant, beneficiary, or enrollee may instead seek care from a participating provider or at a participating facility, with respect to such plan or coverage, as applicable, in which case the cost-sharing responsibility of the participant, beneficiary, or enrollee would not exceed such responsibility that would apply with respect to such an item or service that is furnished by a participating provider or participating facility, as applicable with respect to such plan; and

(iii) is available in the 15 most common languages in the geographic region of the applicable facility;

(B) obtains from the participant, beneficiary, or enrollee (or from such an authorized representative) the consent described in paragraph (3) to be treated by a nonparticipating provider or nonparticipating facility; and

(C) provides a signed copy of such consent to the participant, beneficiary, or enrollee through mail or email (as selected by the participant, beneficiary, or enrollee).

(2) Information required under written notice

For purposes of paragraph (1)(A)(i), the information described in this paragraph, with respect to a nonparticipating provider or nonparticipating facility and a participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer, is each of the following:

(A) Notification, as applicable, that the health care provider is a nonparticipating provider with respect to the health plan or the health care facility is a nonparticipating facility with respect to the health plan.

(B) Notification of the good faith estimated amount that such provider or facility may charge the participant, beneficiary, or enrollee for such items and services involved, including a notification that the provision of such estimate or consent to be treated under paragraph (3) does not constitute a contract with respect to the charges estimated for such items and services.

(C) In the case of a participating facility and a nonparticipating provider, a list of any participating providers at the facility who are able to furnish such items and services involved and notification that the participant, beneficiary, or enrollee may be referred, at their option, to such a participating provider.

(D) Information about whether prior authorization or other care management limitations may be required in advance of receiving such items or services at the facility

(3) Consent described to be treated by a nonparticipating provider or nonparticipating facility

For purposes of paragraph (1)(B), the consent described in this paragraph, with respect to a

participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer who is to be furnished items or services by a nonparticipating provider or nonparticipating facility, is a document specified by the Secretary, in consultation with the Secretary of Labor, through guidance that shall be signed by the participant, beneficiary, or enrollee before such items or services are furnished and that—

(A) acknowledges (in clear and understandable language) that the participant, beneficiary, or enrollee has been—

(i) provided with the written notice under paragraph (1)(A);

(ii) informed that the payment of such charge by the participant, beneficiary, or enrollee may not accrue toward meeting any limitation that the plan or coverage places on cost-sharing, including an explanation that such payment may not apply to an in-network deductible applied under the plan or coverage; and

(iii) provided the opportunity to receive the written notice under paragraph (1)(A) in the form selected by the participant, beneficiary or enrollee; and

(B) documents the date on which the participant, beneficiary, or enrollee received the written notice under paragraph (1)(A) and the date on which the individual signed such consent to be furnished such items or services by such provider or facility.

(4) Rule of construction

The consent described in paragraph (3), with respect to a participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer, shall constitute only consent to the receipt of the information provided pursuant to this subsection and shall not constitute a contractual agreement of the participant, beneficiary, or enrollee to any estimated charge or amount included in such information.

(e) Retention of certain documents

A nonparticipating facility (with respect to such facility or any nonparticipating provider at such facility) or a participating facility (with respect to nonparticipating providers at such facility) that obtains from a participant, beneficiary, or enrollee of a group health plan or group or individual health insurance coverage offered by a health insurance issuer (or an authorized representative of such participant, beneficiary, or enrollee) a written notice in accordance with subsection (d)(1)(B), with respect to furnishing an item or service to such participant, beneficiary, or enrollee, shall retain such notice for at least a 7-year period after the date on which such item or service is so furnished.

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

SECTION 1. Policy. It is the policy of the United States to plan and prepare for the timely provision of medical countermeasures to the American people in the event of a biological attack in the United States through a rapid Federal response in coordination with State, local, territorial, and tribal governments.

This policy would seek to: (1) mitigate illness and prevent death; (2) sustain critical infrastructure; and (3) complement and supplement State, local, territorial, and tribal government medical countermeasure distribution capacity.

SEC. 2. United States Postal Service Delivery of Medical Countermeasures. (a) The U.S. Postal Service has the capacity for rapid residential delivery of medical countermeasures for self administration across all communities in the United States. The Federal Government shall pursue a national U.S. Postal Service medical countermeasures dispensing model to respond to a large-scale biological attack.

(b) The Secretaries of Health and Human Services and Homeland Security, in coordination with the U.S. Postal Service, within 180 days of the date of this order, shall establish a national U.S. Postal Service medical countermeasures dispensing model for U.S. cities to respond to a large-scale biological attack, with anthrax as the primary threat consideration.

(c) In support of the national U.S. Postal Service model, the Secretaries of Homeland Security, Health and Human Services, and Defense, and the Attorney General, in coordination with the U.S. Postal Service, and in consultation with State and local public health, emergency management, and law enforcement officials, within 180 days of the date of this order, shall develop an accompanying plan for supplementing local law enforcement personnel, as necessary and appropriate, with local Federal law enforcement, as well as other appropriate personnel, to escort U.S. Postal workers delivering medical countermeasures.

SEC. 3. Federal Rapid Response. (a) The Federal Government must develop the capacity to anticipate and immediately supplement the capabilities of affected jurisdictions to rapidly distribute medical countermeasures following a biological attack. Implementation of a Federal strategy to rapidly dispense medical countermeasures requires establishment of a Federal rapid response capability.

(b) The Secretaries of Homeland Security and Health and Human Services, in coordination with the Secretary of Defense, within 90 days of the date of this order, shall develop a concept of operations and establish requirements for a Federal rapid response to dispense medical countermeasures to an affected population following a large-scale biological attack.

SEC. 4. *Continuity of Operations.* (a) The Federal Government must establish mechanisms for the provision of medical countermeasures to personnel performing mission-essential functions to ensure that mission-essential functions of Federal agencies continue to be performed following a biological attack.

(b) The Secretaries of Health and Human Services and Homeland Security, within 180 days of the date of this order, shall develop a plan for the provision of medical countermeasures to ensure that mission-essential functions of executive branch departments and agencies continue to be performed following a large-scale biological attack.

SEC. 5. *General Provisions.*

(a) Nothing in this order shall be construed to impair or otherwise affect:

(i) authority granted by law to a department or agency, or the head thereof; or

(ii) functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(A) practices that restrict authorized access, exchange, or use under applicable State or Federal law of such information for treatment and other permitted purposes under such applicable law, including transitions between certified health information technologies;

(B) implementing health information technology in nonstandard ways that are likely to substantially increase the complexity or burden of accessing, exchanging, or using electronic health information; and

(i) restrict the access, exchange, or use of electronic health information with respect to exporting complete information sets or in transitioning between health information technology systems; or

(ii) lead to fraud, waste, or abuse, or impede innovations and advancements in health information access, exchange, and use, including care delivery enabled by health information technology.

(3) Rulemaking

The Secretary, through rulemaking, shall identify reasonable and necessary activities that do not constitute information blocking for purposes of paragraph (1).

(4) No enforcement before exception identified

The term "information blocking" does not include any practice or conduct occurring prior to the date that is 30 days after December 13, 2016.

(5) Consultation

(2) Penalties

(A) Developers, networks, and exchanges

Any individual or entity described in subparagraph (A) or (C) of paragraph (1) that the Inspector General, following an investigation conducted under this subsection, determines to have committed information blocking shall be subject to a civil monetary penalty determined by the Secretary for all such violations identified through such investigation, which may not exceed \$1,000,000 per violation. Such determination shall take into account factors such as the nature and extent of the information blocking and harm resulting from such information blocking, including, where applicable, the number of patients affected, the number of providers affected, and the number of days the information blocking persisted.

(B) Providers

Any individual or entity described in subparagraph (B) of paragraph (1) determined by the Inspector General to have committed information blocking shall be referred to the appropriate agency to be subject to appropriate disincentives using authorities under applicable Federal law, as the Secretary sets forth through notice and comment rulemaking.

(C) Procedure

The provisions of section 1320a–7a of this title (other than subsections (a) and (b) of such section) shall apply to a civil money penalty applied under this paragraph in the same manner as such provisions apply to a civil money penalty or proceeding under such section 1320a–7a(a) of this title.

Not later than 1 year after December 18, 2015, the WTC Program Administrator shall request the Advisory Committee to review and evaluate the policies and procedures, in effect at the time of the review and evaluation, that are used to determine whether sufficient evidence exists to support adding a health condition to the list in paragraph (3).

(II) Subsequent policies

Prior to establishing any substantive new policy or procedure used to make the determination described in subclause (I) or prior to making any substantive amendment to any policy or procedure described in such subclause, the WTC Program Administrator shall request the Advisory Committee to review and evaluate such substantive policy, procedure, or amendment.

Not later than 1 year after December 18, 2015, and not less than every 2 years thereafter, the WTC Program Administrator shall seek recommendations from the Advisory Committee regarding the identification of individuals to conduct the independent peer reviews under subparagraph (F).

(b) Coverage of treatment for WTC-related health conditions

(1) Determination for enrolled WTC responders based on a WTC-related health condition

(A) In general

If a physician at a Clinical Center of Excellence that is providing monitoring benefits under section 300mm–21 of this title for an enrolled WTC responder makes a determination that the responder has a WTC-related health condition that is in the list in subsection (a)(3) and that exposure to airborne toxins, other hazards, or adverse conditions resulting from the September 1, 2001, terrorist attacks is substantially likely to be a significant factor in aggravating, contributing to, or causing the condition—

(i) the physician shall promptly transmit such determination to the WTC Program Administrator and provide the Administrator with the medical facts supporting such determination; and

(ii) on and after the date of such transmittal and subject to subparagraph (B), the WTC Program shall provide for payment under subsection (c) for medically necessary treatment for such condition.

(B) Review; certification; appeals

(i) Review

A Federal employee designated by the WTC Program Administrator shall review determinations made under subparagraph (A).

(ii) Certification

The Administrator shall provide a certification of such condition based upon reviews conducted under clause (i). Such a certification shall be provided unless the Administrator

(iii) Appeal process

The Administrator shall establish, by rule, a process for the appeal of determinations under clause (ii).

(2) Determination based on medically associated WTC-related health conditions

(A) In general

If a physician at a Clinical Center of Excellence determines pursuant to subsection (a) that the enrolled WTC responder has a health condition described in subsection (a)(1)(A) that is not in the list in subsection (a)(3) but which is medically associated with a WTC-related health condition—

(i) the physician shall promptly transmit such determination to the WTC Program Administrator and provide the Administrator with the facts supporting such determination; and

(ii) the Administrator shall make a determination under subparagraph (B) with respect to such physician's determination.

(B) Procedures for review, certification, and appeal

The WTC Program Administrator shall, by rule, establish procedures for the review and certification of physician determinations under subparagraph (A). Such rule shall provide for—

(i) the timely review of such a determination by a physician panel with appropriate expertise for the condition and recommendations to the WTC Program Administrator;

(ii) not later than 60 days after the date of the transmittal under subparagraph (A)(i), a determination by the WTC Program Administrator on whether or not the condition involved is described in subsection (a)(1)(A) and is medically associated with a WTC-related health condition;

If the WTC Program Administrator provides certification under subparagraph (B)(iii) for coverage of a condition, the Administrator may, pursuant to subsection (a)(6), add the condition to the list in subsection (a)(3).

(D) Conditions already declined for inclusion in list

If the WTC Program Administrator publishes a determination under subsection (a)(6)(B) not to include a condition in the list in subsection (a)(3), the WTC Program Administrator shall not provide certification under subparagraph (B)(iii) for coverage of the condition. In the case of an individual who is certified under subparagraph (B)(iii) with respect to such condition before the date of the publication of such determination the previous sentence shall not apply.

(3) Requirement of medical necessity

(A) In general

In providing treatment for a WTC-related health condition, a physician or other provider shall provide treatment that is medically necessary and in accordance with medical treatment protocols established under subsection (d).

(B) Regulations relating to medical necessity

For the purpose of this subchapter, the WTC Program Administrator shall issue regulations

specifying a standard for determining medical necessity with respect to health care services and prescription pharmaceuticals, a process for determining whether treatment furnished and pharmaceuticals prescribed under this subchapter meet such standard (including any prior authorization requirement), and a process for appeal of a determination under subsection (c)(3).

(4) Scope of treatment covered

(A) In general

The scope of treatment covered under this subsection includes services of physicians and other health care providers, diagnostic and laboratory tests, prescription drugs, inpatient and outpatient hospital services, and other medically necessary treatment.

(5) Provision of treatment pending certification

With respect to an enrolled WTC responder for whom a determination is made by an examining physician under paragraph (1) or (2), but for whom the WTC Program Administrator has not yet determined whether to certify the determination, the WTC Program Administrator may establish by rule a process through which the Administrator may approve the provision of medical treatment under this subsection (and payment under subsection (c)) with respect to such responder and such responder's WTC-related health condition (under such terms and conditions as the Administrator may provide) until the Administrator makes a decision on whether to certify the determination.

(c) Payment for initial health evaluation, monitoring, and treatment of WTC-related health conditions

(1) Medical treatment

(A) Use of FECA payment rates

(i) In general

Subject to clause (ii):

(I) Subject to subparagraphs (B) and (C), the WTC Program Administrator shall reimburse costs for medically necessary treatment under this subchapter for WTC-related health conditions according to the payment rates that would apply to the provision of such treatment and services by the facility under the Federal Employees Compensation Act.

(II) For treatment not covered under subclause (i) or subparagraph (B), the WTC Program Administrator shall establish by regulation a reimbursement rate for such treatment.

(ii) Exception

In no case shall payments for products or services under clause (i) be made at a rate higher than the Office of Worker's Compensation Programs in the Department ¹Labor would pay for such products or services rendered at the time such products or services were provided.

(B) Pharmaceuticals

(iii) Treatment of FDNY participants

Under such program the Administrator may enter into an agreement with a separate vendor to provide pharmaceutical benefits to enrolled WTC responders for whom the Clinical Center of Excellence is described in section 300mm—4 of this title if such an arrangement is deemed necessary and beneficial to the program by the WTC Program Administrator.

(iv) Pharmaceuticals

Not later than July 1, 2011, the Comptroller General of the United States shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate a report on whether existing Federal pharmaceutical purchasing programs can provide pharmaceutical benefits more efficiently and effectively than through the WTC program.

(C) Improving quality and efficiency through modification of payment amounts and methodologies

The WTC Program Administrator may modify the amounts and methodologies for making payments for initial health evaluations, monitoring, or treatment, if, taking into account utilization and quality data furnished by the Clinical Centers of Excellence under section 300mm—4(b)(1)(B)(iii) of this title, the Administrator determines that a bundling, capitation, pay for performance, or other payment methodology would better ensure high quality and efficient delivery of initial health evaluations, monitoring, or treatment to an enrolled WTC responder, screening-eligible WTC survivor, or certified-eligible WTC survivor.

(2) Monitoring and initial health evaluation

The WTC Program Administrator shall reimburse the costs of monitoring and the costs of an initial health evaluation provided under this subchapter at a rate set by the Administrator by regulation.

(B) Withholding of payment for medically unnecessary treatment

The Administrator shall withhold such reimbursement or payment for treatment that the Administrator determines is not medically necessary or is not in accordance with such medical treatment protocols.

(d) Medical treatment protocols

(1) Development

The Data Centers shall develop medical treatment protocols for the treatment of enrolled WTC

responders and certified-eligible WTC survivors for health conditions included in the applicable list of WTC-related health conditions.

(2) Approval

The medical treatment protocols developed under paragraph (1) shall be subject to approval by the WTC Program Administrator.

(b) Workers' compensation payment

(1) In general

Subject to paragraph (2), payment for treatment under subparts 1 and 2 of this part of a WTC-related health condition of an individual that is work-related shall be reduced or recouped to the extent that the WTC Program Administrator determines that payment has been made, or can reasonably be expected to be made, under a workers' compensation law or plan of the United States, a State, or a locality, or other work-related injury or illness benefit plan of the employer of such individual, for such treatment. The provisions of clauses (iii), (iv), (v), and (vi) of paragraph (2)(B) of section 1862(b) of the Social Security Act [42 U.S.C. 1395y(b)] and paragraphs (3) and (4) of such section shall apply to the recoupment under this subsection of a payment to the WTC Program (with respect to a workers' compensation law or plan, or other work-related injury or illness plan of the employer involved, and such individual) in the same manner as such provisions apply to the reimbursement of a payment under section 1862(b)(2) of such Act [42 U.S.C. 1395y(b)(2)] to the Secretary (with respect to such a law or plan and an individual entitled to

benefits under title XVIII of such Act [42 U.S.C. 1395 et seq.]) except that any reference in such paragraph (4) to payment rates under title XVIII of the Social Security Act shall be deemed a reference to payment rates under this subchapter.

(2) Exception

Paragraph (1) shall not apply for any quarter, with respect to any workers' compensation law or plan, including line of duty compensation, to which New York City is obligated to make payments, if, in accordance with terms specified under the contract under subsection (d)(1)(A), New York City has made the full payment required under such contract for such quarter.

(3) Rules of construction

Nothing in this subchapter shall be construed to affect, modify, or relieve any obligations under a worker's compensation law or plan, other work-related injury or illness benefit plan of an employer, or any health insurance plan.

(c) Health insurance coverage

(1) In general

In the case of an individual who has a WTC-related health condition that is not work-related and has health coverage for such condition through any public or private health plan (including health benefits under title XVIII, XIX, or XXI of the Social Security Act [42 U.S.C. 1395 et seq., 1396 et seq., 1397aa et seq.]) the provisions of section 1862(b) of the Social Security Act [42 U.S.C. 1395y(b)] shall apply to such a health plan and such individual in the same manner as they apply to group ¹ health plan and an individual entitled to benefits under title XVIII of such Act pursuant to section 226(a) of such Act [42 U.S.C. 426(a)]. Any costs for items and services covered under such plan that are not reimbursed by such health plan, due to the application of deductibles, copayments, coinsurance, other cost sharing, or otherwise, are reimbursable under this subchapter to the extent that they are covered under the WTC Program. The program under this subchapter shall not be treated as a legally liable party for purposes of applying section 1902(a)(25) of the Social Security Act [42 U.S.C. 1396a(a)(25)].

(2) Recovery by individual providers

Nothing in paragraph (1) shall be construed as requiring an entity providing monitoring and treatment under this subchapter to seek reimbursement under a health plan with which the entity has no contract for reimbursement.

(3) Maintenance of required minimum essential coverage

No payment may be made for monitoring and treatment under this subchapter for an individual for a month (beginning with July 2014) if with respect to such month the individual—

Such contract shall specify the terms under which New York City shall be considered to have made the full payment required for a quarter for purposes of subsection (b)(2).

(B) Full contribution amount

Under such contract, with respect to each calendar quarter of fiscal year 2016 and of each subsequent fiscal year through fiscal year 2090, the full contribution amount under this subparagraph shall be equal to 10 percent of the expenditures in carrying out this subchapter for the respective quarter (excluding any expenditures from amounts in the World Trade Center Health Program Supplemental Fund under section 300mm–62 of this title).

(C) Satisfaction of payment obligation

The payment obligation under such contract may not be satisfied through any of the following:

- (i) An amount derived from Federal sources.

If New York City fails to pay to the WTC Program Administrator pursuant to such contract the amount required for any calendar quarter by the day specified in subparagraph (D), interest shall accrue on the amount not so paid at the rate (determined by the Administrator) based on the average yield to maturity, plus 1 percentage point, on outstanding municipal bonds issued by New York City with a remaining maturity of at least 1 year.

(ii) Recovery of amounts owed

The amounts owed to the WTC Program Administrator under such contract shall be recoverable by the United States in an action in the same manner as payments made under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.] may be recoverable in an action brought under section 1862(b)(2)(B)(iii) of such Act [42 U.S.C. 1395y(b)(2)(B)(iii)].

(F) Deposit in fund

The WTC Program Administer shall deposit amounts paid under such contract into the World Trade Center Health Program Fund under section 300mm–61 of this title.

(2) Payment of New York City share of monitoring and treatment costs

With respect to each calendar quarter for which a contribution is required by New York City under the contract under paragraph (1), the WTC Program Administrator shall—

- (B) bill such amount directly to New York City; and
- (C) certify periodically, for purposes of this subsection, whether or not New York City has paid the amount so billed.

Such amount shall initially be estimated by the WTC Program Administrator and shall be subject to adjustment and reconciliation based upon actual expenditures in carrying out this subchapter (excluding any expenditures from amounts in the World Trade Center Health Program Supplemental Fund under section 300mm–62 of this title).

(3) Rule of construction

Nothing in this subsection shall be construed as authorizing the WTC Administrator, with respect to a fiscal year, to reduce the numerical limitation under section 300mm–21(a)(4) or 300mm–31(a)(3) of this title for such fiscal year if New York City fails to comply with paragraph (1) for a calendar quarter in such fiscal year.

(e) Work-related described

For the purposes of this section, a WTC-related health condition shall be treated as a condition that is work-related if—

(1) the condition is diagnosed in an enrolled WTC responder, or in an individual who qualifies as a certified-eligible WTC survivor on the basis of being a rescue, recovery, or cleanup worker; or

(2) with respect to the condition the individual has filed and had established a claim under a workers' compensation law or plan of the United States or a State, or other work-related injury or illness benefit plan of the employer of such individual.
